

ANNOUNCEMENT

Fort Bend County and its Judicial Steering Team are the winners of Tyler Technologies Public Sector ***2010 Excellence Award for EFFICIENCY.***

The award will be presented in May at Tyler Technologies' annual User Conference in San Antonio.

In 2009, Texas Association of Counties presented Fort Bend County and the Judicial Steering Team a ***Best Practice Innovation Award for TEAM MODEL STRUCTURE FOR PROJECT MANAGEMENT.***

These prestigious awards are the results of the hard-earned efforts by hundreds of employees and elected officials during this five year project of installing an integrated justice system called Odyssey. The project involved configuration, conversion, training and implementation. All phases were completed by August 2010.

With the integration of Odyssey, the county eliminated over 12 justice applications with an annual savings of over \$100,000.
