Dear Customer:

First, let us say thank you for your business and loyalty to Vulcan Materials Company. Effective July 1, 2010 Vulcan will increase our course aggregates \$1.50 per ton and \$0.75 per ton on base.

As you are aware, the construction industry is facing increasing cost in many areas. The most significant to our business is fuel and transportation which have increased dramatically in the past quarter. Because of these costs and the commitment we have to you to provide the best service and quality we must increase our pricing in the Coastal and East Texas Regions.

We are optimistic about the future and committed to providing you the highest quality construction material in the industry. Your products and services as well as those that Vulcan manufactures are vital to our State and Nation's economy. We wish you success in the remainder of 2010. If you have any questions, please contact your local sales representative or me at 281-276-4900.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Warr".

Kenny Warr  
Area Sales Manager

Due to the increase in costs and the demand of oil, Midstate Environmental Services has no choice but to raise our pricing for Burner Fuel. Effective April 20, 2010, burner fuel will be raised to \$1.10/gallon.

As always we value your business and look forward to continuing to service your needs.

If you should have any questions, please feel free to call me at: 361-438-1311

Sincerely,

William B Sturges
