Advanced Technology Solution Partner Since 1988

## DataVox Summary

Since 1988, thousands of businesses have counted on DataVox to be their trusted advanced technology partner. With DataVox, your organization can enjoy the convenience of working with a single company to design, implement and maintain all aspects of their technology needs. From audio visual, to data center, cloud, network technology, network cabling, phone systems and physical security solutions. Our award-winning customer service team is here to assist your organization 24 hours a day, 7 days a week.

# SCOPE OF WORK

## Description of Services

This section describes the standard Audio Visual services that DataVox will provide the Customer. The services are described by typical location or room.

### PROJECT SPECIFIC ASSUMPTIONS AND CONSIDERATIONS:

- The Customer must provide power at display locations.
- The Customer must provide proper wall backing at wall mounted display location.
- The Customer must provide rough-in of Monoprice articulating, in-wall recessed display mount
- The Customer must pull DVI and RS-232 cabling from projector to display location during rough-in of Monoprice mount.
- The Customer will be responsible for transportation and storage of decommissioned displays.

### Typical of: Courtroom 1-16

- **Display:** DataVox provide and install one (1) Sharp 80" mounted on one (1) Monoprice articulating, in wall recessed mount. DataVox will coordinate with the customer to provide Monoprice mount for rough-in installation by the customer prior to DataVox on-site installation of remaining equipment.
- **Source:** DataVox will provide and install one (1) Denon rack mount media player in the courtroom podium. Denon media player will be controlled manually at device and only allow for source selection at the existing control panel.
- **Signal Transmission:** DataVox will provide and install one (1) Crestron 4x1 HDMI auto switcher to accommodate input from the DataVox provided Denon media player and the existing laptop HDMI input. DataVox will program Crestron auto switcher to recognize Denon media player as the primary video source and switch to laptop HDMI input as a secondary source when devices are connected.
- **Cable and Connectors:** DataVox will provide and install four (4) Kramer 6' HDMI cables and one (1) Extron DVI to HDMI adapter for connection between DataVox provided equipment and existing, owner furnished equipment.
- **Furniture:** DataVox will provide and install one (1) Middle Atlantic rack shelf and one (1) Middle Atlantic 1U blank to replace 3U blank that will be removed from courtroom podium rack when installing Denon media player.

### Jury Assembly Rooms

- **Display:** DataVox provide and install eight (8) LG 49" displays. DataVox will provide and install three (3) Monoprice flat panel display wall mounts and three (3) Peerless-AV flat panel display carts.
- **Source:** DataVox will provide and install fourteen (14) Denon rack mount media players.
- **Cable and Connectors:** DataVox will provide and install fourteen (14) Kramer 6' HDMI cables for connection between Denon media players and in-room displays.

### Training

DataVox will provide one hands-on training session as coordinated with the Customer. All users of the system should be present at this training session to learn basic operation and light maintenance. Additional training sessions are available upon request at additional charge.

### Out of Scope Services

The following services are outside the scope of work:

- All conduits, such as high voltage wiring panels, breakers, relays boxes, and receptacles
- Any related electrical work, including but not limited to 110VAC, conduit, core drilling, raceway and boxes

---

## Justice Center Improvements, Courtrooms

DATAV-4593

- Concrete saw cutting and core drilling
- Firewall, ceiling, roof and floor penetration patching, removal or fire stopping
- Any audio visual consulting services to configure existing audio visual devices outside the audio visual devices provided within this SOW and the Audio Visual Proposal.
- Necessary sheet rock replacement and repair
- Necessary ceiling tile or T-bar modifications, replacement and repair
- Any and all millwork (for example, molding and trim). All millwork or modifications to project millwork to accommodate equipment
- Permits (unless specifically provided for in this SOW.)
- HVAC and plumbing relocation
- Rough-in, bracing, framing, or finish trim carpentry for installation
- Cutting, structural welding, or reinforcement of structural steel members required for support of assemblies, if required
- Any applicable taxes, permits, or bonds related to the project
- Unless specified in this SOW, the warranty provisions in this contract do not cover owner furnished equipment. Additionally, owner furnished equipment will not be controlled unless specifically stated in this SOW

# BASELINE RESPONSIBILITIES

## DataVox Responsibilities

This section lists DataVox's responsibilities for this Audio Visual proposal.

- Install all equipment according to manufacturers' specifications, national and local building codes and regulations, and will be in conformity with good engineering practices as outlined by the international Communications Industries Association (ICIA) and best practices as outlined by InfoComm.
- All equipment will be installed with provisions for the safety of the operator in accordance with the Americans with Disability Act (ADA) guidelines.
- All DataVox staff will dress in a professional manner displaying the DataVox logo, properly using any required Personal Safety Equipment. They will conduct themselves in a professional, courteous and respectful manner to all others present.
- Will maintain a clean working environment, storing tools and equipment when not in use and discarding refuse as often as reasonably possible.
- While DataVox cannot take responsibility for furniture or Customer furnished equipment in the workspace, DataVox will take reasonable precautions to protect all Customer furnished equipment, floors, walls, ceiling tiles, windows and window coverings, and furniture and other surfaces from damage, staining or unreasonable breakage while on site.
- Will notify the Customer of any hum, distortion, and RF Interference caused by the interference with the local RF environment, building structure, electrical systems, telecommunications systems, wireless RF systems which are beyond the control of DataVox, and will advise the Customer of possible remedies.
- Will appoint a Project Manager (PM) and/or Lead Technician (LT) to oversee the installation. During system implementation, please direct all communications through this designated contact.
- PM or LT will coordinate with other trades to facilitate and expedite project progress. Will inform the Customer of any contractor interference or potential delays which could impede implementation of the AV system, thereby helping to avoid any additional charges.
- Will provide written documentation of any Change Orders (CO) for work requested by the Customer which deviates from the original, approved Proposal and Scope of Works. CO's will be billed at our published labor rates plus materials, shipping, handling, restocking and other charges imposed by suppliers.
- Recommends weekly construction coordination meetings between the Customer, DataVox and all other trades in which we will report to the Customer the status of the project, any foreseeable restrictions or insurmountable issues outside our control which could impact the overall project schedule.

## Customer Responsibilities

This section lists the Customer responsibilities for this Audio Visual proposal.

- **Safe Work Environment:** Provide DataVox staff, contractors and others working on-site a safe working environment. DataVox reserves the right to refuse to work or install any equipment in an area where, at the sole discretion of DataVox, the safety of those involved is of concern.
- **Access to worksite:** provide access to the worksite, and all work will take place between the hours of 07:30 and 17:00 Monday through Friday, except on public holidays, unless specified otherwise in the DataVox Proposal. Work completed at any other time will be billed at OT rates published in **Change Order Labor Rates**. For the safety of all concerned, it is requested that the work area be free and clear, for example, of other trades, clients of the Customer, and employees during the installation period.
- **Ingress/Egress from Loading Dock to Work Site:** ensure unobstructed access to the loading/unloading dock and between the dock and the worksite so that the loading/unloading of large objects such as racks, screens, and large flat panels is safe and unencumbered.
- **Secure Storage:** provide a secure, climate controlled area on-site to store equipment during the installation period. Delivery of goods, supplies and equipment to this on-site storage location, or equipment that has been installed in its designated location will be considered as 'Delivered' for billing purposes and will be invoiced accordingly. Responsibility for the equipment passes to the Customer immediately upon installation or delivery to the on-site storage. Any loss due to vandalism, theft, burglary, fire, water ingress, or any other means outside the direct control of DataVox shall be replaced at the Customer's expense.

---

***This document is confidential and the property of DataVox. Any copy or reuse of this document, its contents, recommendations and/or solutions in whole or part is strictly prohibited without prior written consent of DataVox.***

## Justice Center Improvements, Courtrooms

DATAV-4593

- **Uninterrupted Work Flow:** avail DataVox of continuous, uninterrupted workflow in the environment in which the AV system will be installed. Delays in work caused by interference of other trades, , inability to access the work space during the stated hours, inability to access equipment stored on site, or other reason caused by the Customer will be charged at rates published in **Change Order Labor Rates**. If DataVox crew arrives to work on-site at the appointed time and cannot work due to dangerous conditions, inability to access the site, lack of power, interference by others which are within direct, reasonable control of the Customer, it will result in a half day charge for the crew.
- **Electrical:** all installation, termination and connection of any high voltage services (greater than or equal to 70VAC). It is strongly recommended that all AV system components shall be connected to Technical Power - using the same phase of building power to all AV system points.
- **Subscription-Based Services:** any services such as Cable TV, Satellite, ISDN, High-speed internet or other network services to be provided by others. Any such services are to be delivered to the desired location and appropriately terminated as coordinated with DataVox.
- **Floor Penetrations/Coverings:** any floor coring, installation of floor box, poke-thru wire path, or other devises which require modification of the floor surface or floor covering required for the cable path. Any carpet work such as cutting, repairing or vulcanizing or re-bonding due to the use of under-the-carpet AVTrac or similar cabling system.
- **Wall Structure:** any demolition, painting, or structural modification work to be provided by the Customer unless otherwise specifically noted in DataVox proposal. All wall-mounted displays larger than 40" will require blocking and suitable plywood backing as coordinated with DataVox.
- **Wall Finish & Ceiling Tile/Ceiling Grid work:** repair and/or finish-out of any wall covering, wall finishing, painting, sealing, masonry work, etc., and any modifications to ceiling tiles or ceiling grids required as a result of installation of projector screens, lifts, speakers, cameras, mounts, etc. unless specifically provided for in the DataVox proposal.
- **Cabling Paths:** all provided cabling paths and raceways will be free, clear, dry and unobstructed. They shall be sized as recommended by NEC and InfoComm.
- **Vibration Dampening:** isolation of any unwanted vibration of building, building structure, floors, ceilings, walls or any other surface to which AV equipment is to be mounted. All mounting surfaces must be free of vibration, whether caused by pedestrian traffic, HVAC system components, Mechanical or Electrical System components or any other cause.
- **Furniture Modifications:** provide all modifications necessary to table tops, credenzas, cabinets and other furniture to accommodate the specified AV connectivity boxes, unless specified otherwise in our proposal. Also, all existing OFE furniture will have sufficient space and cooling capacity to accommodate all new AV system components. Any modifications to any of the above services required by the proposed AV system will be clearly enumerated by DataVox upon acceptance of the final proposal by the Customer. Delays in providing the above services beyond the projected start date will commensurately delay the contracted project completion date, and may incur additional charges at the rates published in **Change Order Labor Rates**.
- **Lights and Lighting Control Systems:** All lights and lighting control systems provided by others must be able to accommodate third party RS0232 control connections and protocols.
- **Drape and Shade Controls Systems:** All drape and shade controls systems provided by other must be able to accommodate third party RS-232 control connections and protocols.

## SYSTEM SUMMARY

*The proposed audio visual solution includes equipment that is assigned to the following system types:*

### System Name

#### Non-DIR Monitors and Mounts

*Non DIR Monitors/Displays/TVs, Mounting Hardware, Configuration, And Labor As Described In This Proposal.*

#### Non-DIR Video Sources

*Non DIR Video Sources, Cables, And Labor As Described In This Proposal.*

#### DIR Signal Transmission

*DIR Switching Technology, Transmission Systems, Wiring, Configuration, And Labor As Described In This Proposal.*

#### DIR Cables and Connectors

*DIR Cables, Connectors, And Labor As Described In This Proposal.*

#### Non-DIR Cables and Connectors

*Non DIR Cables, Connectors, And Labor As Described In This Proposal.*

#### Non-DIR Furniture

*Non-DIR Audio Visual Table Enclosures, Podiums, Cabinets, Carts, And Labor As Described In This Proposal.*

#### Owner Fushished - Projector

#### Owner Fushished - Podium Rack

#### Owner Fushished - Floor Box

#### Owner Fushished - Rack Room

#### DIR Professional Services

*DIR Project Management, Design Engineering, General And Administrative Services As Described In This Proposal.*

# ACCEPTANCE OF PROPOSAL

When (but only when) signed by buyer and an authorized representative of DataVox this shall be a binding, legal contract.

The prices, specifications, and conditions in this proposal are satisfactory, and are hereby accepted in their entirety. Buyer hereby agrees to purchase the Equipment and authorizes DataVox to do the work, and provide the materials specified, and payment will be made as outlined above. The price quoted in this Audio Visual Proposal is based upon the Equipment included in this Audio Visual Proposal. Any changes in the Equipment or installation may result in a change in the price. Any such change must be in writing, signed by all parties.

DataVox reserves the right to modify payment terms at any time based on a review of the Customer's credit.

THIS AGREEMENT, WHEN SIGNED BY BOTH PARTIES (BELOW), SHALL BE GOVERNED BY THE TERMS AND CONDITIONS IN THIS AUDIO VISUAL PROPOSAL. THERE ARE NO OTHER AGREEMENTS, OR WARRANTIES, ORAL OR WRITTEN, EXCEPT AS EXPRESSLY STATED IN THIS AUDIO VISUAL PROPOSAL. THIS AGREEMENT CANNOT BE MODIFIED EXCEPT IN WRITING SIGNED BY BOTH PARTIES.

Buyer acknowledges having read and understood all of the terms and conditions printed in this Audio Visual Proposal and acknowledges receipt of a complete executed copy of this Agreement. Buyer understands and agrees that this Audio Visual Proposal and all of the terms and conditions hereof shall be a binding, enforceable contract when signed by Buyer and by an authorized representative of DataVox.

## Approval Signatures

IN WITNESS WHEREOF, the duly authorized representatives of the parties hereto have caused this Proposal to be duly executed.

# SCOPE OF WORK

## Description of Services

This section describes the standard Audio Visual services that DataVox will provide the Customer. The services are described by typical location or room.

### PROJECT SPECIFIC ASSUMPTIONS AND CONSIDERATIONS:

- The Customer must provide power at display locations.
- The Customer must provide proper wall backing at wall mounted display location.
- The Customer will be responsible for transportation and storage of decommissioned displays.

### Docket Displays

- **Display:** DataVox will decommission six (6) existing and installed NEC 46" displays with relocation and storage to be provided by the customer. DataVox provide and install six (6) new NEC 46" displays mounted on six (6) owner furnished portrait wall mounts. DataVox will reconnect existing and installed CAT5-VGA receivers for content delivery to displays.

## Training

DataVox will provide one hands-on training session as coordinated with the Customer. All users of the system should be present at this training session to learn basic operation and light maintenance. Additional training sessions are available upon request at additional charge.

## Out of Scope Services

The following services are outside the scope of work:

- All conduits, such as high voltage wiring panels, breakers, relays boxes, and receptacles
- Any related electrical work, including but not limited to 110VAC, conduit, core drilling, raceway and boxes
- Concrete saw cutting and core drilling
- Firewall, ceiling, roof and floor penetration patching, removal or fire stopping
- Any audio visual consulting services to configure existing audio visual devices outside the audio visual devices provided within this SOW and the Audio Visual Proposal.
- Necessary sheet rock replacement and repair
- Necessary ceiling tile or T-bar modifications, replacement and repair
- Any and all millwork (for example, molding and trim). All millwork or modifications to project millwork to accommodate equipment
- Permits (unless specifically provided for in this SOW.)
- HVAC and plumbing relocation
- Rough-in, bracing, framing, or finish trim carpentry for installation
- Cutting, structural welding, or reinforcement of structural steel members required for support of assemblies, if required
- Any applicable taxes, permits, or bonds related to the project
- Unless specified in this SOW, the warranty provisions in this contract do not cover owner furnished equipment. Additionally, owner furnished equipment will not be controlled unless specifically stated in this SOW

***This document is confidential and the property of DataVox. Any copy or reuse of this document, its contents, recommendations and/or solutions in whole or part is strictly prohibited without prior written consent of DataVox.***

# BASELINE RESPONSIBILITIES

## DataVox Responsibilities

This section lists DataVox's responsibilities for this Audio Visual proposal.

- Install all equipment according to manufacturers' specifications, national and local building codes and regulations, and will be in conformity with good engineering practices as outlined by the international Communications Industries Association (ICIA) and best practices as outlined by InfoComm.
- All equipment will be installed with provisions for the safety of the operator in accordance with the Americans with Disability Act (ADA) guidelines.
- All DataVox staff will dress in a professional manner displaying the DataVox logo, properly using any required Personal Safety Equipment. They will conduct themselves in a professional, courteous and respectful manner to all others present.
- Will maintain a clean working environment, storing tools and equipment when not in use and discarding refuse as often as reasonably possible.
- While DataVox cannot take responsibility for furniture or Customer furnished equipment in the workspace, DataVox will take reasonable precautions to protect all Customer furnished equipment, floors, walls, ceiling tiles, windows and window coverings, and furniture and other surfaces from damage, staining or unreasonable breakage while on site.
- Will notify the Customer of any hum, distortion, and RF Interference caused by the interference with the local RF environment, building structure, electrical systems, telecommunications systems, wireless RF systems which are beyond the control of DataVox, and will advise the Customer of possible remedies.
- Will appoint a Project Manager (PM) and/or Lead Technician (LT) to oversee the installation. During system implementation, please direct all communications through this designated contact.
- PM or LT will coordinate with other trades to facilitate and expedite project progress. Will inform the Customer of any contractor interference or potential delays which could impede implementation of the AV system, thereby helping to avoid any additional charges.
- Will provide written documentation of any Change Orders (CO) for work requested by the Customer which deviates from the original, approved Proposal and Scope of Works. CO's will be billed at our published labor rates plus materials, shipping, handling, restocking and other charges imposed by suppliers.
- Recommends weekly construction coordination meetings between the Customer, DataVox and all other trades in which we will report to the Customer the status of the project, any foreseeable restrictions or insurmountable issues outside our control which could impact the overall project schedule.

## Customer Responsibilities

This section lists the Customer responsibilities for this Audio Visual proposal.

- **Safe Work Environment:** Provide DataVox staff, contractors and others working on-site a safe working environment. DataVox reserves the right to refuse to work or install any equipment in an area where, at the sole discretion of DataVox, the safety of those involved is of concern.
- **Access to worksite:** provide access to the worksite, and all work will take place between the hours of 07:30 and 17:00 Monday through Friday, except on public holidays, unless specified otherwise in the DataVox Proposal. Work completed at any other time will be billed at OT rates published in **Change Order Labor Rates**. For the safety of all concerned, it is requested that the work area be free and clear, for example, of other trades, clients of the Customer, and employees during the installation period.
- **Ingress/Egress from Loading Dock to Work Site:** ensure unobstructed access to the loading/unloading dock and between the dock and the worksite so that the loading/unloading of large objects such as racks, screens, and large flat panels is safe and unencumbered.
- **Secure Storage:** provide a secure, climate controlled area on-site to store equipment during the installation period. Delivery of goods, supplies and equipment to this on-site storage location, or equipment that has been installed in its designated location will be considered as 'Delivered' for billing purposes and will be invoiced accordingly. Responsibility for the equipment passes to the Customer immediately upon installation or delivery to the on-site storage. Any loss due to vandalism, theft, burglary, fire, water ingress, or any other means outside the direct control of DataVox shall be replaced at the Customer's expense.

***This document is confidential and the property of DataVox. Any copy or reuse of this document, its contents, recommendations and/or solutions in whole or part is strictly prohibited without prior written consent of DataVox.***

## Justice Center Improvements, Docket Displays

DATAV-4596

- **Uninterrupted Work Flow:** avail DataVox of continuous, uninterrupted workflow in the environment in which the AV system will be installed. Delays in work caused by interference of other trades, , inability to access the work space during the stated hours, inability to access equipment stored on site, or other reason caused by the Customer will be charged at rates published in **Change Order Labor Rates**. If DataVox crew arrives to work on-site at the appointed time and cannot work due to dangerous conditions, inability to access the site, lack of power, interference by others which are within direct, reasonable control of the Customer, it will result in a half day charge for the crew.
- **Electrical:** all installation, termination and connection of any high voltage services (greater than or equal to 70VAC). It is strongly recommended that all AV system components shall be connected to Technical Power - using the same phase of building power to all AV system points.
- **Subscription-Based Services:** any services such as Cable TV, Satellite, ISDN, High-speed internet or other network services to be provided by others. Any such services are to be delivered to the desired location and appropriately terminated as coordinated with DataVox.
- **Floor Penetrations/Coverings:** any floor coring, installation of floor box, poke-thru wire path, or other devises which require modification of the floor surface or floor covering required for the cable path. Any carpet work such as cutting, repairing or vulcanizing or re-bonding due to the use of under-the-carpet AVTrac or similar cabling system.
- **Wall Structure:** any demolition, painting, or structural modification work to be provided by the Customer unless otherwise specifically noted in DataVox proposal. All wall-mounted displays larger than 40" will require blocking and suitable plywood backing as coordinated with DataVox.
- **Wall Finish & Ceiling Tile/Ceiling Grid work:** repair and/or finish-out of any wall covering, wall finishing, painting, sealing, masonry work, etc., and any modifications to ceiling tiles or ceiling grids required as a result of installation of projector screens, lifts, speakers, cameras, mounts, etc. unless specifically provided for in the DataVox proposal.
- **Cabling Paths:** all provided cabling paths and raceways will be free, clear, dry and unobstructed. They shall be sized as recommended by NEC and InfoComm.
- **Vibration Dampening:** isolation of any unwanted vibration of building, building structure, floors, ceilings, walls or any other surface to which AV equipment is to be mounted. All mounting surfaces must be free of vibration, whether caused by pedestrian traffic, HVAC system components, Mechanical or Electrical System components or any other cause.
- **Furniture Modifications:** provide all modifications necessary to table tops, credenzas, cabinets and other furniture to accommodate the specified AV connectivity boxes, unless specified otherwise in our proposal. Also, all existing OFE furniture will have sufficient space and cooling capacity to accommodate all new AV system components. Any modifications to any of the above services required by the proposed AV system will be clearly enumerated by DataVox upon acceptance of the final proposal by the Customer. Delays in providing the above services beyond the projected start date will commensurately delay the contracted project completion date, and may incur additional charges at the rates published in **Change Order Labor Rates**.
- **Lights and Lighting Control Systems:** All lights and lighting control systems provided by others must be able to accommodate third party RS0232 control connections and protocols.
- **Drape and Shade Controls Systems:** All drape and shade controls systems provided by other must be able to accommodate third party RS-232 control connections and protocols.

# ACCEPTANCE OF PROPOSAL

When (but only when) signed by buyer and an authorized representative of DataVox this shall be a binding, legal contract.

The prices, specifications, and conditions in this proposal are satisfactory, and are hereby accepted in their entirety. Buyer hereby agrees to purchase the Equipment and authorizes DataVox to do the work, and provide the materials specified, and payment will be made as outlined above. The price quoted in this Audio Visual Proposal is based upon the Equipment included in this Audio Visual Proposal. Any changes in the Equipment or installation may result in a change in the price. Any such change must be in writing, signed by all parties.

DataVox reserves the right to modify payment terms at any time based on a review of the Customer's credit.

THIS AGREEMENT, WHEN SIGNED BY BOTH PARTIES (BELOW), SHALL BE GOVERNED BY THE TERMS AND CONDITIONS IN THIS AUDIO VISUAL PROPOSAL. THERE ARE NO OTHER AGREEMENTS, OR WARRANTIES, ORAL OR WRITTEN, EXCEPT AS EXPRESSLY STATED IN THIS AUDIO VISUAL PROPOSAL. THIS AGREEMENT CANNOT BE MODIFIED EXCEPT IN WRITING SIGNED BY BOTH PARTIES.

Buyer acknowledges having read and understood all of the terms and conditions printed in this Audio Visual Proposal and acknowledges receipt of a complete executed copy of this Agreement. Buyer understands and agrees that this Audio Visual Proposal and all of the terms and conditions hereof shall be a binding, enforceable contract when signed by Buyer and by an authorized representative of DataVox.

## Approval Signatures

IN WITNESS WHEREOF, the duly authorized representatives of the parties hereto have caused this Proposal to be duly executed.

Advanced Technology Solution Partner Since 1988

## DataVox Summary

Since 1988, thousands of businesses have counted on DataVox to be their trusted advanced technology partner. With DataVox, your organization can enjoy the convenience of working with a single company to design, implement and maintain all aspects of their technology needs. From audio visual, to data center, cloud, network technology, network cabling, phone systems and physical security solutions. Our award-winning customer service team is here to assist your organization 24 hours a day, 7 days a week.

# SCOPE OF WORK

## Description of Services

This section describes the standard Audio Visual services that DataVox will provide the Customer. The services are described by typical location or room.

### PROJECT SPECIFIC ASSUMPTIONS AND CONSIDERATIONS:

- The Customer must provide power at display locations.
- The Customer must provide proper wall backing at wall mounted display location.
- The Customer must provide rough-in of Monoprice articulating, in-wall recessed display mount
- The Customer will be responsible for transportation and storage of decommissioned equipment.

### Jury Assembly Room

- **Display:** DataVox provide and install two (2) Sharp 80" mounted on two (2) Monoprice articulating, in wall recessed mount. DataVox will coordinate with the customer to provide Monoprice mounts for rough-in installation by the customer prior to DataVox on-site installation of remaining equipment.
- **Projectors and Screens:** DataVox will decommission two (2) owner furnished projectors, leaving in place two (2) owner furnished projector mounts. DataVox will provide and install two (2) Optoma laser projectors.
- **Signal Transmission:** DataVox will provide and install one (1) Crestron distribution amplifier to duplicate signal from podium video inputs to existing video distribution system and the new, DataVox provided displays and projectors. DataVox will provide and install four (4) Kramer HDMI transmitters at the rack location and four (4) Kramer HDMI receivers at each new display/projector location.
- **Control:** DataVox will provide and install one (1) Crestron Cresnet distribution block and four (4) Crestron control port expansion modules to provide power controls for new, DataVox provided displays/projectors via existing control system processor.

## Training

DataVox will provide one hands-on training session as coordinated with the Customer. All users of the system should be present at this training session to learn basic operation and light maintenance. Additional training sessions are available upon request at additional charge.

## Out of Scope Services

The following services are outside the scope of work:

- All conduits, such as high voltage wiring panels, breakers, relays boxes, and receptacles
- Any related electrical work, including but not limited to 110VAC, conduit, core drilling, raceway and boxes
- Concrete saw cutting and core drilling
- Firewall, ceiling, roof and floor penetration patching, removal or fire stopping
- Any audio visual consulting services to configure existing audio visual devices outside the audio visual devices provided within this SOW and the Audio Visual Proposal.
- Necessary sheet rock replacement and repair
- Necessary ceiling tile or T-bar modifications, replacement and repair
- Any and all millwork (for example, molding and trim). All millwork or modifications to project millwork to accommodate equipment
- Permits (unless specifically provided for in this SOW.)
- HVAC and plumbing relocation
- Rough-in, bracing, framing, or finish trim carpentry for installation
- Cutting, structural welding, or reinforcement of structural steel members required for support of assemblies, if required

***This document is confidential and the property of DataVox. Any copy or reuse of this document, its contents, recommendations and/or solutions in whole or part is strictly prohibited without prior written consent of DataVox.***

**Justice Center Improvements, Jury Assembly Room**

**DATAV-4595**

- Any applicable taxes, permits, or bonds related to the project
- Unless specified in this SOW, the warranty provisions in this contract do not cover owner furnished equipment. Additionally, owner furnished equipment will not be controlled unless specifically stated in this SOW

# BASELINE RESPONSIBILITIES

## DataVox Responsibilities

This section lists DataVox's responsibilities for this Audio Visual proposal.

- Install all equipment according to manufacturers' specifications, national and local building codes and regulations, and will be in conformity with good engineering practices as outlined by the international Communications Industries Association (ICIA) and best practices as outlined by InfoComm.
- All equipment will be installed with provisions for the safety of the operator in accordance with the Americans with Disability Act (ADA) guidelines.
- All DataVox staff will dress in a professional manner displaying the DataVox logo, properly using any required Personal Safety Equipment. They will conduct themselves in a professional, courteous and respectful manner to all others present.
- Will maintain a clean working environment, storing tools and equipment when not in use and discarding refuse as often as reasonably possible.
- While DataVox cannot take responsibility for furniture or Customer furnished equipment in the workspace, DataVox will take reasonable precautions to protect all Customer furnished equipment, floors, walls, ceiling tiles, windows and window coverings, and furniture and other surfaces from damage, staining or unreasonable breakage while on site.
- Will notify the Customer of any hum, distortion, and RF Interference caused by the interference with the local RF environment, building structure, electrical systems, telecommunications systems, wireless RF systems which are beyond the control of DataVox, and will advise the Customer of possible remedies.
- Will appoint a Project Manager (PM) and/or Lead Technician (LT) to oversee the installation. During system implementation, please direct all communications through this designated contact.
- PM or LT will coordinate with other trades to facilitate and expedite project progress. Will inform the Customer of any contractor interference or potential delays which could impede implementation of the AV system, thereby helping to avoid any additional charges.
- Will provide written documentation of any Change Orders (CO) for work requested by the Customer which deviates from the original, approved Proposal and Scope of Works. CO's will be billed at our published labor rates plus materials, shipping, handling, restocking and other charges imposed by suppliers.
- Recommends weekly construction coordination meetings between the Customer, DataVox and all other trades in which we will report to the Customer the status of the project, any foreseeable restrictions or insurmountable issues outside our control which could impact the overall project schedule.

## Customer Responsibilities

This section lists the Customer responsibilities for this Audio Visual proposal.

- **Safe Work Environment:** Provide DataVox staff, contractors and others working on-site a safe working environment. DataVox reserves the right to refuse to work or install any equipment in an area where, at the sole discretion of DataVox, the safety of those involved is of concern.
- **Access to worksite:** provide access to the worksite, and all work will take place between the hours of 07:30 and 17:00 Monday through Friday, except on public holidays, unless specified otherwise in the DataVox Proposal. Work completed at any other time will be billed at OT rates published in **Change Order Labor Rates**. For the safety of all concerned, it is requested that the work area be free and clear, for example, of other trades, clients of the Customer, and employees during the installation period.
- **Ingress/Egress from Loading Dock to Work Site:** ensure unobstructed access to the loading/unloading dock and between the dock and the worksite so that the loading/unloading of large objects such as racks, screens, and large flat panels is safe and unencumbered.
- **Secure Storage:** provide a secure, climate controlled area on-site to store equipment during the installation period. Delivery of goods, supplies and equipment to this on-site storage location, or equipment that has been installed in its designated location will be considered as 'Delivered' for billing purposes and will be invoiced accordingly. Responsibility for the equipment passes to the Customer immediately upon installation or delivery to the on-site storage. Any loss due to vandalism, theft, burglary, fire, water ingress, or any other means outside the direct control of DataVox shall be replaced at the Customer's expense.

---

***This document is confidential and the property of DataVox. Any copy or reuse of this document, its contents, recommendations and/or solutions in whole or part is strictly prohibited without prior written consent of DataVox.***

## Justice Center Improvements, Jury Assembly Room

DATAV-4595

- **Uninterrupted Work Flow:** avail DataVox of continuous, uninterrupted workflow in the environment in which the AV system will be installed. Delays in work caused by interference of other trades, , inability to access the work space during the stated hours, inability to access equipment stored on site, or other reason caused by the Customer will be charged at rates published in **Change Order Labor Rates**. If DataVox crew arrives to work on-site at the appointed time and cannot work due to dangerous conditions, inability to access the site, lack of power, interference by others which are within direct, reasonable control of the Customer, it will result in a half day charge for the crew.
- **Electrical:** all installation, termination and connection of any high voltage services (greater than or equal to 70VAC). It is strongly recommended that all AV system components shall be connected to Technical Power - using the same phase of building power to all AV system points.
- **Subscription-Based Services:** any services such as Cable TV, Satellite, ISDN, High-speed internet or other network services to be provided by others. Any such services are to be delivered to the desired location and appropriately terminated as coordinated with DataVox.
- **Floor Penetrations/Coverings:** any floor coring, installation of floor box, poke-thru wire path, or other devices which require modification of the floor surface or floor covering required for the cable path. Any carpet work such as cutting, repairing or vulcanizing or re-bonding due to the use of under-the-carpet AVTrac or similar cabling system.
- **Wall Structure:** any demolition, painting, or structural modification work to be provided by the Customer unless otherwise specifically noted in DataVox proposal. All wall-mounted displays larger than 40" will require blocking and suitable plywood backing as coordinated with DataVox.
- **Wall Finish & Ceiling Tile/Ceiling Grid work:** repair and/or finish-out of any wall covering, wall finishing, painting, sealing, masonry work, etc., and any modifications to ceiling tiles or ceiling grids required as a result of installation of projector screens, lifts, speakers, cameras, mounts, etc. unless specifically provided for in the DataVox proposal.
- **Cabling Paths:** all provided cabling paths and raceways will be free, clear, dry and unobstructed. They shall be sized as recommended by NEC and InfoComm.
- **Vibration Dampening:** isolation of any unwanted vibration of building, building structure, floors, ceilings, walls or any other surface to which AV equipment is to be mounted. All mounting surfaces must be free of vibration, whether caused by pedestrian traffic, HVAC system components, Mechanical or Electrical System components or any other cause.
- **Furniture Modifications:** provide all modifications necessary to table tops, credenzas, cabinets and other furniture to accommodate the specified AV connectivity boxes, unless specified otherwise in our proposal. Also, all existing OFE furniture will have sufficient space and cooling capacity to accommodate all new AV system components. Any modifications to any of the above services required by the proposed AV system will be clearly enumerated by DataVox upon acceptance of the final proposal by the Customer. Delays in providing the above services beyond the projected start date will commensurately delay the contracted project completion date, and may incur additional charges at the rates published in **Change Order Labor Rates**.
- **Lights and Lighting Control Systems:** All lights and lighting control systems provided by others must be able to accommodate third party RS0232 control connections and protocols.
- **Drape and Shade Controls Systems:** All drape and shade controls systems provided by other must be able to accommodate third party RS-232 control connections and protocols.

# ACCEPTANCE OF PROPOSAL

When (but only when) signed by buyer and an authorized representative of DataVox this shall be a binding, legal contract.

The prices, specifications, and conditions in this proposal are satisfactory, and are hereby accepted in their entirety. Buyer hereby agrees to purchase the Equipment and authorizes DataVox to do the work, and provide the materials specified, and payment will be made as outlined above. The price quoted in this Audio Visual Proposal is based upon the Equipment included in this Audio Visual Proposal. Any changes in the Equipment or installation may result in a change in the price. Any such change must be in writing, signed by all parties.

DataVox reserves the right to modify payment terms at any time based on a review of the Customer's credit.

THIS AGREEMENT, WHEN SIGNED BY BOTH PARTIES (BELOW), SHALL BE GOVERNED BY THE TERMS AND CONDITIONS IN THIS AUDIO VISUAL PROPOSAL. THERE ARE NO OTHER AGREEMENTS, OR WARRANTIES, ORAL OR WRITTEN, EXCEPT AS EXPRESSLY STATED IN THIS AUDIO VISUAL PROPOSAL. THIS AGREEMENT CANNOT BE MODIFIED EXCEPT IN WRITING SIGNED BY BOTH PARTIES.

Buyer acknowledges having read and understood all of the terms and conditions printed in this Audio Visual Proposal and acknowledges receipt of a complete executed copy of this Agreement. Buyer understands and agrees that this Audio Visual Proposal and all of the terms and conditions hereof shall be a binding, enforceable contract when signed by Buyer and by an authorized representative of DataVox.

## Approval Signatures

IN WITNESS WHEREOF, the duly authorized representatives of the parties hereto have caused this Proposal to be duly executed.
