 DCP Intrastate Network Pipeline Adjustment
Project Description: Replace and lower 830 ft of 16 in dia steel natural gas pipeline crossing the existing and proposed Crabb River Road (FM 762)

This Agreement by and between Fort Bend County, Texas, ("**County**"), acting by and through its Commissioners Court and duly authorized official and DCP Intrastate Network, LLC, ("**Owner**"), acting by and through its duly authorized representative, shall be effective on the date of approval and execution by and on behalf of the **County**.

WHEREAS, the **County** and the **State of Texas** have determined that it is necessary to make certain improvements to Crabb River Road, which said changes are generally described as follows: Roadway Improvements; and which will be subject to the approval of the Federal Highway Administration; and,

WHEREAS, the proposed Roadway Improvements will necessitate the adjustment, removal, replacement and/or relocation of certain facilities of **Owner** as indicated in the following statement of work: casing extension for existing gasoline pipeline, according to the following schedule:

Start Date: work shall commence within thirty (30) calendar days after the execution of this Agreement by both parties;

Completion Date: work shall be completed within sixteen (16) calendar days after the Start Date unless otherwise provided herein;

and such work as described more specifically in **Owner's** Plans and Specifications, Construction Cost Estimate (total cost estimated at \$327,633.68) and Schedule of Work and Estimated Date of Completion, attached hereto as Exhibits A, B, and C, respectively. and incorporated herein for all purposes; and,

WHEREAS, the **Owner**, has provided sufficient legal authority to the **County** to establish an interest in properties affected by the above-mentioned Roadway Improvements. Said facilities are located upon such properties as indicated in Exhibit A; and,

WHEREAS, the **County**, upon receipt of evidence it deems sufficient, acknowledges **Owner's** interest in certain lands and/or facilities and determined it is appropriate to enter into an Agreement with **Owner** to govern the terms for participation in the costs of the adjustment, removal, replacement and/or relocation of certain of its facilities located upon the lands as indicated in Exhibit A, as well as documentation of **Owner's** interest in such lands shown in Exhibit D.

NOW, THEREFORE, in consideration of the covenants and agreements herein contained, the parties mutually agree as follows:

The **County** will pay for reasonable and necessary eligible costs incurred in the adjustment or relocation of **Owner's** facilities to the extent authorized under 23 CFR Part 645, Subpart A. The **County's** participation shall consist of the percentage of the eligible cost of the adjustment or relocation as shown in the Eligibility Ratio calculation in Exhibit B.

The **Owner** agrees that the method to be used to develop the adjustment or eligible relocation costs shall be the actual direct and related indirect eligible costs accumulated in accordance with an established accounting procedure developed by the **Owner** and approved by the **County**.

Subject to the participation percentage as set out above, the **County** will, upon satisfactory completion of the adjustment or relocation, and upon receipt of a final billing prepared in the form and manner prescribed by Federal regulations, make payment in the amount prescribed by the Eligibility Ratio calculation in Exhibit B, which shall be shown on the final billing.

Reasonable and necessary bills for work completed herein shall be submitted to the **County** not later than ninety (90) days after completion of the work. Upon receipt of the final billing and conclusion of the audit, the **County** agrees to pay **Owner** the amount given in the Eligibility Ratio calculation in Exhibit B, as indicated. The **County** shall make payment within forty-five (45) days of acceptance of the final billing.

Unless an item below is stricken and initialed by the **County** and **Owner**, this Agreement in its entirety consists of the following:

1. Standard Utility Agreement;
2. Plans and Specifications (Exhibit A);
3. Construction Cost Estimate (Exhibit B);
4. Schedule of Work and Estimated Date of Completion (Exhibit C);
5. Supporting Documentation (Exhibit D);
6. Statement Covering Utility Construction Contract Work, TxDOT Form U-48 (Exhibit E).

In the event there is a substantial change for the statement of work contained in Exhibit A, reimbursement is limited to the amount approved pursuant to this Agreement and its attached exhibits unless written approval is obtained from the **County**. All changes shall be documented on the **Owner's** "as-built" plans supplied to the **County**. **County** shall reimburse **Owner** for any additional cost or expense resulting from any delays waiting for **County's** written approval.

Upon execution of this Agreement, the **County** will, by written notice, authorize the **Owner** to proceed with the necessary adjustment or relocation, and the **Owner** agrees to prosecute such work diligently in accordance with the **Owner's** plans. **Owner** shall provide the **County** with forty-eight (48) hours written notice prior to proceeding with the adjustment or relocation and agrees to proceed in such a manner that will not result in avoidable delay or interference with the **County's** roadway construction. Should **Owner** by its actions cause interference or delay resulting in the imposition of damages upon the **County** by a third party, **Owner** agrees to be responsible for said damages. Such authorization to proceed shall constitute notice on the part of the **County** that the relocation has been included in an approved program as an item of right of way acquisition, that a project agreement which includes the work has or will be executed, and that the utility relocation or adjustment will be required by the final approved project agreement and plans.

The **Owner** will retain records of such eligible costs in accordance with the provisions of 23 CFR 645, Subpart A.

The **Owner** acknowledges to and for the benefit of the **County** and **State of Texas** that it understands the project under this Agreement is eligible for Federal-aid highway funds, and as such, requires that all of the iron, steel, and manufactured goods used in the project be produced in the United States ("Buy America Requirements"), including iron, steel, and manufactured goods provided by the **Owner** pursuant to this Agreement.

The State Auditor may conduct an audit or investigation of any entity receiving funds from the **County** directly under this contract or indirectly through a subcontract under this contract. Acceptance of funds directly under this contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the State Auditor, under the direction of the Legislative Audit Committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the State Auditor with access to any information the State Auditor considers relevant to the investigation or audit.

The **Owner**, by execution of this Agreement, does not waive any rights to which **Owner** may legally have within the limits of the law.

This Agreement is subject to cancellation by the **County** and any time up to the date that work under this Agreement has been authorized. **County** shall reimburse **Owner** one hundred percent (100%) of all reasonable and necessary cost incurred by **Owner** up to the date of receipt of Notice of Cancellation.

The County Auditor may conduct an audit or investigation of any entity receiving funds from the **County** directly under the Agreement or indirectly through a subcontract under this Agreement. Acceptance of funds directly under this Agreement or indirectly through a subcontract under the Agreement acts as acceptance of the authority of the County Auditor, to conduct an audit or investigation in connection with those funds.

It is expressly understood that the Owner conducts the adjustment, removal, replacement and/or relocation at its own risk, and that the Owner agrees to indemnify and hold the County harmless for damage to existing facilities caused by the Owner's conduct.

The signatories to this Agreement warrant that each has the authority to enter into this Agreement on behalf of the party represented.

I, Travis L. Hammons, a duly authorized and qualified representative of DCP Intrastate Network, LLC, hereinafter referred to as **Owner**, am fully cognizant of the facts and make the following statements in respect to work which will or may be done on a contract basis as appears in the estimate to which this statement is attached.

It is more economical and/or expedient for **Owner** to contract this adjustment, or **Owner** is not adequately staffed or equipped to perform the necessary work on this project with its own forces to the extent as indicate on the estimate.

- ☐ A. Solicitation for bids is to be accomplished through open advertising and contract is to be awarded to the lowest qualified bidder who submits a proposal in conformity with the requirements and specifications for the work to be performed.
- ☐ B. Solicitation for bids is to be accomplished by circulating to a list of pre-qualified contractors or known qualified contractors and such contract is to be awarded to the lowest qualified bidder who submits a proposal in conformity with the requirements and specifications for the work to be performed. Such presently known contractors are listed below:
- 1.

The utility proposes to contract outside the foregoing requirements and therefore evidence in support of its proposal is attached to the estimate in order to obtain the concurrence of the State, and the Federal Highway Administration Division Engineer where applicable, prior to taking action thereon (approval of the agreement shall be considered as approval of such proposal).
- ☐ E. The utility plans and specifications, with the consent of the State, will be included in the construction contract awarded by the State. In the best interest of both the **State** and the **Utility**, the **Utility** requests the **State** to include the plans and specifications for this work in the general contract for construction of Highway FM 762 in this area, so that the work can be coordinated with the other construction operations; and the construction contract is to be awarded by the **State** to the lowest qualified bidder who submits a proposal in conformity with the requirements and specifications for the work to be performed.
