Commissioner Meyers stated his understanding is the rate is an automatic increase of 2% or an increase in CPI; whichever is greater each year.

Richard Stolleis, County Engineer, indicated the proposed changes addressed in the rate order amendment for this item are changes that adjust how customers are dealt with in terms of collection process, which does not change the rate. The existing Order does include a provision for incremental increases, which has been in the Order for years. This item does not change the rate increase for the provision already in the Order.

Judge Hebert clarified the change is a method in handling customers. This rate order change does not affect the rates.

Commissioner Patterson stated if a person violates the toll, a letter is sent several times before money is received. The rate change Commissioner Meyers refers to is within the order; but not for this item.
