

Fort Bend County Sheriff's Office  
Request to Retain Vehicles  
January 21, 2021

The COVID-19 pandemic created a delay in supply chain deliveries, particularly the delivery and outfitting of patrol vehicles and receipt of automobile parts. Additionally, the staff increase for Enforcement personnel in field operations is proceeding as expected and deputies are being hired without increasing the pool of marked fleet vehicles.

For the above reasons, the Sheriff's Office is requesting to re-classify the following vehicles as permanent additions. Receiving these vehicles and retaining the current vehicles that were set to be replaced will allow operations to continue and to create a pool of vehicles available for employees when a vehicle is out for repair or due to delays in receipt of parts when a vehicle is downed for long-term repair. Retaining a small pool of vehicles provides replacement vehicles for deputies assigned to the offices in Fulshear, Richmond, or Sienna.

It is our request that the 16 vehicles below be reclassified as additions. This will allow us to assign other vehicles as needed for employees working in Enforcement, SWAT, Criminal Investigations, and as needed when a vehicle is out of service for repair.
