Proposal No. P-11079-13

Dear Mr. Dessens:

JRB Engineering, LLC (JRB) understands that we have been selected based solely on our qualifications and that the Fort Bend County Engineering Department is currently negotiating scope and fees with only JRB at this time for quality control services for the referenced project. For the purpose of this proposal, we have estimated quantities and tests that will be required in accordance with the Estimated Quantities and Specifications supplied. This is only an estimate for budgetary purposes. The actual costs for CMT services can decrease or increase with changes in the scope of work or with the contractor's work method. JRB's total fee will be based on the actual amount of technician time and laboratory testing required for the project. These services will be performed on a unit price basis in accordance with the attached Schedule of Services and Fees.

JRB meets the requirements of ASTM E329 and is an active participant in the CCRI and AMRI sample proficiency programs and is currently A2LA accredited. JRB has experienced personnel to perform the necessary CMT services in accordance with the project specifications.

We appreciate the opportunity to submit this proposal for CMT services and look forward to working with you during the construction phase of this project. If there are any questions concerning this proposal or if we can be of further assistance, please contact us at your convenience.

Respectfully submitted,

Eric Garcia
