**RECOMMENDATION / ACTION REQUESTED:**

Accept Monthly Report for January 2010.

Special Handling Requested (specify):

## **DRAINAGE DISTRICT**

Fort Bend County, Texas

### **Monthly Report January 2010**

Wet ground conditions hampered the removal of vegetations from channels during January 2010 with the exception of shredding Rabbs Bayou on the twenty-fifth of January and shredding the landfill. The employees usually involved with those activities were redirected to equipment repair and maintenance. Equipment was also readied for herbicide applications that should begin in February if weather permits.

The bridge crew worked on a variety of projects that included the repair of Watergates on Big Creek II-B and II-B-3. They also built a new bridge across Seabourne Creek II-B-4.

Maintenance work was also done on Big Creek II-B and Seabourne Creek II-B-4. A set of pipes were also replaced on Buffalo Creek II-B-3.

The following charts indicate which projects received work and which equipment was assigned to each during January 2010.
