COST ESTIMATE FOR PAVEMENT THICKNESS DETERMINATION
BY CORE DRILLING AS DIRECTED IN ACCORDANCE WITH ASTM C174
BRAND LANE- FROM AVENUE E TO US 90A
FORT BEND COUNTY PROJECT 718/769

Gentlemen:

Submitted here is our proposal for core drilling and concrete pavement thickness measurement for at the above referenced project. This proposal is based on the Fort Bend County Engineering Standard and specifications provided to Austin-Reed Engineers, LLC.

The concrete roadway will be cored at 500 feet spacing along both the north and south bound lanes (a total of 26 cores). The core locations will be patched with high strength core mix on completion of each core. We anticipate core sampling and thickness check as well as patching operations will be conducted with two working days.

Based on the anticipated schedule and quoted fees, a budget of \$ 5,927.00 is recommended for our services based on the approved 2014 Harris County Fee Schedule. The proposal is based on the services requested and includes the cost of traffic control which will be required .

We appreciate the opportunity to present this proposal and look forward to working with you on the project. Formal acceptance of this proposal may be indicated by signing and returning one copy for our files. If any questions arise, do not hesitate to call.

Sincerely,

AUSTIN-REED ENGINEERS, LLC.
