RE: Platting Policy Variance request by Michael and Stephanie Merrell on behalf of Richmoore Family, LLC, to divide 16.05 acres into 3 tracts, located in the William Leech Survey, Abstract 281, from the Richmoore Family LLC parent tracts recorded in Instrument #2018018042, #2018018043 and #2018018044 of official Fort Bend County Deed Records.

Dear Commissioner Morales:

Fort Bend County Engineering has reviewed a request from Michael and Stephanie Merrell, on behalf of Richmoore Family LLC, concerning a variance to the platting policy included in the *Fort Bend County Regulations of Subdivisions*. They request a variance to allow 16.05 acres of land, to be divided into (3) tracts, located in William Leech Survey, Abstract 281, from the Richmoore Family LLC parent tracts as recorded in General Warranty Deed's instrument #2018018042, #2018018043 and #2018018044 of official Fort Bend County Deed Records. The proposed division is (Tract A) 5.40 acres to be conveyed to George and Marie Aguirre, (Tract B) 5.40 acres, and (Tract C) 5.25 acres to be conveyed to Alberto Bazan and Raquel Vela. Each tract can be accessed from Reeh Road, Needville, Texas 77461. Richmoore Family, LLC is donating 0.42 acres to Fort Bend County for Reeh Road and Fenske Road future right-of-way use.

Under the *Fort Bend County Regulations of Subdivisions* as described in Section 2.2.I, Commissioners Court can grant a variance to the regulations and not require a subdivision plat. No further division of these tracts will be allowed without the written consent of Commissioners Court.

It is the applicant's responsibility to keep this document in a safe place and provide it to any future property owners. This document must be provided as proof of a platting variance when applying for permits, electrical power release, and tax division by the Fort Bend Central Appraisal District. Failure to provide this document in the future will result in determination that the property was illegally subdivided and no action will be taken for the property.

Fort Bend County Engineering Department offers no objection to granting this variance and recommends approval of the variance.

If there are any questions or you need additional information, please call me at 281-633-7515.

Sincerely,

Maggie Dalton
Development Services Manager

GENERAL NOTES:

- This tract lies within Zone "X" of the Flood Insurance Rate Map, Community No. 48023A, Map Number 481570000A, Panel 400, Duffie 1" with a date of April 2, 2014, for Fort Bend County, Texas and is a flood-prone area.
- Zone "X" is defined as areas determined to be outside the 0.2% annual chance flood.
- This flood statement does not imply that the property or structures thereon will be free from flooding or flood damage. On rare occasions floods can and will occur and flood heights may be increased by man-made or natural causes. This flood statement should not create liability on the part of the surveyor.
- The location of the flood zone lines shown herein were determined by scaling from said FEMA map. The actual location as determined by elevation contours may differ. Jones/Carter assumes no liability as to the accuracy of the location of the flood zone lines.
- This survey was prepared without the benefit of a current Commitment for Title Insurance or Abstractor's Certification and therefore easements or encumbrances may exist which are not shown herein. No research of the Public Records of Fort Bend County, Texas regarding these easements or encumbrances was performed by Jones/Carter.
- Bearings are based upon the Texas Coordinate System of 1983, South Central Zone, based upon GPS observations.
- Fences shown herein are graphic only with dimensional lines shown at specific locations where they were physically measured. The fence line may meander between said measured locations. The dimensions showing the distance between the fence and the property line also indicates which side of the property line the fence is on.
- The surveyor has not been provided with construction plans showing the location of underground utilities. Underground utilities may exist which are not shown herein.
- Only visible improvements / utilities were located with this survey; no subsurface probing, excavation or exploration was performed for this survey.
- This survey does not provide any determination concerning wetlands, fault lines, toxic waste or any other environmental issues. Such matters should be directed by the client or prospective purchaser to an expert consultant.
- Development of the subject plot may require additional, approval, and/or recording of a plat or record. Rules and regulations are established by the governmental agency, which has jurisdiction. These rules and regulations may include restriction of access, taxes, easements, additional right-of-way, and other matters. For information from client, client has already discussed this project with Fort Bend County Engineering and this survey is part of submitted to Fort Bend County.
- For reference and further description, see notes and bounds description, job number RB000-0679-00, prepared by Jones/Carter on same date.
