

2026 Conference Theme

Ignite Intelligence

AI is no longer a differentiator — it's now part of the foundation. CIOs must take the artificial out of intelligence, combining human ingenuity with AI to unlock value, drive agility and navigate disruption. A human-centered approach is key to leading the intelligent enterprise.

Explore our conference sessions below, all developed with this theme in mind.

Hear from a long-term Gartner IT Symposium/Xpo attendee on why he keeps coming back.
