Those standards, the Uniform Guidance, and the Uniform Grant Management Standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at www.irs.gov/fw9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)

- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
 - Form 1099-C (canceled debt)
 - Form 1099-A (acquisition or abandonment of secured property)
- Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.
- If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.*
- By signing the filled-out form, you:
1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
 2. Certify that you are not subject to backup withholding, or
 3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
 4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States:

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items:

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the Part II Instructions on page 3 for details),

3. The IRS tells the requester that you furnished an incorrect TIN,

4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code* on page 3 and the separate Instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships* above.

What is FATCA reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code* on page 3 and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account, list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9.

a. **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

Note. ITIN applicant: Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040/1040A/1040EZ you filed with your application.

b. **Sole proprietor or single-member LLC.** Enter your individual name as shown on your 1040/1040A/1040EZ on line 1. You may enter your business, trade, or "doing business as" (DBA) name on line 2.

c. **Partnership, LLC that is not a single-member LLC, C Corporation, or S Corporation.** Enter the entity's name as shown on the entity's tax return on line 1 and any business, trade, or DBA name on line 2.

d. **Other entities.** Enter your name as shown on required U.S. federal tax documents on line 1. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on line 2.

e. **Disregarded entity.** For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a "disregarded entity." See Regulations section 301.7701-2(c)(2)(iii). Enter the owner's name on line 1. The name of the entity entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on line 2, "Business name/disregarded entity name." If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, you may enter it on line 2.

Line 3

Check the appropriate box in line 3 for the U.S. federal tax classification of the person whose name is entered on line 1. Check only one box in line 3.

Limited Liability Company (LLC). If the name on line 1 is an LLC treated as a partnership for U.S. federal tax purposes, check the "Limited Liability Company" box and enter "P" in the space provided. If the LLC has filed Form 8832 or 2553 to be taxed as a corporation, check the "Limited Liability Company" box and in the space provided enter "C" for C corporation or "S" for S corporation. If it is a single-member LLC that is a disregarded entity, do not check the "Limited Liability Company" box; instead check the first box in line 3 "Individual/sole proprietor or single-member LLC."

These codes apply to persons submitting this form for accounts maintained outside of the United States by certain foreign financial institutions. Therefore, if you are only submitting this form for an account you hold in the United States, you may leave this field blank. Consult with the person requesting this form if you are uncertain if the financial institution is subject to these requirements. A requester may indicate that a code is not required by providing you with a Form W-9 with "Not Applicable" (or any similar indication) written or printed on the line for a FATCA exemption code.

Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns.

Line 6

Enter your city, state, and ZIP code.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are a single-member LLC that is disregarded as an entity separate from its owner (see *Limited Liability Company (LLC)* on this page), enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note. See the chart on page 4 for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at www.ssa.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/businesses and clicking on Employer Identification Number (EIN) under Starting a Business. You can get Forms W-7 and SS-4 from the IRS by visiting IRS.gov or by calling 1-800-TAX-FORM (1-800-829-3676).

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note. Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if items 1, 4, or 5 below indicate otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code* earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, SSN, or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Publication 4535, Identity Theft Prevention and Victim Assistance.

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration (TIGTA) at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at: spam@uce.gov or contact them at www.ftc.gov/idtheft or 1-877-IDTHEFT (1-877-438-4338).

Visit IRS.gov to learn more about identity theft and how to reduce your risk.

Revised June 2, 2015, Effective August 1, 2015

Revised July 28, 2015, Effective August 1, 2015

Revised July 26, 2016, Effective August 1, 2016

Revised December 12, 2017, Effective January 1, 2018

The Commissioners' Court allocates funds annually for the payment of travel expenditures for county employees and officials within the individual departmental budgets. Travel expenditures paid from these budgets must serve a public purpose for Fort Bend County. These expenditures may be paid directly to the vendor or provided as a reimbursement to the employee/official upon completion of their travel. Advance payments to vendors may be accommodated by issuance of a check or use of a County procurement card. Eligible expenditure categories under this policy include: Lodging, meals, transportation, registration fees, and other fees (with justification). Each category is further defined below.

CONTRACT RATES:

Fort Bend County is a 'Cooperative Purchasing Participating Entity' with the State of Texas. This program is also known as TPASS (Texas Procurement and Support Services) State Travel Management Program (STMP). This gives County employees and officials access to the contract rates negotiated by the State for hotels and rental cars. Procurement procedures for these contract services are explained within the categories below.

OUT OF STATE TRAVEL:

Authorization: The traveler must obtain Commissioners' Court approval for out-of-state travel before departure. The duration must include travel days along with the event scheduled days. To prevent delays in processing travel reimbursement, ensure that the travel duration is accurately defined when submitting the agenda request.

Documentation: The traveler must provide an excerpt from the Commissioners' Court minutes (<http://www.fortbendcountytexas.gov/index.aspx?page=55>) with the travel reimbursement form.

LODGING (In and Out of State):

Hotel:

Hotel reimbursements are limited to the Federal Travel Regulations set forth by US General Services Administration (GSA) by location not including taxes. The rates are set annually and vary by month and location. The maximum rates for lodging per day can be found at:

http://www.gsa.gov/portal/content/104877?utm_source=OGP&utm_medium=print-radio&utm_term=perdiem&utm_campaign=shortcuts based on travelers destination.

Fort Bend County is a 'Cooperative Purchasing Participating Entity' with the State of Texas. This gives County employees and officials access to the contract rates negotiated by the State for hotels. Participating hotels can be found at: https://portal.cpa.state.tx.us/hotel/hotel_directory/index.cfm (be sure to check the correct fiscal year). **When making a reservation the traveler must ask for the State of Texas Contract rate (not the government rate) and be prepared to provide the County's**

agency #: C0790. Traveler must verify confirmed rate matches the negotiated contract rates found on the State's website listed above and does not exceed the GSA daily allowance.

If the organizer of a conference/seminar has negotiated discount rates with a hotel(s), the traveler may choose these lodging services without penalty but the traveler must reserve the room at the group rate and provide documentation of the group rate with reimbursement request.

The traveler will be responsible for the excess charge over the GSA per diem rate for the city/county even if using the State rate. The Auditor's Office will deduct from the travelers' reimbursement any excess charges over the GSA per diem rate. Travel websites including but not limited to Expedia and Travelocity should not be used to book lodging.

Travel Days: If the traveler must leave before 7:00AM to arrive at the start of the event and/or return to the County after 6:00PM after the event concludes, an additional night's lodging is allowable before and/or after the event.

Additional fees allowable: Self-parking

Additional fees allowable with justification: Valet parking is allowable if an extreme hardship exists due to physical disability of the traveler or if no self-parking is available.

Fees not allowable: Internet, phone charges, laundry, safe fees

Gratuities: Gratuities are not reimbursable for any lodging services.

Overpayments by County: Any lodging overpayment by the County must be reimbursed by the hotel before processing a reimbursement to the traveler for any of the categories addressed in this policy. Prepaid lodging services should be accurately calculated or underestimated by excluding the taxes to prevent delays in processing travel reimbursements.

Procurement Card: The traveler may use the procurement card to make lodging reservations. Contact Purchasing to arrange or use the procurement card assigned to the department or traveler.

Documentation: **A final settled hotel bill with a zero balance from the front desk is required even if lodging is paid by the procurement card. The hotel bill left under the door is not acceptable.** The hotel bill should be scrutinized before traveler departs to make sure all charges are valid and notify hotel of any invalid charges and resolve issues before departing. Make sure all parking has been added to your bill and all personal incidentals have been paid by traveler. Any invalid charges will be the responsibility of the traveler. A copy of the itemized hotel statement must be submitted with the travel reimbursement claim if the traveler used a County procurement card to purchase lodging services or prepaid by County check. Event agenda/documentation or a letter from the traveler describing the event/meeting is required. If utilizing conference negotiated hotel rates, documentation of rates is required.

Changes/Modifications to Reservation – Any modifications including cancellation of reservation, the traveler must obtain a confirmation number and note the name of the person they spoke with in case the hotel charges the traveler. If the traveler does not obtain a confirmation number then any expenses incurred will be the responsibility of the traveler. Expenses resulting from changes or modifications to travel reservations will be paid by the County if the traveler produces documentation that a family emergency exists.

County Exemption Status – Fort Bend County Employees traveling on County Business are not exempt from State and local hotel taxes, state taxes, etc. with the exception of District Judges and the District Attorney.

MEALS:

Texas: Meals including gratuities will be reimbursed to the traveler at a flat rate of \$36/day. The travelers per diem on the departure day and final day of travel will be at 75% of the per diem which is \$27/day.

Out-of-state: Meals including gratuities will be reimbursed to the traveler at a flat rate of \$48/day. The travelers per diem on the departure day and final day of travel will be at 75% of the per diem which is \$36/day.

Late Night Arrival – If a traveler arrives in Fort Bend County between midnight and 6am the traveler will receive a full day per diem for the previous day.

Day trips: Meals will not be reimbursed for trips that do not require an overnight stay.

Procurement Card: No meal purchases are allowed on any County procurement card.

Documentation: No meal receipts are required for reimbursement. Event agenda/documentation or a letter from the traveler describing the event/meeting is required.

TRANSPORTATION:

Personal Vehicle: Use of personal vehicle will be reimbursed at the current rate/mile set by Commissioners' Court. Mileage should be calculated using the County office location of the traveler and the event location. Mileage may not be calculated using the traveler's home. Mileage should be calculated using an employee's vehicle odometer reading or by a readily available online mapping service for travel out of Fort Bend County. If using the mileage of an online mapping service, state which mapping service was used or provide a printout of your route detailing the mileage. For local travel, odometer readings or mapping service details are not required. We agree with and affirm our understanding of the basic scope of services as outlined in section 23.0 of RFP 20-083 and have summarized the same as follows:

- We will audit financial statements of the governmental activities, the aggregate discretely presented component units each major fund, and the aggregate remaining fund information as of September 30, 2020 and for the year then ended, and the related notes to the financial statements, which collectively comprise the County's basic financial statements.

- We will apply certain limited procedures as described in section 23.4 and professional standards to the required supplementary information (RSI) enumerated in the same section.
- We will subject the other supplementary information to include the schedules of expenditures of federal and state awards described in sections 23.5 and 23.6 to the auditing procedures applied in the audit of the basic financial statements in order to express an opinion as to their fair presentation in relation to the basic financial statements noted above.
- We will conduct an audit the County's compliance over major federal and state award programs for the year ended September 30, 2020 as well as report on the internal controls surrounding such compliance; in accordance with the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the audit requirements of the State of Texas Single Audit Circular (Uniform Grant Management Standards).
- Prior to the submission for the Data Collection Form to the Federal Single Audit Clearinghouse, we will complete the sections of the Form that are our responsibility. We will assist the County Auditor's Office with advice in the electronic submission and certification of the financial reporting package is text searchable, unencrypted, and unlocked as required.

We anticipate the County Auditor's Office personnel will take responsibility for and produce all required financial statements contemplated under this agreement. We will, of course, be standing by for any technical assistance that might be required to further this objective.

1.2 METHODOLOGY COMPONENT

Service Approach and Methodology

Our firm thoroughly understands the nature of the work to be performed and has developed programs of procedures designed specifically for these engagements. In addition to the heavy involvement of our partners and managers, our staff will have familiarity with the County's general operating environment due to their ongoing involvement with other governmental clients.

A brief overview of the different phases or segments of our audit process is as follows:

The Planning and Risk Assessment Phase

Prior to any fieldwork being performed, strategic planning sessions are held both internally and with the County's staff to identify key audit and operational issues and to establish communications with appropriate firm and County staff and relevant third parties, as well as to determine timing and individual responsibility schedules. Additionally, the audit team will gain an understanding of the County's controls and operations surrounding financial activity and develop a plan of action or risk assessment for auditing key areas and account balances.

Fieldwork

Our audit programs for the County will include procedures related to the review and evaluation of internal administrative and accounting control noted above as well as the determination of compliance with finance related legal issues, the evaluation of errors and fraud, statistical sampling and analytical procedures designed to determine reasonableness of costs that can lead toward evaluating efficiency and effectiveness in administrative operations.

Throughout the fieldwork process, our partners and staff remain in constant contact and communication with County management personnel. When questions or concerns arise in the course of our work, we take steps to assure ourselves that critical information is passed on to the proper level of management through weekly meetings and discussions.

Report Issuance and Closure

We **do not like surprises** so any deficiencies, significant deficiencies or material weaknesses would be discussed with management prior to including it in the report and presenting the results to the Commissioners Court. We believe that both the auditee and auditor must agree on the facts and ensure that there isn't documentation that could clear any deficiencies of which we were previously unaware. We find this method of exiting on the audit process brings the most value to our clients.

1.2 METHODOLOGY COMPONENT

Service Approach and Methodology (continued)

Report Issuance and Closure (continued)

Report issuance and exit conferences of an audit are often the most critical portions because it is in this phase that most external communications are discussed. The results of our audit will be reviewed with the appropriate level of management, to include the Commissioners Court and executive levels of staff, prior to the issuance of a report on internal controls and compliance matters. This review of findings and proposed recommendations with management will lead to a plan of action for County management to make any needed improvements in a manner that is not only theoretically, but practically sound. We find this method of exiting on the audit process brings the most value to our clients.

We will work with your financial management team in the process of building the County's Comprehensive Annual Financial Report, to eliminate any unknowns in the financial statement presentation process.

Sample Sizes and Audit Sampling

Because it would not be cost effective to test 100 percent of items within an account balance or class of transactions for the purpose of evaluating some characteristic of the balance or class in our tests of controls and compliance with laws and regulations, we sample.

In the course of an audit, we will apply sampling techniques in our substantive testing of account balances and transaction classes if the application of such techniques is deemed more effective and efficient.

The sample sizes and the extent of the use of samples depends on various factors including population size and the inherent risks associated with the account, transaction class, controls, or compliance features. In the planning and fieldwork stages of the audit, we will thoroughly discuss the population sizes, and the risk factors associated with significant financial statement accounts with appropriate financial management personnel. These discussions will include a methodology for selecting a sample as well as an approach for gathering the sample that will be the least intrusive to ongoing financial operations of the County, its component units and departments

We will also utilize statistical sampling techniques to be used for testing of controls and testing compliance with laws and regulations. We will apply various statistical sampling techniques based on the substance of the population. Statistical sampling techniques to be applied include a combination of random sampling, systematic sampling, and monetary unit sampling. Also, through the use of advanced data analytics software, we will perform analysis on entire populations to assist in determining samples.

Extent of use of Software in the Engagement

Work paper management

We utilize CCH's ProSystem fx Engagement, a fully integrated software for trial balances, audit workpapers and reporting functions. In fact, all of our audit documentation is maintained through the use of "paperless" working paper software. We will request that the County staff electronically download certain data from the County's financial management information system for evaluation during the planning and fieldwork phases of the audit. Our approach to this area is designed to be non-invasive and to reduce the amount of time spent by both our staff and County employees.

The Whitley Penn Portal

Everyone is concerned about the confidentiality of information, whether in paper or electronic form. Whitley Penn's portal provides a secure, convenient way to transfer data. Some of the benefits of Whitley Penn's portal include:

- Maximum Security for Uploading and Downloading Files of All Sizes
- Ability to Assign Access to Users Within Your Account
- Convenient, Instant Access to Documents
- Multiple Document Organization Tools

Whitley Penn's portal is just one of the many tools in our toolbox that assist us in providing our valued clients with the best service available.

Advanced Audit Data Analysis with TeamMate Analytics

Auditors today are constantly challenged with increasing coverage, tightening budgets and increasing pressure from clients to add more value, as well as communicating and demonstrating that value.

Data analytics enable auditors to reduce risk by auditing 100% of a population rather than a small sample, while saving time through more efficient procedures. Analytics can dramatically increase the value delivered through 100% coverage highlighting every potential issue or anomaly and the ability to get to the root of issues quickly. Analytics also enables auditors to calculate and communicate the value that a proposed improvement can deliver, demonstrating audit's value add to business processes and giving an incentive to act.

Whitley Penn utilizes TeamMate Analytics to audit areas such as expenditures, general ledger journals, payables, receivables, HR and payroll. TeamMate Analytics includes interactive discovery tools to help us spot anomalies and unusual features in your data that you might warrant further investigation.

Tests of Compliance with Laws and Regulations

This is a type of audit test that is used to determine general statutory compliance and compliance with agreements with state and federal agencies for services provided to eligible recipients. The purpose of tests of compliance with laws and regulations is to determine whether there have been instances of noncompliance that may have a material effect on the financial statements or to provide a basis of reporting on the County's compliance with such laws and regulations. As a result, tests of compliance with laws and regulations are substantive tests accomplished by examining supporting documentation. In a single audit, this type of audit test is frequently applied using audit sampling.

We will select a sample of revenue or expenditure transactions and inspect supporting documentation to determine compliance with relevant laws and regulations; e.g., we would select a sample of expenditures program and inspect documentation to determine whether expenditures charged to a federal or state award were for activities allowed. We find the most efficient approach is usually to conduct these tests simultaneously with substantive tests of transactions; e.g., concurrently with selecting samples of cash receipts or disbursements to test recording accuracy.

Identifying Potential Audit Problems

As noted earlier, our approach to difficult audit issues is immediate communication at the appropriate level of management to include, as appropriate, Commissioners Court and management. We propose scheduled periodic meetings with the County's management personnel to stay abreast with issues that the County is facing. As part of our service commitment, we welcome any questions during the year.

Our firm uses analytical procedures in audit planning and fieldwork to:

- Enhance our understanding of the County's operations and the transactions and events that have occurred since the last audit date.
- Identify areas that may represent specific risks relevant to the audit.
- Provide substantive support for financial information included in the financial reports.

1.2 METHODOLOGY COMPONENT

Service Approach and Methodology (continued)

Type and Extent of Analytical Procedures

Comparisons of account balances between accounting periods are made and ratio and trend analyses performed to improve our understanding of the client and its operations and possibly identify critical audit areas. For instance, comparing general and special revenue fund expenditures by function and revenue by source for the past five years provides an understanding of the County's operations and may identify a revenue source that requires increased attention in the current audit.

Our preliminary analytical procedures may include a comparison of current account balances in the working trial balance to similar amounts in the prior annual period's financial statements and the current period's budget. However, we feel a thoughtful consideration of expected relationships among account balances and periods by our experienced auditors is far more important than a mechanical comparison. We will not only consider these relationships but compare these based on our knowledge of and experience with similar governmental entities and their operations. In some cases, analytical procedures can be more effective and efficient than tests of details for achieving particular substantive testing objectives. Normally, analytical procedures call attention to unexpected relationships in financial statement balances. This can be an efficient means of identifying potential misstatements or misclassifications. The appropriate mixture of analytical procedures and tests of details is a matter of professional judgment concerning the expected efficiency and effectiveness of analytical procedures in identifying potential misstatements. Auditor may eliminate the need to sample or reduce the population of payroll expenditures considered necessary to sample by confining sampling to departments with significant fluctuations.

Analytical procedures may be used to identify individually significant items or to otherwise identify populations that need to be sampled. In the payroll area, an effective analytical test is to compare current expenditures to the prior period actual and current budget by department and relate to the number of employees by department. In this manner, the auditor may eliminate the need to sample or reduce the population of payroll expenditures considered necessary to sample by confining sampling to departments with significant fluctuations.

Analytical procedures are also applied as an overall review of the financial information in the final stage of the audit. These procedures are designed to assist our staff in assessing the propriety of conclusions reached and in the evaluation of the overall financial statement presentation. While the selected procedures will vary on the circumstances, they will always focus on overall relationships within the financial statements and consider the following matters:

- The adequacy of evidence gathered in response to unusual or unexpected balances identified by analytical procedures applied in the planning stage of the audit.
- Unusual or unexpected balances or relationships not previously identified.

Determining Laws and Regulations Subject to Audit Test Work

We will design our audit to provide reasonable assurance that the County’s financial statements are free of material misstatements resulting from violations of laws and regulations that have a direct and material effect on the determination of financial statement amounts. From the planning phase of the audit, we will seek to obtain an understanding of the possible effects of such laws and regulations on the County’s financial statements.

In the course of the audit, we will consider performing some or all of the following procedures:

- Consider knowledge about such laws and regulations obtained in prior years’ audits.
- Discuss such laws and regulations with the finance staff, legal counsel, or grant administrators.
- Obtain written representation from management concerning the completeness of management’s identification of such laws and regulations.
- Review grant and loan agreements.
- Review minutes of meetings of the Commissioners Court for the enactment of new policies.
- Read pertinent statutes, regulations, and charter provisions and excerpt significant items for the permanent file section of the workpapers
- If any legal requirements require clarification, we will request a written interpretation from the County’s legal counsel.

Below is an example of the some of the focus areas related to federal, state and local laws and/or policies.

Determining Laws and Regulations Subject to Audit Test Work (continued)

Examples of the types of laws and regulations that have a direct and material effect on the determination of amounts in a County's financial statements follow:

Public Funds Investment Act. We will consider the County's compliance with legal and policy provisions for deposits and investments.

Procurement. Competitive bidding laws apply to the procurement process.

Appropriations. Expenditures should not exceed authorized limits.

Legal authority for transactions. Transactions should be properly authorized at execution.

Budgetary reporting. The required and other supplementary information should present an aggregation of the appropriated budgets, as amended, compared to actual results of operations in accordance with State Laws' local budget provisions.

Restrictions on expenditures. The proceeds of certain governmental revenues are restricted by law as to the purposes for which they may be expended.

Taxing and debt limitations. Governmental units may be subject to laws and regulations that place limits on taxing authority, place ceiling limitations and other issuance criteria on debt, or place limits on the use of debt proceeds.

Financial Audit Engagement - General Scope Considerations

We will work closely with the Commissioners Court and upper level management in addressing the scope of the audit, the overall audit philosophy, and our observations and recommendations relating to the County's financial operations. We understand the scope of the work requested is an audit of the basic financial statements and required supplementary information in accordance with generally accepted auditing standards, as well as *Government Auditing Standards* (Yellow Book), issued by the Comptroller General of the United States, and the provisions of the Office of Management and Budget (OMB) Uniform Guidance under 2 CFR 200 and the State of Texas Single Audit Circular Uniform Grant Management Standards.

Our audit will be conducted in accordance with the above-mentioned standards and will include tests of the County's accounting records and other procedures we consider necessary to enable us to express an unmodified opinion that the basic financial statements are fairly presented in all material respects, in conformity with generally accepted accounting principles.

1.2 METHODOLOGY COMPONENT

Service Approach and Methodology (continued)

Financial Audit Engagement - General Scope Considerations (continued)

A. Evaluation of Internal Control Structure

The administration of the County is responsible for establishing and maintaining an internal control structure. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and that, transactions are executed in accordance with management's authorizations and recorded properly to permit the preparation of basic financial statements in accordance with generally accepted accounting principles.

In planning and performing our audit we will consider the internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the County's basic financial statements and not to provide assurance on the internal control structure.

We will obtain an understanding of the design of the relevant policies and procedures for the significant areas of the audit and whether they have been placed in operation, and we will assess control risk.

Tests of controls may be performed to test the effectiveness of certain policies and procedures which we consider relevant to preventing and detecting errors and irregularities which are material to the basic financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters which have a direct and material effect on the basic financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on the internal control structure policies and procedures and, accordingly, no opinion will be expressed.

We will inform the County of any matters involving internal control structure and its operations which we consider to be significant deficiencies under standards established by the AICPA. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

Compliance with laws, regulations, contracts and grant agreements applicable to the County is the responsibility of management. As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we will perform tests of the County's compliance with certain provisions of laws, regulations, contracts and grants. However, the objective of our audit will not be to provide an opinion on overall compliance with such provisions, and we will not express such an opinion.

B. Substantive Test Work on Account Balances

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts and may include tests of the physical existence of inventories and direct confirmations of receivables, cash, notes and certain other assets and liabilities by correspondence with selected individuals, creditors and financial institutions. Areas which would be covered in our tests would include material accounts in the general ledger such as cash, investments, receivables, taxes, proprietary fund revenues, fixed assets, accounts payable, payroll liabilities, fund balances, and various other revenue and expenditure accounts. We will also request written representations from your attorneys as part of the scope of the work. At the conclusion of our audit, we will also request certain written representations from the County about the financial statements and related matters. Our audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. Also, we will plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. However, because of the concept of reasonable assurance and because we will not perform a detailed examination of all transactions, there is a risk that material errors, irregularities, or illegal acts, including fraud or defalcations, may exist and not be detected by us.

We will inform you, however, of any matters of that nature which come to our attention, unless they are clearly inconsequential. Additional work requested or performed related to fraud, errors, irregularities or illegal acts would be above the scope of the audit and would be subject to further discussions with management. Our responsibility as auditors is limited to the period covered by our audit and does not extend to matters that might arise during any later periods for which we are not engaged as auditors.

C. Periodic Staff Meetings

As part of our annual commitment to the County, senior level firm personnel will be available to meet with County staff, and Commissioners' Court, or committees thereof as appropriate periodically during the audit and throughout the year to discuss financial reporting and audit matters. It is our policy to make our partners and managers available throughout the year to the Commissioners Court and staff members. We would contemplate receiving specific direction as to the County's and firm's staff involvement in planning sessions with management prior to beginning our work.

D. Reporting

Review of Comprehensive Annual Financial Report

We will assist County financial personnel in their preparation of the Comprehensive Annual Financial Report as well as assist in the preparation and filing of the SF-SAC Data Collection Form. We will also assist in the implementation of any recommendations provided by the Government Finance Officers Association. We utilize CCH's ProSystem fx Engagement for both our workpapers and trial balance. The software allows us to easily make adjustments to one trial balance, which then updates all working papers and schedules.

Certificate of Achievement Program of the Government Finance Officers' Association (GFOA)

Our firm has extensive experience preparing and auditing comprehensive annual financial reports (CAFR) that receive the GFOA's Certificate of Achievement for Excellence in Financial Reporting. Of our twenty (20) municipal audit clients, fourteen (14) submit their CAFRs to the GFOA. Of those fourteen (14) CAFRs, we prepare thirteen (13) of those CAFRs. We also prepare CAFRs for several of our other governmental entity audit clients. Your proposed engagement partner, Lupe Garcia, also serves on the GFOA's Special Review Committee.

Assistance with Complying with New GASB Statements

We are proud of the knowledge base of Whitley Penn's Public Sector Team. We are well known in this industry for our experience and as a result, our firm's partners are consistently called upon to present to a variety of organizations. Whitley Penn is also proud to offer this training to our clients. We offer 8 hours of CPE each year for your staff.

Part of our audit planning includes meetings with management to discuss new GASB statement implementation. We will discuss applicability, determine the source of the needed information, walk through the debits and credits of the journal entries, financial statement presentation and note disclosures.

E. Independence

As auditors, we have a responsibility to maintain independence so that our opinions, conclusions, judgments, and recommendations will be impartial and will be viewed as impartial by knowledgeable third parties. With this responsibility in mind, we confirm that Whitley Penn is independent of the County or any of its agencies, including direct and indirect financial interest, as well as relationships of the proposed audit team to employees and Commissioners Court members, as defined by both auditing standards generally accepted in the United States of America and Government Auditing Standards issued by the Government Accountability Office.

Level of assistance that will be expected from County personnel, including internal audit staff

We expect to arrange all project roles and responsibilities with our staff and County staff at the outset of the engagement. We appreciate County efforts and will work with you in making sure we can utilize the information already available. We do not want to burden the staff with making requests that require the staff to “recreate the wheel.”

We anticipate that the County employees will prepare all cash and other confirmations and will locate supporting documentation such as invoices and purchase orders (based on our samples), personnel files (based on our samples), deposits, and other supporting documentation for items selected by us for testing. Account analysis schedules such as the reconciliation of bank statements, investments schedules, fixed asset and depreciation schedules, listing of accounts payable at year-end, etc., will be prepared by the County. We will request that the County provide us with supporting documentation such as grant applications, detail general ledger downloaded from the financial software, checks registers for the year, internal audit risk assessment, audit plan, issued reports and Commissioners Court meeting minutes. We encourage use of the Whitley Penn portal for the transfer of electronic files.

Staff Rotation Plans and Multiyear Contract Arrangements

We bring a wealth of understanding of Texas municipal financial operations and the specific operating environment. On many of these engagements we have made a strong effort over time to ensure “rotation” of staff on these projects. We have personnel at the partner level that would be able to assume engagement leadership with a minimum of effort. We would welcome the opportunity to discuss this fully with you.

If it is the Commissioners Court’s and Management’s desire to change audit partners as well, we can certainly accommodate the County. Each of our team members can provide a fresh perspective and we are able to do so based on the many different audit teams we can provide.

2.1 MANAGEMENT COMPONENT

Our firm is a regional firm with more than **500** people in Austin, Dallas, Fort Worth, Houston, Plano and Texas City with diverse experience and knowledge. We have an extensive team of experienced assurance and tax professionals that the firm will be able to draw upon as needed.

We have a risk advisory group that specializes in many areas but we believe they could add value to the County with the following services they provide:

- Reviewing and improving your Information Technology (IT) processes requires the kind of policy and procedure reviews that reinforce a required, certified opinion. We offer the kind of authoritative insight that IT consulting firms can't match. At the same time, we will help you leverage and extend your IT infrastructure cost effectively. Our services encompass:
 - General controls review
 - Software selection
 - Fraud detection and analysis
 - Compliance readiness assessments
 - Disaster recovery and business continuity planning
 - Vulnerability assessments

- This group also offers business process improvement services where neither size, industry nor geography is a limiting factor – we offer business process improvement for a full range of clients. Please refer to the biographies included in this proposal for the firm's Certified Information Systems Security Professionals (CISSP) and Certified Information Systems Auditors (CISA).

In addition to the risk advisory group's abilities noted above, our own public sector auditors are also certified fraud examiners, certified internal auditors and/or have over 15 years of experience working in governmental operations as Chief Financial Officers. So they are well-versed with governmental entities' operations that can add so much value to the engagement. As such, if awarded, we believe we will be able to assist the County with the "value added" services.

As part of our basic audit services, we will have our expert information technology personnel in our risk advisory group to conduct a general information technology review. By conducting this review, we will be able to identify the risk area in the largest areas of the County such as accounts payable, purchasing, human resources, and payroll.

2.1 MANAGEMENT COMPONENT

Peer Review/Quality Control Review

As a member of Nexia International, a network of independent accounting and consulting firms with member firms in over 100 countries, our firm has completed a peer review performed by a selected firm in accordance with the AICPA’s SEC Practice Section requirements. This peer review covered the year ended April 30, 2018, and resulted in a rating of pass (unmodified). The review included engagements performed under the *Government Auditing Standards*. We perform our internal inspections annually as required by program requirements. The frequency of peer reviews is every third year. We have included a copy of our most recent peer review letter in the appendices of this proposal. **Whitley Penn has been a member of the AICPA’s Governmental Audit Quality Center for more than 10 years.**

Proposed Team for Fort Bend County

2.1 MANAGEMENT COMPONENT

Dedication to the Public Sector Industry and Evidence of Teaching/Training Experience

As part of our dedication to the state and local government industry, our firm maintains associate memberships in the Texas Association of School Business Officials, the Association of School Business Officials International, the Government Finance Officers Association, the Texas Municipal League, the American Institute of Certified Public Accountants and the Texas Society of Certified Public Accountants. Through these affiliations, we are able to access tremendous resources that allow us to serve our governmental and non-profit clients at the highest levels.

Our public sector has chosen to work in this field because they believe in their governments' missions. While our main service to these governments comes in the form of auditing, we also service the public sector by providing education in many settings and also giving back to the public education. Although the limitation requirements of RFP-20-083 do not allow for their inclusion, a complete list of all of our activity in the public sector is available upon request.

TAB 3 FEE

3.1 DETAILED PRICING SCHEDULE

Obviously, fee considerations are an important factor in selecting a firm for professional services such as auditing and consulting. In this regard, we welcome input on our fee estimate levels during the proposal process. As you are aware, we would very much like to have the opportunity to serve Fort Bend County and would welcome the opportunity to discuss the appropriateness of our fee estimate levels, especially if they become a significant factor in making our firm the County's choice.

*** Fees include Federal and State single audit work (\$42,000) anticipating an average of six (6) aggregate major programs plus juvenile and adult probation activities.**

Our plan for service includes 1,302 total hours across all entities of time commitment by our partners, managers, and professional staff. We feel that this time commitment will benefit the County by allowing our firm to provide the highest levels of service by the most efficient means available. This approach should be a clear indication of our desire to fully serve the County through the creation of professional relationships with management and staff.

In April of 2020, Fort Bend County Commissioners Court accepted advanced funding of \$134 million as part of the CARES Act essentially to deal with the costs associated with the COVID-19 pandemic. On May 19th, the County's Local Government Agency Advisory Team has adopted a "CARES Act Fund Distribution" budget with a methodology to allocate funding to the different political subdivisions and activities within the County. Further, on May 21st the County Auditor's Office has established an online reimbursement procedure for designated sub recipients to apply for reimbursement for related costs.

This unprecedented action puts the County in a greatly heightened level of sub recipient monitoring and programming to include local reimbursements to local municipalities, rental assistance, small business assistance, COVID-19 related indigent health care, utility assistance and food distribution programs.

3.1 DETAILED PRICING SCHEDULE

While the compliance requirements for the spending are not dissimilar to past projects we have successfully undertaken, because of the complexity and sheer size of this activity for the County, we would be unable to realistically determine the nature, volume and timing of this program with any degree of certainty without first discussing the programmatic controls and features with the County Auditors' Office personnel. We look forward to the opportunity to sit down and map out the scale of testing required to complete this task.

Fees for our services are based on our standard hourly rates. These rates vary based on the level of our staff performing services. Professional service fees estimated and proposed for performing the audit services requested are based on the time expected to be expended by our staff in doing the work

We would expect to remain within any negotiated fee level unless factors considered by us in estimating the fee level change significantly. Should circumstances dictate that material increases in our time requirements are necessary, we would discuss this with management immediately. We would not bill the County for amounts in excess of our negotiated fees without first discussing the matter and receiving approval from management and the governing body of the corresponding entity.

Routine advisory services provided through phone calls, conferences, or otherwise in connection with incidental matters arising during the course of a year would not be billed separately but would be absorbed in our estimated annual fee. We encourage open lines of communication throughout the year as part of our services.

Exhibit C:
Letter of Engagement
dated July 29, 2020

July 29, 2020

To the Board of Directors and Management
Fort Bend County Drainage District
Fort Bend County, Texas

You have requested that we audit the financial statements of the governmental activities and the general fund of Fort Bend County Drainage District (the "District"), a component unit of Fort Bend County, Texas, as of September 30, 2020 and for the year then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements.

Accounting principles generally accepted in the United States of America require that *the management's discussion and analysis* be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *Governmental Accounting Standards Board*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries. We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by accounting principles generally accepted in the United States of America:

- 1) Management's Discussion and Analysis.
- 2) General Fund Budgetary Schedule
- 3) Required Supplementary Pension System Information
- 4) Other Post-Employment Benefit (OPEB) Information

Supplementary information other than RSI will accompany the District's basic financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the supplementary information to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on the following supplementary information in relation to the financial statements as a whole:

- 1) Texas Supplementary Information

Also, the document we submit to you will include the following other additional information that will not be subjected to the auditing procedures applied in our audit of the financial statements:

- 1) Introductory Section

To the Board of Directors and Management
Fort Bend County Drainage District
Fort Bend County, Texas

Audit of the Financial Statements

We will conduct our audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. If appropriate, our procedures will therefore include tests of documentary evidence that support the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of cash, investments, and certain other assets and liabilities by correspondence with creditors and financial institutions. As part of our audit process, we will request written representations from your attorneys, and they may bill you for responding. At the conclusion of our audit, we will also request certain written representations from you about the financial statements and related matters.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements or noncompliance (whether caused by errors, fraudulent financial reporting, misappropriation of assets, detected abuse, or violations of laws or governmental regulations) may not be detected exists, even though the audit is properly planned and performed in accordance with U.S. GAAS and *Government Auditing Standards* of the Comptroller General of the United States of America. Please note that the determination of abuse is subjective and *Government Auditing Standards* does not require auditors to detect abuse.

In making our risk assessments, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit. Our responsibility as auditors is, of course, limited to the period covered by our audit and does not extend to any other periods.

We will issue a written report upon completion of our audit of the District's basic financial statements. Our report will be addressed to the governing body of the District. We cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement.

In accordance with the requirements of *Government Auditing Standards*, we will also issue a written report describing the scope of our testing over internal control over financial reporting and over compliance with laws, regulations, and provisions of grants and contracts, including the results of that testing. However, providing an opinion on internal control and compliance over financial reporting will not be an objective of the audit and, therefore, no such opinion will be expressed.

Management's Responsibilities

Our audit will be conducted on the basis that management and, when appropriate, those charged with governance acknowledge and understand that they have responsibility:

1. For the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America;
2. For the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error fraudulent financial reporting, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements;
3. For safeguarding assets;

9. For making the auditor aware of any significant vendor / contractor relationships where the vendor / contractor is responsible for program compliance;

 - a. Access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters;
 - b. Additional information that we may request from management for the purpose of the audit; and
 - c. Unrestricted access to persons within the District from whom we determine it necessary to obtain audit evidence.
11. For adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the current year period(s) under audit are immaterial, both individually and in the aggregate, to the financial statements as a whole;
12. For maintaining adequate records, selecting and applying accounting principles, and safeguarding assets;
13. For informing us of any known or suspected fraud affecting the entity involving management, employees with significant role in internal control and others where fraud could have a material effect of compliance;

Nonattest services could include the preparation of the financial statements and government-wide conversion entries.

As part of our audit process, we will request from management and, when appropriate, those charged with governance, written confirmation concerning representations made to us in connection with the audit.

We understand that your employees will prepare all confirmations we request and will locate any documents or invoices selected by us for testing.

If you intend to publish or otherwise reproduce the financial statements and make reference to our firm, you agree to provide us with printers' proofs or masters for our review and approval before printing. You also agree to provide us with a copy of the final reproduced material for our approval before it is distributed.

The District may wish to include our report on these financial statements in an exempt offering document. The District agrees that the aforementioned auditor's report, or reference to Whitley Penn, LLP, will not be included in such offering document without prior permission or consent. Any agreement to perform work in connection with an exempt offering document, including an agreement to provide permission or consent, will be a separate engagement letter. “Whitley Penn, LLP, our independent auditor, has not been engaged to perform and has not performed, since the date of its report included herein, any procedures on the financial statements addressed in that report. Christopher Breaux, CPA is the engagement partner for the audit services specified in this letter. His responsibilities include supervising Whitley Penn, LLP's services performed as part of this engagement and signing or authorizing another qualified firm representative to sign the audit report.

Our fee for the audit services will be based on the amount of time required and the difficulty of the work involved which we estimate to be \$13,500. The fee estimate for the audit is based on anticipated cooperation from the District's personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will keep you informed of any problems we encounter and our fees will be adjusted accordingly.

Our invoices for these fees will be rendered each month as work progresses and are payable on presentation and payment is due in Tarrant County. You agree to pay reasonable attorney fees and collection costs incurred relating to collection of fees for services performed under the terms of this engagement. In accordance with Whitley Penn, LLP policy, work may be suspended if your account becomes 30 days or more past due and will not resume until your account is paid in full. In addition, invoices not paid in full by the last day of the month will be assessed interest at a rate of one percent per month. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been complete even if we have not issued our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket expenditures through the date of termination. Our final auditors' report will be released upon final payment of any outstanding invoices.

You may request that we perform additional services not addressed in this engagement letter. If this occurs, we will communicate with you concerning the scope of the additional services and the estimated fees. We also may issue a separate engagement letter covering the additional services. In the absence of any other written communication from us documenting such additional services, our services will continue to be governed by the terms of this engagement letter.

We would like to make the following comments regarding the fee estimates:

1. Our fee estimates have not considered the effects of any changes to auditing standards and accounting principles, which may be promulgated by the AICPA, Congress, or any other regulatory body in the future and are unknown to us at this time. If significant additional time is necessary resulting in increased fees, we will endeavor to notify you of any such circumstances as they are assessed.
2. The District's personnel are responsible for the preparation of all items requested in the Prepared by Client ("PBC") listing and received by the date requested. Any delays caused by not preparing the items when requested may result in additional fees, as well as the possibility of postponing our fieldwork. The PBC listing will be provided to you during the planning process of the engagement.
3. Time incurred for audit adjustments identified during our audit and the related additional testing required has not been considered in our fee estimates. Prior to performing any additional testing, we will notify you of the exceptions and obtain approval for any additional fees which may be incurred.
4. Our fee estimates are based on all general ledger sub ledgers being reconciled to the general ledger balance and any adjustment necessary should be recorded to the general ledger prior to our fieldwork start date.
