 BARKER RESERVOIR FEASIBILITY STUDY**

THIS AGREEMENT is made and entered into by and between Fort Bend County, (hereinafter "County"), a body corporate and politic under the laws of the State of Texas, and AECOM Technical Services, Inc. (hereinafter "Consultant"), a company authorized to conduct business in the State of Texas.

WITNESSETH

WHEREAS, County desires that Consultant provide certain professional consulting services including but not limited to a high-level evaluation of the feasibility and potential cost of enclosing the back side of Barker Reservoir and pumping inflows into the reservoir, (hereinafter "Services"); and

WHEREAS, County has determined that this Agreement is for personal or professional services and therefore exempt from competitive bidding under Chapter 262 of the Texas Local Government Code; and

WHEREAS, Consultant represents that it is qualified and desires to perform such services.

NOW, THEREFORE, in consideration of the mutual covenants and conditions set forth below, the parties agree as follows:

AGREEMENT

Section 1. Scope of Services

Consultant shall render Services to County as defined in the proposal attached hereto as Exhibit A.

Section 2. Personnel

2.1 Consultant represents that it presently has, or is able to obtain, adequate qualified personnel in its employment for the timely performance of the Scope of Services required under this Agreement and that Consultant shall furnish and maintain, at its own expense, adequate and sufficient personnel, in the opinion of County, to perform the Scope of Services when and as required and without delays.

2.2 All employees of Consultant shall have such knowledge and experience as will enable them to perform the duties assigned to them. Any employee of Consultant who, in the opinion of County, is incompetent or by his conduct becomes detrimental to the project shall, upon request of County, immediately be removed from association with the project.

Section 3. Compensation and Payment

3.1 Consultant's fees shall be calculated at the rates set forth in the attached Exhibit A. The Maximum Compensation for the performance of Services within the Scope of Services described in Exhibit A is sixty-seven thousand two hundred dollars and 00/100 (\$67,200.00). In no case shall the amount paid by County under this Agreement exceed the Maximum Compensation without an approved change order.

3.2 All performance of the Scope of Services by Consultant including any changes in the Scope of Services and revision of work satisfactorily performed will be performed only when approved in advance and authorized by County.

3.3 County will pay Consultant based on the following procedures: Upon completion of the tasks identified in the Scope of Services, Consultant shall submit to County staff person designated by the County Engineer, one (1) electronic (pdf) copy of the invoice showing the amounts due for services performed in a form acceptable to County. County shall review such invoices and approve them within 30 calendar days with such modifications as are consistent with this Agreement and forward same to the Auditor for processing. County shall pay each such approved invoice within thirty (30) calendar days. County reserves the right to withhold payment pending verification of satisfactory work performed.

Section 4. Limit of Appropriation

4.1 Consultant clearly understands and agrees, such understanding and agreement being of the absolute essence of this Agreement, that County shall have available the total maximum sum of sixty-seven thousand two hundred dollars and 00/100 (\$67,200.00) specifically allocated to fully discharge any and all liabilities County may incur.

4.2 Consultant does further understand and agree, said understanding and agreement also being of the absolute essence of this Agreement, that the total maximum compensation that Consultant may become entitled to and the total maximum sum that County may become liable to pay to Consultant shall not under any conditions, circumstances, or interpretations thereof exceed sixty-seven thousand two hundred dollars and 00/100 (\$67,200.00).

Section 5. Time of Performance

Time for performance of the Scope of Services under this Agreement shall begin with receipt of the Notice to Proceed and end no later than September 30, 2019. Consultant shall complete the tasks described in the Scope of Services, within this time or within such additional time as may be extended by the County.

Section 6. Modifications and Waivers

6.1 The parties may not amend or waive this Agreement, except by a written agreement executed by both parties.

6.2 No failure or delay in exercising any right or remedy or requiring the satisfaction of any condition under this Agreement, and no course of dealing between the parties, operates as a waiver or estoppel of any right, remedy, or condition.

6.3 The rights and remedies of the parties set forth in this Agreement are not exclusive of, but are cumulative to, any rights or remedies now or subsequently existing at law, in equity, or by statute.

Section 7. Termination

7.1 Termination for Convenience – County may terminate this Agreement at any time upon forty-eight (48) hours written notice.

7.2 Termination for Default

7.2.1 County may terminate the whole or any part of this Agreement for cause in the following circumstances:

7.2.1.1 If Consultant fails to perform services within the time specified in the Scope of Services or any extension thereof granted by the County in writing;

7.2.1.2 If Consultant materially breaches any of the covenants or terms and conditions set forth in this Agreement or fails to perform any of the other provisions of this Agreement or so fails to make progress as to endanger performance of this Agreement in accordance with its terms, and in any of these circumstances does not cure such breach or failure to County's reasonable satisfaction within a period of ten (10) calendar days after receipt of notice from County specifying such breach or failure.

7.2.2 If, after termination, it is determined for any reason whatsoever that Consultant was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the County in accordance with Section 7.1 above.

7.3 Upon termination of this Agreement, County shall compensate Consultant in accordance with Section 3, above, for those services which were provided under this Agreement prior to its termination and which have not been previously invoiced to County. Consultant's final invoice for said services will be presented to and paid by County in the same manner set forth in Section 3 above.

7.4 If County terminates this Agreement as provided in this Section, no fees of any type, other than fees due and payable at the Termination Date, shall thereafter be paid to Consultant.

Section 8. Ownership and Reuse of Documents

All documents, data, reports, research, graphic presentation materials, etc., developed by Consultant as a part of its work under this Agreement, shall become the property of County upon completion of this Agreement, or in the event of termination or cancellation thereof, at the time of payment under Section 3 for work performed. Consultant shall promptly furnish all such data and material to County on request.

Section 9. Inspection of Books and Records

Consultant will permit County, or any duly authorized agent of County, to inspect and examine the books and records of Consultant for the purpose of verifying the amount of work performed under the Scope of Services at mutually convenient times. County's right to inspect survives the termination of this Agreement for a period of four years. Notwithstanding the foregoing, Consultant shall bear no liability or responsibility for deliverables that have been modified post-delivery or used for a purpose other than that for which they were prepared under this Agreement.

All Liability policies including Workers' Compensation written on behalf of Consultant shall contain a waiver of subrogation in favor of County and members of Commissioners Court.

10.3 If required coverage is written on a claims-made basis, Consultant warrants that any retroactive date applicable to coverage under the policy precedes the effective date of the contract; and that continuous coverage will be maintained or an extended discovery period will be exercised for a period of 2 years beginning from the time that work under the Agreement is completed.

Section 11. Indemnity

CONSULTANT SHALL INDEMNIFY COUNTY AGAINST ALL LOSSES, LIABILITIES, CLAIMS, CAUSES OF ACTION, AND OTHER EXPENSES, INCLUDING REASONABLE ATTORNEYS FEES, ARISING FROM ACTIVITIES OF CONSULTANT, ITS AGENTS, SERVANTS OR EMPLOYEES, PERFORMED UNDER THIS AGREEMENT TO THE EXTENT THAT RESULT FROM THE NEGLIGENT ACT, ERROR, OR OMISSION OF CONSULTANT OR ANY OF CONSULTANT'S AGENTS, SERVANTS OR EMPLOYEES.

EXHIBIT A

Barker Reservoir Feasibility Study

Project Overview:

AECOM Technical Services, Inc. will conduct a high level study to evaluate the feasibility and potential cost of enclosing the back-side of Barker Reservoir and pumping extreme event inflows from the various upstream channels into the reservoir in order to contain the flood pool within government owned land by increasing the accessible storage volume within the reservoir. This study will be completed within 90 days from notice to proceed.

Scope of Work:

1. Provide general project management including client coordination and invoicing.
2. Prepare a very brief summary of the process necessary to modify a Federal project.
3. Provide a very brief overview of current and proposed Federal efforts to evaluate improvements to the Addicks and Barker systems.
4. Develop potential design basis and a potential operating scheme, considering both gravity inflows and pumped inflows to the reservoir. This analysis would assume the current USACE reservoir discharge/operations guidance.
5. Evaluate reservoir / flood pool storage volume under existing conditions and proposed conditions, including assessment of the feasibility of capturing the entire flood pool volume within government owned land.
6. Perform hydrologic & hydraulic modeling (using HEC-RAS 2D models developed for WFDD after the Tax Day flood event) to assess performance of existing and proposed systems under different scenarios including the 500-yr event, Tax Day worst case (shifted to Barker watershed), Hurricane Harvey, and Hurricane Harvey worst case (shifted to Barker watershed), and the Standard Project Flood. This analysis would assume the current USACE reservoir discharge/operations guidance, and does not consider inter-basin transfers (e.g. overflow from Cypress Creek or the Addicks watershed) which could potentially occur in a very extreme event. This includes consideration of preliminary NOAA Atlas 14 rainfall information for synthetic design storms analyzed.
7. Based on current LiDAR and the results of the H&H analysis, map the estimated area upstream of the reservoir removed from the flood pool, between existing conditions and proposed conditions, for each storm event analyzed. For certain very extreme storm events, there may be residual risk to these neighborhoods.

8. Prepare schematic concept for the proposed new embankment and back-side drainage channels to convey inflows to the new pump station(s).
9. Determine the estimated approximate pumping capacity needs, including the number of stations estimated to be required and the estimated approximate capacity of each station. Rather than have separate pump stations for each inflow channel, it may be advantageous to consolidate to fewer pump stations. This analysis will consider, at a conceptual level, proposed closure structures (e.g. gates) and back-up power needs of the pump station(s).
10. Develop of order of magnitude cost estimates for identified project components (Class 5). Cost estimates will be provided only for the preferred scenario.
11. Prepare brief report summarizing analyses conducted, reviewing the benefits and challenges of potential proposed improvements, and discussing potential next steps for Fort Bend County.

Assumptions:

- Analysis assumes a range of design wind speeds and typical freeboard requirements.
- Rainfall analyses will be based on readily available gage or radar data previously collected by AECOM or made available by various public entities.
- Analysis assumes inflows only from the delineated Barker Reservoir watershed. Potential interbasin transfers during extreme events will not be considered at this stage.
- Analysis assumes no changes to the existing reservoir operations guidance (discharge policy).
- Cost estimates will assume suitable clay material for construction of the new or raised embankment is available within Barker Reservoir and does not have to be imported from off-site.
- AECOM will utilize currently available geotechnical evaluations to inform this planning exercise. No new geotechnical investigations or evaluations will be performed as part of this scope of work.
- Scope of work does not include evaluation of the structural integrity of the existing embankment and control structure. It is assumed no improvements to the existing embankment or control structure will be required to accommodate higher water surface elevations up to a typical freeboard elevation.
- Analysis assumes the desired level of flood storage can be provided without raising the elevation of the existing embankment.
- Cost estimating will be performed only for the preferred scenario. Potential scenarios which will be considered in the selection of a preferred scenario include different pumping rates, proposed storage volumes, or level of protection. Cost estimates will be Class 5 parametric cost estimates based on information such as that provided by the Texas Water Development Board and other industry standard references. Where feasible, cost estimates will be compared to prior AECOM projects with similar elements.
