All Liability policies including Workers' Compensation written on behalf of Progressive shall contain a waiver of subrogation in favor of County and members of Commissioners Court.

If required coverage is written on a claims-made basis, Progressive warrants that any retroactive date applicable to coverage under the policy precedes the effective date of the contract; and that continuous coverage will be maintained or an extended discovery period will be exercised for a period of two years beginning from the time that work under the Agreement is completed.

To Whom It May Concern:

Please use this letter as sole source verification. AIR SHELTERS USA, LLC. is the sole manufacturer of all ZUMRO Air Shelters. ZUMRO's proprietary airframes have been unparalleled in the industry for over twenty-five years!

ZUMRO Shelters are an exclusive, proprietary product designed to the specifications of the first responders/first receivers, emergency management, law enforcement, military and government markets.

All ZUMRO Shelters are made 100% in the U.S.A with US materials, at our privately owned factory located in Pompano Beach, FL. ZUMRO Shelters are sold, serviced and supported by an exclusive network of authorized distributors. All repairs are handled directly at our factory, on a per-case basis.

Our products are sold to emergency services and require technical expertise both before and after the sale is completed. Further, ZUMRO requires on-site product training after delivery so our customer will have a thorough understanding on the proper use and care of our products. ZUMRO ensures that its policies are executed effectively by utilizing factory-trained distributors. Minimum training as required by ZUMRO shall be offered to our customers through the authorized distributor in your area.

All inquiries for sales, resale, parts and/or service are handled either by our local distributor or directly by ZUMRO.

Authorized distributor for the State of TEXAS for ZUMRO Shelters and Parts :

Mr. Jeff Collins, Progressive Emergency Products. Phone (210) 364-4082

Please consider the following regarding our product:

- ZUMRO has built over 6000 Shelters, mostly for use within the USA. It is very likely during large events where other teams may respond for mutual aid, they will also have this product.
- Materials and maintenance:
 - ZUMRO is the only manufacturer of inflatable Shelters that utilizes a special Life-Raft grade Neoprene airframe. This material is unique in many ways, most notably its tremendous shelf/work life.
 - Repairs and maintenance, if needed, are also unique to this material. Staying with the same materials reduces repair and maintenance needs and qualifications.

- The connector feature is unique to ZUMRO and per our design, size and zipper type. As to why there are no other manufacturers that have this same connection, the reasons are that:
 - For decades ZUMRO has been the only inflatable manufacturer in the USA (and still is). ZUMRO has been the leading product since 1986.
 - Since most teams use ZUMRO Shelters around the country, inter-operability has been automatic.
 - Competing products have not copied the design, which is also has a copyright and is registered with the Library of Congress.
- Other features that make interoperability with a ZUMRO product important is the hardware. ZUMRO Shelters have a proprietary high-flow valve system and pressure relief system designed and manufactured by a company in the US to meet Coast Guard and Military standards.
- Compatibility of Shelters and accessories also reduces training, maintenance, deployment time, storage and reduces purchasing needs.

Besides the obvious advantage of interoperability please also consider these important reasons for purchasing a ZUMRO product:

- Most durable low pressure airframe in the world. Shelter has highest wind and snow load capabilities compared with all other available rapid deployed Shelters.
- Material and Shelters have been proven to last over 20 years (and counting) of actual First Responder use.
- Shelter structure design allows Shelter to be repositioned after deployment.
- Single chamber design for fast deployment and ease of maintenance.
- Oversized air structure on all Shelter sizes for great "air safety" factor. In fact, the Model 216 Shelter has 10-to-1 safety factor, meaning it will remain operational with only 1/10 the rated air pressure.
- Unique all pre-assembled Shelter with all curtains and other interior options pre-installed for 3-5 minute deployment. Decon connections can be made during deployment for immediate use of Shelter.
- All American made.
- On-Site free in-service training and support.
- 3 Year warranty

We sincerely appreciate your business and hope to service your shelter needs for years to come. Please feel free to contact me at the above toll-free number should you have any questions or concerns.

Sincerely,
