Mail Center 301 Jackson ST RM 101
Richmond, TX 77469-3108

Dear Fort Bend County:

Re: FM 723 from Avenue D, in Rosenberg, to FM 1093
Request for Access
Property ID: R67862

KBR has been retained by the Texas Department of Transportation to perform environmental studies for the FM 723 Improvement Project. The proposed improvements would widen the facility from two-lane undivided to four-lane divided from Avenue D, in Rosenberg, to FM 1093. You may have previously been contacted about this project, which was delayed due to lack of funding.

We request permission to enter your property to check for the presence of any environmental issues that may affect this project. Environmental issues that will be assessed in support of this project include wetlands, threatened and endangered species, historical and archeological resources, and hazardous materials. Environmental studies will consist of a walk-through and visual inspection of your property proximate to the FM 723 right-of-way boundary. Wetland and archeological investigations may require shovel tests and back-hoe trenching to identify soil characteristics. Any soil disturbance would be filled immediately after the investigation. We will be coordinate with you in a separate communication if back-hoe trenching is required on your property.

Please sign this request in the space provided and return as soon as possible using the enclosed self-addressed envelope. We appreciate your cooperation with this project.

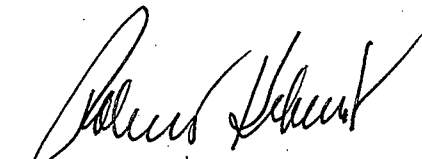

Should you have any questions or need additional information, please call me at (713) 753-3260 or Mr. Steven Gee at (713) 753-3054.

Sincerely,

Jeff Wellman
KBR
