CIO as a Functional Leader

The CIO's role starts with leadership of the IT function and organization, leading delivery across the enterprise that lays the foundation for business growth. In this track, we focus on managing the impact of AI across the IT infrastructure, evolving with the risk environment, and operational resilience that allows the organization to thrive.

CIO as CxO

CIOs are now looked to for leadership beyond just traditional IT — all while driving business impact and C-suite partnership. In this track, we focus on leading the technology lens of the business, developing your influence, cultivating the skills needed to lead into the future.
