The Texas Transportation Commission (commission) takes special note of its designation by the governor as the administering agency for the Federal Transit Administration (FTA) grant program, "Formula Grants for the Enhanced Mobility of Seniors and Individuals with Disabilities" (49 U.S.C. §5310), in a letter dated October 4, 2005; and further acknowledges that federal program regulations require the Texas Department of Transportation (department) to ensure that grant funds are distributed fairly and equitably within the state.

Awards to transit operators are calculated in accordance with the formula in Title 43, Texas Administrative Code, §31.31. Projects are selected at the district office level following a consultation process with all local parties, including any existing Metropolitan Planning Organizations, and a local planning, and development process. Projects also meet the requirements of inclusion in a coordinated transportation plan as required 49 U.S.C. §5310 and administered through the provisions of Transportation Code, Chapter 461. Project recipients recommended for award are described in Exhibit A which includes funding for transit vehicles, information technology, preventive maintenance and purchase of service.

In January 2013, the commission awarded funds and Transportation Development Credits (TDC) to various agencies using the partial §5310 FY 2013 apportionments provided by FTA. Further guidance from FTA regarding MAP-21 changes in this program has resulted in some projects awarded under Minute Order 113426 to become eligible for funding administered in the large urbanized areas. To clarify the public record, the commission rescinds and withdraws Minute Order 113426 dated January 31, 2013.

In making the TDC award, the commission has considered the potential of the projects to expand the availability of funding for public transportation projects and finds that the projects meet the established program goals set forth in 43 TAC §5.102 to maximize the use of available federal funds particularly in situations in which federal funds otherwise would be unused because of the inability to provide the non-federal share, and to support public transit

The commission finds that the projects in Exhibit A are eligible for funding and awards a total of \$6,899,682 in federal funds and 758,464 in TDC.

The commission also finds that the projects in Exhibit B are eligible for funding and awards a total of \$1,165,583 in federal funds.
