Culturally Specific and Underserved Populations

Does your program have a primary focus on serving a culturally specific population? (The organization must do more than merely provide services to an underserved population as defined by 34 USC § 12291 (a)(46) or culturally specific group; rather, the organization's primary focus must be on providing culturally competent services as defined by 34 USC § 12291(a)(9) designed to meet the specific needs of the target population in order to justify a YES response in the section below.)

No

Eligibility Requirements

In addition to the requirements found in existing statute, regulation, and the funding announcement, this program requires applicant organizations to certify compliance with the following:

Resolution from Governing Body

Applications from nonprofit corporations, local units of governments, and other political subdivisions must submit a fully executed resolution with the application to be considered eligible for funding. The resolution must contain the following elements (see [Sample Resolution](#)):

- Authorization by your governing body for the submission of the application to the Public Safety Office (PSO) that clearly identifies the name of the project for which funding is requested;
- A commitment to provide all applicable matching funds;
- A designation of the name and/or title of an authorized official who is given the authority to apply for, accept, reject, alter, or terminate a grant;
- A designation of the name and/or title of a financial officer who is given the authority to submit financial and/or performance reports or alter a grant; and
- A written assurance that, in the event of loss or misuse of grant funds, the governing body will return all funds to PSO.

Grant Eligibility Regarding Compelling Victim Testimony:

In accordance with 34 USC § 10454, in order for a prosecutor's office to be eligible to receive grant funds under this subchapter, the head of the office shall certify to the State receiving the grant funding that the office will, during the 3-year period beginning on the date on which the grant is awarded, engage in planning, developing and implementing—

- (1) training developed by experts in the field regarding victim-centered approaches in domestic violence, sexual assault, dating violence, and stalking cases;
- (2) policies that support a victim-centered approach, informed by such training; and
- (3) a protocol outlining alternative practices and procedures for material witness petitions and bench warrants, consistent with best practices, that shall be exhausted before employing material witness petitions and bench warrants to obtain victim-witness testimony in the investigation, prosecution, and trial of a crime related to domestic violence, sexual assault, dating violence, and stalking of the victim in order to prevent further victimization and trauma to the victim.

Constitutional Compliance

Applicant assures that it will not engage in any activity that violates Constitutional law including profiling based upon race.

Forensic Medical Examination Payments

Health care facilities shall conduct a forensic medical examination of a victim of an alleged sexual assault if the victim arrived at the facility within 120 hours after the assault occurred and the victim consents to the examination. The victim is not required to participate in the investigation or prosecution of an offense as a condition of receiving a forensic medical examination, nor pay for the forensic examination or the evidence collection kit. Crime Victim Compensation funds may be used to pay for the medical portion of the exam unless the victim of sexual assault is required to seek reimbursement for the examination from their insurance carrier. If a health care facility does not provide diagnosis or treatment services for sexual assault victims, the facility is required to refer the victim to a facility that provides those services.

Polygraph Testing Prohibition

A peace officer or attorney representing the state may not require an adult or child victim of an alleged sex offense to submit to a polygraph examination or other truth telling device as a condition for proceeding with the investigation of such an offense. In addition, the refusal of a victim to submit to a polygraph or other truth telling examination will not prevent the investigation, charging, or prosecution of an alleged sex offense or on

the basis of the results of a polygraph examination.

Protection Orders

Victims applying for a protective order or their attorney may not bear the costs associated with the filing of an order of protections.

Offender Firearm Prohibition

The applicant certifies that its judicial administrative policies and practices include notification to domestic violence offenders of the requirements delineated in section 18 USC § 992(g)(8) and (g)(9).

This may include physical violence, sexual violence, stalking, and psychological aggression (including coercive tactics) by a current or former intimate partner against the survivor or survivor's kin sharing the residence. Through acceptance of this award, grantee agrees that reimbursement for divorce and custody-related legal services will be limited to circumstances listed above.

Community Efforts

Applicant agrees to promote community efforts to aid crime victims. Applicants should promote, within the community, coordinated public and private efforts to aid crime victims. Coordination efforts qualify an organization to receive these funds, but are not activities that can be supported with these funds.

No Charge

Applicant agrees to provide grant-funded services at no charge to victims of crime. Applicants are also prohibited from billing Crime Victims Compensation, private insurance, Medicaid, or Medicare for services provided using VAWA funds.

Discrimination

Applicant agrees not to discriminate against victims because they disagree with the State's prosecution of the criminal case.

Project Abstract :

The initiative aims to address domestic violence within the county by enhancing the capabilities of the Criminal Investigations Division through the continued funding of a domestic violence investigator. Acknowledging the vital role of cultural diversity in fostering strong community relations, this proposed project seeks to support the Fort Bend County Sheriff's Office in becoming a model for inclusive and culturally competent policing. This grant will provide additional investigative resources and specialized training for the Sheriff's Office investigators, equipping them to better serve the diverse community. Fort Bend County, as reported by the Census Bureau, has experienced significant growth, with its population reaching 916,778—a notable increase of 3.13%. The Texas Diversity Index highlights the county's expanding cultural diversity, with the population comprising as follows, 76.3% White, 51.4% Hispanic or Latino, 24.7% Asian, and 22.7% Black residents. Renowned for its cultural richness, Fort Bend County exemplifies diversity in Texas, weaving together a vibrant array of ethnicities, languages, and traditions that reflect the nation's multicultural fabric. Given the increased number of domestic violence reports, this funded position will enable thorough investigations and victim services, and intervention needed to secure victim safety and advocacy, as well as contribute to the prosecution of offenders.

Problem Statement :

This grant focuses on addressing the growing issue of domestic violence in Fort Bend County by establishing a dedicated Domestic Violence Investigator position within the Fort Bend County Sheriff's Office. A specialized investigator is essential for effectively managing the increasing challenges posed by domestic violence in the community. This role will bring critical expertise in navigating the complex dynamics of domestic violence cases, ensuring a more tailored and victim-centered approach. By providing targeted resources, advanced training, and comprehensive support, the investigator will play a pivotal role in enhancing the safety and well-being of residents impacted by domestic violence throughout Fort Bend County.

Supporting Data :

There is a critical need for law enforcement personnel to receive specialized, skills-based training and participate in joint, multidisciplinary exercises. Investigators dedicated to family violence and violent crimes against women play an essential role in addressing these serious issues. This priority is underscored in the 2022-2023 Fort Bend Public Safety Community Plan, which highlights significant deficiencies in specialized training and collaborative exercises for law enforcement, as well as the lack of sufficient funding to provide resources and support to victims. The plan also reveals alarming trends: domestic violence fatalities in Fort Bend County increased by 75% in one year, rising from four deaths to seven. Additionally, the Family Violence Unit reported a 58% increase in domestic violence cases referred for charges. These statistics underscore the urgency of equipping law enforcement with the necessary tools and training to effectively combat these crimes and provide victim assistance. Whether responding to incidents of crime or fostering positive relationships through community policing, law enforcement agencies across Fort Bend County share a pressing need for additional investigators and victim assistance personnel. Meeting these needs is crucial to enhancing public safety and addressing the growing challenges associated with domestic violence and violent crimes against women.

Project Approach & Activities:

The mission of the Family Violence Unit and the investigator funded by this project is to elevate the effectiveness of investigations for domestic violence victims. The Sheriff's office has initiated and will continue a vital program to strengthen the agency's response to domestic violence incidents. This unit aims to advance the skills and capabilities of law enforcement officers through specialized training, ensuring a more targeted and thorough approach to handling domestic violence cases. By keeping up with the latest investigative techniques, utilizing advanced technology, and collaborating with other agencies, they aim to enhance the overall investigative process. Additionally, the investigator will work to improve the quality of cases referred to the Fort Bend County District Attorney's office, aiming to boost the overall conviction rate. The investigator will also work to inform and educate the public on domestic violence prevention and how to break the cycle of violence. The investigator will also work to inform and educate the public on domestic violence prevention and

how to break the cycle of violence.

Capacity & Capabilities:

The Fort Bend County Sheriff's Office seeks to operationalize best practices in policing and evidence-based criminal investigations to advance this domestic violence intervention project. The Sheriff's Office is led by Sheriff Eric Fagan, a 34-year law enforcement senior leader. The Office employs 792 employees, including 100 criminal investigators. The Office consists of three bureaus, 14 Divisions, including a regional law enforcement academy. The Family Violence Unit is under the leadership of Captain Scott Heinemeyer in the Criminal Investigations Unit and this position is currently filled with a subject matter expert who is also a Texas licensed attorney well-versed on family law. The Family Violence Unit has been active since 1996 and is led by Detective Leatherman. The domestic violence investigator capabilities will be strengthened through specialized training, continued professional training and professional training opportunities and continued support of the leadership team. Training for the Domestic Violence Investigator will include seminars offered by the State of Texas designed to enhance skills related to domestic violence and sexual assault investigations. These trainings help will help the investigator gain enhanced preparedness and expertise in the investigation of domestic and family violence incidents. They will contribute to strengthened collaboration between the Sheriff's Office and the many municipal agencies within Fort Bend County that current collaborate with the Sheriff's Office, as well as with community resources and effective support for victims through a specialized and trauma-informed approaches.

Performance Management :

The overall goals for this program are to expand the investigator knowledge base and capabilities to investigate increased numbers of domestic and family violence cases within the County and to provide effective intervention and advocacy services to victims and survivors. Objectives include to reduce by 10%, the number of repeated domestic and family violence reports through effective investigation, intervention, and advocacy each year, and to increase the number of cases adjudicated through the courts by at least 5% over the prior year. The strategies to be applied in this project include enhanced trauma-informed approaches, effort to diminish investigator biases, and reduce the presence and comprehension of barriers to reporting assault and domestic and family violence. Data will be tracked via the Central Square Tiburon Records Management System and through spreadsheets to document reports, case clearances, and court adjudication. Quantitative as well as qualitative data will be collected through descriptive statistics, and information gathered from victims and advocates.

Target Group :

The primary focus of the Family Violence Unit at the Fort Bend County Sheriff's Office is on women who have experienced domestic violence. Fort Bend County has an estimated population of approximately 900,000 people, with 355,937 of them being adult females. The county's demographic breakdown is as follows: 76.3% White, 29.6% Hispanic or Latino, 24.1% Asian, and 22.1% of other ethnicities. Data indicates that 1 in 4 women will be victims of domestic abuse by an intimate partner. Our unit's primary target group is women who have been abused by domestic partners. These women face numerous challenges, including fear, shame, guilt, financial distress, lack of shelter, loss of careers, distrust, and lowered self-esteem, among others.

Evidence-Based Practices:

According to a comprehensive review conducted by the Texas Council on Family Violence (2022), analyzing over 300 homicide cases, a staggering revelation emerged. The study identified that within the examined cases, 216 Texans tragically lost their lives to intimate partner or stalking homicides. This evidence underscores the critical need for targeted interventions and evidence-based policies to address the alarming prevalence of domestic violence in the state of Texas. The findings from this extensive review emphasize the urgency of providing ongoing support implementing effective strategies to prevent and respond to intimate partner and stalking violence. It serves as a stark reminder of the profound impact that domestic violence can have on individuals and communities, highlighting the imperative for evidence-based practices to enhance victim protection, offender accountability, and overall public safety. The Texas Council on Family Violence's research contributes crucial insights that guides the development and refinement of policies aimed at addressing and curbing the tragic consequences of intimate partner abuse and stalking homicides in the state of Texas.
