Total installation and labor excluding taxes is: 79,016.60

DA Mid South provides 1 year warranty of equipment and a 90 day labor warranty. Proposal is based on the points list listed below, and uninterrupted installation availability. Client delays may incur additional mobilization charges. Tax is not included. Please allow 4-6 weeks for equipment delivery, staging and scheduling. Terms: Payment for equipment on delivery, balance due on completion, progressive payments.

Limited Warranty

The liability of DA under this warranty shall be limited to, at DA's sole discretion: the cost of parts and labor provided by DA to repair defects in materials and/or workmanship of the defective product; or to the exchange of the defective product for a replacement product; or to the granting of credit limited to the original cost of the defective product, and such repair, exchange or credit shall be the sole remedy available from DA, and, without limiting the foregoing in any way. DA is not responsible, in contract, tort or strict product liability, for any other losses, costs, expenses, inconveniences, or damages, whether direct, indirect, special, secondary, incidental or consequential, arising from ownership or use of the system, or from defects in workmanship or materials, including any liability for fundamental breach of contract.

This warranty applies only to those components installed and serviced by DA during the warranty period. When installed by DA, this warranty includes the cost of the parts or labor to remove or transport the defective product, or to reinstall the repaired or replacement product. Service charges for products that are not defective are not covered by this warranty.

DA shall not be liable to honor warranty terms if this product has been used in any application other than that for which it was intended, or if it has been subjected to misuse, accident, fire, Act of God, or modification by others.

Items that are believed to be defective must be reported to DA, with a specific description of the nature of the problem, along with the name and phone number of a contact person. Return freight charges following repair of items under warranty shall be paid by DA for shipment by standard ground carrier. In the event that repairs are found to be non-warranty, return freight costs shall be paid by the contact person at the return address. When required, expedited shipping shall be at the customer's expense.

DA accepts warranty service requests Monday through Friday from 8:00 a.m. to 4:30 p.m. Standard warranty service requests are typically handled through a 24 hour response policy. Additional charges apply when priority service response is required, either outside of normal hours or as a result of emergency circumstances, unless pre-negotiated service contract conditions exist.

Customers are responsible to determine who is authorized to make requests for after-hours service. Calls received after hours and on weekends are handled by an on-call technician who initially attempts to resolve the issue via phone. If a field visit is required, a service technician will be dispatched to the customer site. Normally serviced parts are kept in our warehouse. Major components can typically be obtained through our vendor partnerships within the manufactures standard lead times.

This warranty is in lieu of all other warranties, express or implied, which the Governing Law (being the law of the State of Texas) allows parties to contractually exclude, including, without limitation, warranties of merchantability, fitness for a particular purpose, durability or description of the product, its non-infringement of any relevant patents or trademarks, and its compliance with or non-violation of any applicable environmental, health or safety legislation; the term of any other warranty not hereby contractually excluded is limited such that it shall not extend beyond the date designated as substantial completion, to the extent that such limitation is allowed by the Governing Law.

DA Mid South shall not be held liable for installed alarm devices in reference to initiated false alarms due to locations of devices, issues that may cause the initiation of alarms beyond our control, or otherwise.

TERMS AND CONDITIONS

Payment: All payments shall be invoiced each month, Net 30 days on estimated percentage of completion and materials received, unless otherwise stated. All payments made by credit card shall require an additional 3%, before tax, on the invoiced total.

This proposal is based on an agreement through a standard AIA Contract.

The prices and terms on this quotation are not subject to verbal changes or other agreements, unless approved in writing by the Corporate Office of the Seller. All quotations and agreements are contingent upon strikes, accidents, fires, availability of materials and all other causes beyond our control. All work to be completed in a workmanlike manner according to standard practices. Any alterations or deviations from above specifications involving extra costs will be executed only upon written orders and will become an extra charge over and above the estimate. Our workers are fully covered by Workmen's Compensation insurance.
