To whom it may concern:

I have been a resident of Fairchilds for almost 10 years. I have a passion for serving my community and I would like to join the ESD No. 10 as a member. I currently volunteer on medical committees for the Fort Bend County Fair Association and the Houston Livestock Show and Rodeo. I'm also the secretary for the Needville Fall Festival, a local organization that provides scholarships to youth in our community.

I have been a Registered Nurse for 18 years. My background in nursing is primarily in home health services for the pediatric medically-fragile population. I have a deep appreciation for the vital role emergency services play in protecting our communities. With the recent rapid growth in the Fairchilds area, these services must be well-supported, well-coordinated, and prepared to meet the growing need of our district. I am honored to apply for the opportunity to serve on the ESD No. 10 board and contribute to the continued improvement of emergency preparedness and response in our area.

Please accept this letter as my application to serve as a commissioner of my community's ESD.

Sincerely,

Brittany Buzek
