## Narrative Information

### General Approaches

- Pre-adjudication - The defendant is diverted to the treatment program in lieu of prosecution before charges are filed or before final case.
- Post-adjudication - The drug offender begins the drug court program after entering a plea of guilty or nolo contendere or having been found guilty, often as a condition of probation.
- Reentry - Offenders completing sentences of incarceration or lengthy terms of residential treatment are ordered into the treatment program to facilitate their transition and reintegration into society.
- Civil - Participants enter the drug court program in relation to suits affecting the parent-child relationship, child welfare / CPS cases, child support cases, or other civil matters.

### **Problem Statement:**

Please provide a detailed account in the Problem Statement section of the existing issues your project will target.

Enter your problem statement:

Fort Bend County has limited substance abuse resources and individuals arrested for a drug-related or alcohol-related offense usually return to their criminal activity and substance abuse habit upon release from jail. Without the existence of the Drug and DWI Courts the local court system has limited mechanisms through which it can effectively handle nonviolent drug offenders and offenders arrested for an alcohol related offense. Occasionally, Community Supervision is unaware of an existing substance abuse problem which creates a lapse in time before appropriate assessments and treatment services occurs. The Fort Bend County DWI Court and Drug Courts seeks to alleviate this problem through early identification of substance abuse disorders, intensive substance abuse treatment and court intervention.

### **Supporting Data:**

Provide as much supporting data, to include baseline statistics and the sources of your data, which are pertinent to where the grant project is located and/or targeted. Do not use statewide data for a local problem or national data for a statewide problem.

Enter your supporting data:

The primary substances being abused in Fort Bend County are alcohol, crack cocaine, marijuana and prescription drugs. Other substances being abused include amphetamines, methamphetamines, PCP and opiates. Repeat offenses, as a norm, are the result of a lack of treatment services to effectively address the problem of substance abuse. According to the United States Census Bureau in the year 2000 Fort Bend County population was 354,452 and in year 2008 had an estimated population of 532,141, which indicates a growth rate of 50% in eight years. With the growing population in Fort Bend County, the need for additional and more intensive substance abuse treatment services also continues to grow. The State Office of Court Administration indicates that, in FY 2009, 6,439 misdemeanor criminal cases and 3,063 felony criminal cases were filed in Fort Bend County. Of the misdemeanor cases filed in FY 2009 38% were alcohol or drug related offenses and of the felony cases filed in FY 2009 27% were alcohol or drug related offenses. This percentage does not include theft or property crimes, which is commonly associated with substance abuse. Of the 11,907 criminal cases that were pending in Fort Bend County on 08/31/2009 27% were classified as alcohol or drug related offenses. According to the Fort Bend County Community Supervision and Correction Department's Offender Profile Data at the end of fiscal year 2009, 42% of individuals under direct supervision were placed on Community Supervision for an alcohol or drug related offense. In 2008, the Fort Bend Regional Council on Substance Abuse (one of the CSCD contracted providers) assessed 931 individuals and of that number, 812 (87%) were determined to have a chemical dependency problem requiring

treatment. A recent study completed by the Fort Bend County Community Supervision and Corrections Department indicates that the Misdemeanor DWI Court Program has a recidivism rate of .06% over a four-year period and the Felony Drug Court Program (CARD) has a recidivism rate of 14.5% over a three-year period.

### **Community Plan:**

For projects that have a local or regional impact target area, provide information regarding the community plan need(s) that your project will address.

Enter your community planning needs:

Limited substance abuse treatment resources & services

### **Goal Statement:**

Provide a brief description of the overall goals and objectives for this project.

Enter a description for the overall goals and objectives:

The goal of the programs are to reduce recidivism by providing an effective and accountable response from the criminal justice system that breaks the cycle of drug and alcohol addiction and criminality in our community. The programs are also designed to promote a sober and healthy lifestyle through brokering community treatment services and promoting community safety.

### **Cooperative Working Agreement (CWA):**

When a grantee intends to carry out a grant project through cooperating or participating with one or more outside organizations, the grantee must obtain authorized approval signatures on the cooperative working agreement (CWA) from each participating organization. Grantees must maintain on file a signed copy of all cooperative working agreements, and they must submit to CJD a list of each participating organization and a description of the purpose of each **CWA**. Cooperative working agreements do not involve an exchange of funds.

For this project, provide the name of the participating organization(s) and a brief description of the purpose(s) for the **CWA(s)**. You should only provide information here that this project's successful operation is contingent on for the named service or participation from the outside organization.

Note: A **Sample CWA** is available [here](#) for your convenience.

Enter your cooperating working agreement(s):

Fort Bend County District Attorney's Office: provides prosecutors for cases assigned to the Drug and DWI Courts and serves as team members for each assigned Court.

### **Continuation Projects:**

For continuation projects only, if your current or previous year's project is NOT on schedule in accomplishing the stated objectives, briefly describe the major obstacles preventing your organization from successfully reaching the project objectives as stated within your previous grant application. (Data may be calculated on a pro-rated basis depending on how long the current or previous year's project has been operating.)

Enter your current grant's progress:

The current project is exceeding objectives in regards to number of new enrollments, number of participants served, number of clients that successfully complete the programs and number of people assessed for eligibility. All other project objectives are on schedule in accomplishing reported output measures/goals.

### **Project Summary:**

Briefly summarize the entire application, including the project's problem statement, supporting data, goal, target group, activities, and objectives. Be sure that the summary is easy to understand by a person not familiar with your project and that you are confident and comfortable with the information if it were to be released under a public information request.

Enter your summary statement for this project:

Fort Bend County has limited resources to effectively handle individuals arrested for a non-violent drug or alcohol related offense. Although there are existing alternatives through community supervision there is still a need for more intensive programs such as the CARD Program (Felony Drug Court), Misdemeanor Drug Court and the DWI Court. When individuals are placed on Community Supervision with an existing substance abuse problem, there is often a lapse in time before the problem is identified and appropriate assessments and referrals to treatment services occurs. The Drug Courts and the DWI Court immediately identifies individuals with a substance abuse problem and provides immediate assessments and referrals to treatment services. The primary goal of each program is to provide an effective and accountable response by the criminal justice system that breaks the cycle of drug and alcohol addiction and criminality in our community. The programs are also designed to promote a sober and healthy lifestyle through brokering community treatment services and promoting community safety while at the same time reducing recidivism. The primary focus of the Felony Drug Court Program (CARD) is on State Jail Felony and/or Third Degree non-violent felony offenders with the underlying issue being a substance abuse problem. Other felonies of other levels, including felony DWI, are considered on a case-by-case base. The Misdemeanor Drug Court focuses on individuals charged with a Misdemeanor Possession of Marijuana or a Misdemeanor Possession of a Controlled Substance. Other non-violent Misdemeanor charges are considered if the underlying circumstances of the offense involve substance abuse. The DWI Court Program focuses on individuals charged with a Misdemeanor class A DWI arrest. Class B Misdemeanor DWI offenders who have demonstrated a

significant substance abuse problem may be considered on a case by case basis depending upon program availability. Each program's operational guidelines include the ten key components as established by the National Association of Drug Court Professionals (NADCP). After an individual is arrested, a pre-trial interview is conducted and individuals are screened for possible referral to the CARD Program, Misdemeanor Drug Court or the DWI Court. Offenders who are currently on community supervision and have demonstrated a significant substance abuse problem may also be referred to the appropriate program with the courts approval. Once the criteria for admission to the program have been met, the participant will meet with the Drug Court Officer who will conduct an intake that will include a complete social and substance abuse history. Participants will be immediately referred for a Substance Abuse Evaluation with a designated treatment provider who will identify treatment needs and refer the participant to the appropriate treatment services. The treatment provider, Drug Court Officer and the program participant work together to develop an individual treatment plan. Participants will also be required to submit to random alcohol/drug screening. Each program activities consist of three phases with the exception of the CARD program, which consist of a Preliminary Recovery Exposure Phase along with the three phases. The participants are required to attend weekly court sessions, submit to random drug/alcohol testing, attend 12-Steps Meetings, attend substance abuse treatment, individual and/or family counseling, peer support meetings and aftercare group. Participants are also required to report to their assigned Drug Court Officer and are subject to monthly home/field visits by their assigned Drug Court Officer. Treatment and supervision requirements can be adjusted at any time during any phase to meet the participant's need, which may include referrals to residential substance abuse treatment. Graduated sanctions and incentives are utilized throughout the program phases to assist in the success of the participant. Participants are also assessed and referred to a cognitive behavioral program. Successful completion of each program is determined once the participants has completed all phases of the program, met all treatment goals and objectives and remained drug and alcohol free. These specialized programs were established as follows: felony drug court January 2002, DWI court February 2006, Misdemeanor drug court March 2006.

## Project Activities Information

### Selected Project Activities:

ACTIVITY	PERCENTAGE:	DESCRIPTION
Drug Court - Adult	100.00	Provide court supervised substance abuse treatment to adult offenders as an alternative to traditional criminal or civil sanctions. The programs are special "Problem-Solving" courts given the responsibility to handle cases involving drug-using and DWI offenders through intense supervision, random alcohol/drug testing, alcohol/drug treatment and immediate sanctions and incentives. Initially, offenders are under daily contact from members of the Court Teams, which includes weekly court appearances and office visits with supervision officers. Participants are referred to drug/alcohol treatment within twenty four hours of entering the program. Treatment options utilized by the Courts are intensive outpatient, supportive outpatient, individual counseling, 12 step meetings, psychological counseling and residential alcohol/drug treatment. With the exception of participants in the DWI Court Program, all must complete Moral Reconciliation Therapy, which is a cognitive behavior program. Participants may also be referred to educational and job training based on individual needs. Graduated sanctions, including jail time, are imposed for noncompliance. Sanctions include admonishments by the court, more restrictive conditions, curfew, and phase demotion within the program. Electronic monitoring, jail time, community service, and prison for a day program, along with writing assignments are also utilized. Conversely, incentives are applied for continual compliance. Incentives include certificates of achievement, gifts and gift certificates, praise from the bench, court applause, less restrictive conditions within the program, promotion within program, and ultimate dismissal of the case if eligible. A defendant who has met his/her requirements for the week will be a Lifesaver for that week. Participants also participate in a monthly group social.
