<u>RECOMMENDATION / ACTION REQUESTED:</u>
Accept Monthly Report for May and June 2009.
Special Handling Requested (specify):

DRAINAGE DISTRICT
FORT BEND COUNTY, TEXAS

Monthly Report
May 2009

The removal of vegetation from channels during May, 2009 was accomplished by shredding and by herbicide applications. Shredding was done on one hundred fourteen (114) channels that included Snake Creek I-C, Red Gully II-K-9, Brays Bayou IX, and Sims Bayou VIII-A.

Herbicides were applied to fifty-nine (59) channels that included Cedar Creek I-B, Flewellen Ditch II-E-10, Bullhead Slough II-L, and Clear Creek VI.

The bridge crew worked on a variety of projects that included the repair of a watergate across Fairchilds Creek II-B-10-b, and fences on Robinowitz Ditch II-M. The crew also continued with the installation of low water weirs within the channel of Oyster Creek II-K downstream of FM 1092, and the replacement of a bridge across Robinowitz Ditch II-M.

The following charts indicate which projects received work and the equipment assigned to each during May, 2009.

DRAINAGE DISTRICT
FORT BEND COUNTY, TEXAS

Monthly Report
June 2009

The removal of vegetation from channels during June, 2009 was accomplished by shredding and by herbicide applications. Shredding was done on one hundred eleven (111) channels that included Buffalo Creek I-B-3, Jones Creek II-E-1, Mustang Creek IV, and Sims Bayou VIII-E.

Herbicides were applied to forty-seven (47) channels that included Big Creek II-B, Lower Oyster Creek III, Keegans Bayou VII-B, and Stafford Run II-K-1.

The bridge crew worked on a variety of projects that included the repair of watergates across Flewellen Ditch II-E-10 and Dry Creek II-B-2. The crew also replaced a bridge across Fairchilds Creek II-B-10-b, and repaired a bridge across Dry Creek II-B-2.

Work began on the excavation of Seabourne Creek II-B-4 on June 23rd. This project will enlarge Seabourne Creek from U. S. Highway 59 to Blume Road. It is a cooperative project with the City of Rosenberg who prepared the construction plans, and obtained the right-of-way and permits. The Drainage District will clear the right-of-way, do the excavation, install the drop inlet pipes, and provide the final ground cover.

The following charts indicate which projects received work and the equipment assigned to each during June, 2009.
