Right of Way Permit
 Commercial Driveway Permit
Permit No: 2017-15812

Applicant: AT&T/Black & Veatch

Job Location Site: 16621 Old Richmond Road, Sugar Land, TX 77498

Bond No. **Date of Bond:** 3/6/2007 **Amount:** \$25,000.00

The above applicant came to make use of certain Fort Bend County property subject to, "The Order Regulating the Laying, Construction, Maintenance, and Repair of Buried Cables, Conduits, and Pole Lines, In, Under, Across or Along Roads, Streets, Highways, and Drainage Ditches in Fort Bend County, Texas, Under the Jurisdiction of the Commissioners Court of Fort Bend County, Texas," as passed by the Commissioners Court of Fort Bend County, Texas, of the Minutes of the Commissioners Court of Fort Bend County, Texas, to the extent that such order is not inconsistent with Chapter 181, Vernon's Texas Statutes and Codes Annotated.

Notes:

1. Evidence of review by the Commissioners Court must be kept on the job site and failure to do so constitutes grounds for job shutdown.
2. Written notices are required:
 - a. 48 hours in advance of construction start up, and
 - b. When construction is completed and ready for final inspection, submit notification to Permit Administrator thru MyGovernmentOnline.org portal.
3. This permit expires one (1) year from date of permit if construction has not commenced.

On this 26th day of September, 2017, Upon Motion of Commissioner Meyers, seconded by Commissioner Patterson, duly put and carried, it is ORDERED, ADJUDGED AND DECREED that said notice of said above purpose is hereby acknowledged by the Commissioners Court of Fort Bend County, Texas, and that said notice be placed on record according to the regulation order thereof.

GENERAL NOTES

1. Signs provided to signs shown above are required.
2. Signs shown in this plan should be used unless otherwise specified in the project GENERAL NOTES for Item 505.
3. Inactive work vehicles or other equipment should be parked near the work area.
4. A shadow vehicle with high intensity flashing lights should be positioned 30 to 100 feet in advance of the area of crew operations without adversely affecting the performance or quality of the work. If workers are no longer present but road or work conditions require the traffic control to remain in place, Type 3 Barricade or other channelizing devices should be used.
5. Additional shadow vehicles with high intensity flashing lights should be positioned off the paved shoulder next to those shown in order to protect other work spaces.
6. See TCD-11 for shoulder work on divided highways, expressways and freeways.
7. Traffic control signs for shoulder work on conventional roadways.
