Dear Jaime,

We appreciate the opportunity to respond to BID 20-2013 for a new COVID-19 Response Vehicle. Comprehensive Communication Services (CCS) is a Texas based company and manufacturer and has been a prime DIR contract holder (TSO-3915) since 2007. Our specialty is providing mobile communication vehicles and trailers that allow our customers to operate and continue to function even when normal local resources are inoperable. CCS is based out of Ft Worth, Texas at 2800 Golden Triangle Blvd.

CCS provides all shapes and sizes of mobile units including van base units similar to what the County has specified for this project. We have completed similar projects for Texas based customers including:

In addition to doing the conversion work and manufacturing piece, we are very good at the communication and video equipment integration work – that is one of our specialties. CCS is the current contract holder for the State of Texas through TX DPS to provide all of the State's satellite network and Mutualink service for the next four years. This is our 2nd consecutive award of this contract meaning by the current contract's end we will have been providing this valuable service for the State for 8 years in a row. CCS is also an authorized AT&T FirstNet reseller and integrator and provides most of the Pepwave FirstNet LTE routers to Harris County. Our technicians work daily on LTE routers, land mobile radios and repeaters, Dispatch consoles,

video surveillance systems, interoperability servers, satellite hardware and service – basically anything related to mobile emergency response hardware and services. We also provide Zumro Air Shelters which have been used extensively during the COVID-19 response as mobile medical centers and HAZMAT cleaning units (www.zumro.com).
