☒ Right of Way Permit
☐ Commercial Driveway Permit

Permit No: 2017-14566

Applicant: AT&T

Job Location Site: Precinct Line Road, Richmond, TX 77406

Bond No. [REDACTED] Date of Bond: 3/6/2007 Amount: \$25,000.00

The above applicant came to make use of certain Fort Bend County property subject to, "The Order Regulating the Laying, Construction, Maintenance, and Repair of Buried Cables, Conduits, and Pole Lines, In, Under, Across or Along Roads, Streets, Highways, and Drainage Ditches in Fort Bend County, Texas, Under the Jurisdiction of the Commissioners Court of Fort Bend County, Texas," as passed by the Commissioners Court of Fort Bend County, Texas, of the Minutes of the Commissioners Court of Fort Bend County, Texas, to the extent that such order is not inconsistent with Chapter 181, Vernon's Texas Statutes and Codes Annotated.

Notes:

1. Evidence of review by the Commissioners Court must be kept on the job site and failure to do so constitutes grounds for job shutdown.
2. Written notices are required:
 - a. 48 hours in advance of construction start up, and
 - b. When construction is completed and ready for final inspection, submit notification to Permit Administrator thru MyGovernmentOnline.org portal.
3. This permit expires one (1) year from date of permit if construction has not commenced.

On this 11th day of July, 2017, Upon Motion of Commissioner Meyers, seconded by Commissioner Morales, duly put and carried, it is ORDERED, ADJUDGED AND DECREED that said notice of said above purpose is hereby acknowledged by the Commissioners Court of Fort Bend County, Texas, and that said notice be placed on record according to the regulation order thereof.

Signature

Presented to Commissioners Court and approved.

GENERAL NOTES

1. Flare attached to signs where shown are REQUIRED.
2. All traffic control devices illustrated are REQUIRED, except those denoted with the triangle symbol may be omitted when stored elsewhere in the plans, or for routine maintenance work, when approved by the Engineer.
3. Trucks, trailers, and other equipment should be parked near the right-of-way line and not parked on the paved surface.
4. A Shoulder Vehicle with a TMA should be used anytime it can be positioned to 100 feet in advance of the area of crew operation without obstructing the performance or quality of the work. If workers are in larger present but road work conditions require the traffic control device to be installed in place, Type 3 Barricades or other channelized devices may be substituted for the Shoulder Vehicle and TMA.
5. All workers should be positioned at least 100 feet behind the paved surface, next to those shown in order they are performing their work.
6. See TPI-510 for shoulder work on divided highways, expressways and freeways.
7. TPI-515 "SOLLICITOR WORK" signs may be used in place of CARGO-10 "ROADWORK" signs for shoulder work on conventional roadways.

For construction or maintenance contract work, specific project requirements for shadow vehicles can be found in the project GENERAL NOTES for Item 502, Barricades, Signs and Traffic Handling.
