Teresa Thiim
Fort Bend County Libraries

Dear Teresa,

We look forward to the partnership with Fort Bend County Libraries and the Cloud Product. As we have previously relayed to you the former 3M Library Systems has merged with Bibliotheca, LLC. However, the quality 3M Cloud and the entire line of RFID, AMH, collection management products and the people at 3M Library Systems are still here to meet the immediate and future needs of your library system.

The entire former 3M Library System management team have moved across to Bibliotheca. All former 3M employees who were part of the library business were offered positions in the new company. We're truly dedicated to combining the best of 3M with bibliotheca, and it's the people that are the most important part of this.

3M is the developer of the Cloud Library e-book lending system. The entire system including patents now belong to bibliotheca. Bibliotheca is the sole source provider of the 3M Cloud eBook library lending systems. Bibliotheca, who now owns the patents, has no intentions of licensing other companies to sell the product/service.

Our system is unique by developing the best in class patron experience from signing up to the service, borrowing to the ease with which it can be returned a few notable unique features are:

- Unique in terms of patron privacy and only requiring a library barcode, allowing patrons to enjoy your collection without providing personal information to a 3rd party vendor.
- Features lists which are prominently displayed in the applications. Featured lists are created and curated by your staff to help create local selection of content that you can promote to your community.
- Discovery Stations, a unique turn-key kiosk designed to promote eBooks to new patrons inside the library. The Discovery station allows patrons to discover and checkout a book all without.
- The Favorites Feature in Browse allowing patrons to create lists of their favorite categories.
- We are the only vendor with the CloudLink feature allowing individual libraries to share content across a consortium.
- CAT Tool offering libraries best in class content selection
- Curated Featured Collection Development Lists to assist your staff quickly and easily create a high performing collection.
- Cloud Library Apps for PC and Mac, the only vendor developed way to quickly and easily transfer eBooks to an eink device like a Nook or Kobo.

Lastly our philosophy and T&Cs support content transfer from and to approved publisher e-book vendors.

Thank you for your interest in the Cloud Library System for Libraries. If there are any further questions or problems, please feel free to contact us.

Doug Monson is your Cloud Specialist, and he will continue to be of service to you as well as the rest of the former 3M team that you worked with. You may reach him at d.monson@bibliotheca.com or 651-263-5829 or 678-336-7980 ext 311.

Yours sincerely,

Matt Tempelis
President, Americas
