**4. Public Comments regarding the Agenda and Announcements.**

Judge George announced Saturday will be the 20<sup>th</sup> anniversary of the September 11 terrorist attacks on our country, which changed our nation. A tree planting ceremony will take place at 9:00 a.m. at the historic courthouse to commemorate the thousands of lives lost.

Also, September is National Suicide Prevention Month. This is a time to help spread the word about actions that can be taken to help prevent suicide and promote healing to save lives.

Rosh Hashanah, the Jewish New Year, began on the evening of Monday, September 6, 2021 and will end on the evening of Wednesday, September 8, 2021.

Judge George welcomed Najat Elsayed who will lead the Fort Bend County Social Services Department and Shaireen Khawaja who will be the new Recovery & Engagement Coordinator in the County Judge's office.

Dr. Jacquelyn Minter, Director of Health & Human Services stated an average of 356 new cases per day were reported last week. This is up 270 from the previous week. Currently 38% of our new cases are occurring in the 0 – 19 age group, which includes school age children. Hospital bed data reported to SETRAC shows Fort Bend County has an average of 220 patients per day with COVID. There is one out of every three ICU patients in Fort Bend County hospitals that have been diagnosed with COVID. According to state data, approximately 70% of the eligible population in Fort Bend County are fully vaccinated. The Delta variant is well established in our community and appears to be a more severe form of COVID. The number of deaths are a lagging indicator, with Fort Bend County having 23 deaths in May, 11 in June, 19 in July and 47 in August. These numbers show the past three months have doubled. In addition to the vaccination protection, the use of face coverings, avoiding crowds and washing hands frequently will serve us, our families and communities well.

Mark Flathouse, Emergency Manager/Fire Marshal gave an update on disturbances in the Gulf. Currently, there is a disturbance in the Caribbean which is headed towards Florida and Louisiana. Hurricane Ida impacted many people in the US and Fort Bend County has learned this was a wind event. We have not had a hurricane impact like Ida for some time; but have had rain events. The Office of Emergency Management is taking care of the County in order to be prepared for the next storm; but they are also working with the state of Texas in case there are any needs.

There were four public participants.

Rebecca Clark, 7408 Kelsey Lane, Richmond spoke against Item 16 regarding the contract between Texas Department of State Health Services and Fort Bend County.

Chris Heasley, 12110 Meadow Valley Lane, Meadows Place spoke against Item 16 and is concerned about the additional surveillance program included in the contract.

Diane Weesner, 1507 Honeysuckle Lane, spoke against Item 16 and the medical surveillance and possibly being tracked by the County government.

Mayor Aaron Groff, 4114 Brighton Loop, Fulshear spoke against Item 16 and would like to see a breakdown of how the funds are being distributed rather than the generic use from the guidelines of the state. Mayor Groff asked the court to be transparent on what these expenditures are for and how it impacts our community. He asked the court to stick to the traditional items and matters of the surveillance impact it has on healthcare.

**5. PUBLIC HEARINGS: 1:24 p.m.: Conduct Public Hearings and take all appropriate action on the following matters:**

Commissioner Meyers stated this has been a program that is a state requirement for many years and is not something new. In addition, since this is a mandate from the state, the state from time to time sends the County money to cover some of the costs. These funds are for the purpose of reporting communicable diseases to the state as required under state law. This contract has nothing to do with Next Wave Strategies.

Dr. Jacquelyn Minter defined surveillance in the public health industry as disease monitoring. It is looking at reportable required diseases and monitoring how those diseases occur. Community based surveillance means in the community and is in local hospitals, local nursing homes and local schools. Dr. Minter briefly explained the \$900,000 will be spent on personnel actively involved in disease monitoring/surveillance, epidemiologist, data entry personnel and office supplies, which include desks and chairs.
