**FORT BEND COUNTY TAX INCREMENT REINVESTMENT ZONE NUMBER ONE
FORT BEND COUNTY, TEXAS
PRELIMINARY PROJECT PLAN**

SECTION 1 - INTRODUCTION

(A) Background

A tax increment reinvestment zone (TIRZ) is a financing tool enabled by the Texas Legislature with the adoption of Chapter 311 of the Texas Tax Code to assist cities and Counties in developing or redeveloping blighted and substandard areas within their boundaries. Counties may create a TIRZ where conditions exist that substantially impair an area's sound growth and where development or redevelopment is not likely to occur but for public infrastructure enhancements financed by the TIRZ.

Upon creation of the TIRZ, the total appraised value of real property located within its boundaries is established for the year in which it was created. This is known as the base value. As new development occurs in the TIRZ due to the provision of new infrastructure, the value of real property increases.

This additional value above the base is known as the increment. It is set aside to finance infrastructure improvements within the TIRZ.

During the life of the TIRZ, the County collects tax revenue on the base value of the TIRZ. When the TIRZ is dissolved, the County also collects tax revenue on the incremental value created by new development.

Prior to creation of a TIRZ, the statute requires preparation of a Preliminary Project Plan and Reinvestment Zone Financing Plan. This document details the specific projects proposed to address existing conditions in the area as well as the method and means to finance them. After the TIRZ has been created, the TIRZ board of directors finalizes the Project Plan and Reinvestment Zone Financing Plan and forwards the same to the jurisdictional governing body (e.g. commissioners' court), for final approval as required by statute. That plan governs where tax increment revenue can be used to develop the Zone.

The November 2, 2021 Texas election included constitutional amendments, one of which, Proposition 2, authorized a county to finance the development or redevelopment of transportation or infrastructure in unproductive, underdeveloped or blighted areas in the County. The proposition passed with 63% of the vote. Previously, only municipalities could designate a TIRZ, with counties able to participate in such an entity. The recent constitutional amendment now permits counties, such as Fort Bend County, to designate a TIRZ on its own.

(B) Purpose

The purpose of Fort Bend County TIRZ is for Fort Bend County to finance needed improvements and infrastructure using captured appraised value of taxable real property within the TIRZ boundaries. These improvements can include drainage and detention projects, parks and trails, roadway improvements and public infrastructure including libraries, community centers and police stations.

Tax Increment Reinvestment Zone Number One, Fort Bend County, Texas (the "Zone") would consist of an approximately 4,050-acre tract and is generally bounded by FM 2218 to the north, FM 2977 to the south, Pleak Road on the west and north of Dry Creek to the east. It is in Fort Bend County, Texas (the "County") and within the extraterritorial jurisdiction of the Cities of Rosenberg, Pleak and Fairchilds (the "Cities"). Boundaries to the Zone are included in **Exhibit A**. While the site holds great potential due to its location, it lacks the infrastructure necessary to support development. As such, the site will not be developed to its full potential but for the creation of a TIRZ.

The Zone is proposed to supplement infrastructure costs to promote the development of primarily single-family residential development. The Zone's projected costs are primarily related to the infrastructure, detention, and drainage facilities required for this development. The public improvements proposed in this plan would convey a direct benefit to the Cities and the County both in terms of quality regional growth and significant increases in ad valorem values and tax revenue.

Sound public and fiscal policy dictate that taxing entities should seek to maximize their tax base to provide efficient and cost-effective services to their constituents. With its priorities outlined and its criteria for supporting quality new and redevelopment projects defined in this Project Plan, the County, by participating in the Zone at 75% of its ad valorem taxes collected from this area for the duration of the Zone (30 years), is poised to implement a strategy for maximizing its tax base to the benefit of existing and future citizens.

Without the creation of the Zone and the participation of the County, the significant private and public financial investment required to bring about the quality of development envisioned will not be economically feasible in the foreseeable future.

Fort Bend County Municipal Utility District No. 162 (the "District"), is actively developing within the proposed Zone, and is seeking to partner with the County to provide the regional detention, drainage, and park projects necessary to provide for the highest and best use of the Zone. To fund the regional projects, a private developer, the District, and/or the Zone will advance or cause to be advanced any necessary funding. The Zone will be used to reimburse and/or fund those

improvements that provide general benefit to the community, specifically including the needed public improvements to serve this large area of the County. The District will be used to reimburse or finance project-specific public improvements.

The respective powers, relationship obligations, roles and responsibilities of the District, the Zone, the private developers, and the County will be detailed in several contractual agreements and Interlocal agreements to document the levels of participation by the County and the administration of this Project Plan. The terms, conditions, and procedures for the sale of debt and reimbursement of developer advances will be set forth in development financing and reimbursement agreements.

Should the County, by change in law or through a successful challenge of its legal authority to institute and implement the TIRZ, be prohibited from proceeding with the TIRZ over any portion of the Zone, this Project Plan shall automatically terminate as to that portion of the Zone upon such time. With regards to the implementation and financing of the Projects as described in this Project Plan, the County shall utilize an agreement with the District via Chapter 381 of the Local Government Code to accomplish the same purpose.

SECTION 2 – PROJECT PLAN

This Project Plan and Reinvestment Zone Financing Plan (“The Plan”) has been prepared in accordance with the requirements of Chapter 311.011 of the Texas Tax Code and outlines the improvements to be funded and implemented by the TIRZ. Working in conjunction with the District, the Zone will provide the financing and management tools to construct infrastructure and other public improvements needed to encourage the sound growth of development.

Benefits to local taxing jurisdictions and taxpayers and furtherance of the County’s goals to be accomplished by the Zone include the following:

- Transform and grow current under productive tax base
- Improve housing opportunities
- Provide and upgrade regional infrastructure to support growth and promote the health, safety, and welfare of County residents

(A) **Location and Boundaries**

The Zone will encompass the boundaries of FBCMUD No. 162 and will contain approximately 4,075 acres. FBCMUD No. 162 is located in west Fort Bend County entirely in the extra-territorial jurisdiction of the City of Rosenberg, approximately two miles southeast of the Central Business District of Rosenberg. The District is predominately bound on the north by Koeblen Road with 10.5 acres north of Koeblen Road, predominately bound on the south by Hand Road, the west is bound by acreage and the east is bound FM 2977/Minnonite Road with a 136.997-acre tract on the east side of FM 2977. See **Exhibit A** for a map of the Zone and District.

(B) **Existing and Proposed Land Use**

The existing land use is single-family development and a Lamar Consolidated Independent School District (LCISD) middle school and high school. Proposed land use in the undeveloped areas of the Zone includes additional single-family development, a gas station, a LCISD agricultural facility, a LCISD elementary school, multi-family development and regional parks and detention. See **Exhibit B** for a master plan map of proposed land use including renderings of proposed projects.

There are no City zoning guidelines within FBCMUD No. 162 and the Zone will follow the architectural guidelines implemented by FBCMUD No. 162. See **Exhibit C** for build-out projections within the Zone. No changes to any ordinances, including development ordinances or building codes, are required to implement this Plan.

See **Exhibit F** for a list of the parcels that are to be included in the Zone.

(C) **Estimated Non-project Costs**

There are no non-project costs associated with this project plan. Projects not funded by the Zone will be financed by either private developers or FBCMUD No. 162.

(D) **Relocation of Residents**

No relocation is contemplated by this Plan. Proposed future development is on uninhabited land.

DRAFT

SECTION 3 – FINANCING PLAN

The Zone will provide funding for public improvements, infrastructure, and facilities in support of a distinctive development. The infrastructure will provide necessary services for future growth opening further opportunities. The comprehensive and long-term nature of the project will promote stability, and sustainable opportunities in an area that is currently undervalued and underutilized.

(A) Estimated Project Costs

The Zone, District, and private developers will make every effort to ensure that all Zone expenses are reasonable; however, it is understood that time and circumstance may cause costs of individual projects to rise or fall, and that the costs outlined in this plan are estimates expressed in year 2022 dollars. As such, expense line items may, over time, be adjusted to reflect actual costs. Additionally, the Board of Directors may reallocate expenditures from one line item to another. Each public project is subject to the oversight of the Zone board and the County. This oversight will consist of an advance review of the appropriateness, timing, scale and scope of all public projects. It will ensure that all applicable public bidding requirements are met, and that an auditor will review all project costs before any are eligible for reimbursement. A list describing the estimated project costs of the zone, including administrative, non-construction expenses is included below.

Construction Costs	
Powerline Road	\$ 23,000,000
Library	\$ 7,000,000
Community Center	\$ 6,000,000
Regional Detention	\$ 12,000,000
Lateral II B 7 Channel Improvements	\$ 5,000,000
Lateral II B 9 Channel Improvements	\$ 35,000,000
Trails	\$ 6,000,000
Parks	\$ 6,000,000
Sub-Total Construction Costs	\$ 100,000,000
Non- Construction Costs	
Legal Fees	\$ 3,000,000
Financial Advisory Fees	\$ 2,000,000
Engineering Fees	\$ 11,000,000
Administration Fees	\$ 2,000,000
Sub-Total Construction Costs	\$ 18,000,000
GRAND TOTAL	\$ 118,000,000

In addition to the projects described in the table above, the following categories established in Section 311.002 (1) of the Texas Tax Code as eligible project costs will be considered eligible project costs. The Zone will fund project costs at the discretion and approval of the Board of Directors of the Zone. And, when appropriate and practicable, the Zone will consider financing other projects, such as:

- Capital Expenses related to demolition, environmental abatement, and remediation including site work and fill, necessary to prepare sites and existing structures for new use.
- Land Costs associated with property formally conveyed to the public in conjunction with the implementation of projects otherwise eligible for reimbursement, may also be eligible for reimbursement. The County, District, and the Zone shall establish procedures for determining the appropriateness and eligibility of any such costs based on Municipal Utility District rules for reimbursement.
- Matching Funds may be contributed in support of local, state, federal or other capital improvements programs that benefit the project and the region.
- Streetscape, Gateways, Parks, and Community Facilities that enhance or serve the existing and future development. These may include, but are not limited to, lighting, walks, landscaping and related street furniture, greenbelts and paths, trails, parks, outdoor pavilions, non-profit community and arts space, and recreational/sports facilities.
- Professional Fees incurred for architectural, planning, engineering, legal, landscape architecture, financial, marketing, public relations, management, leasing, bookkeeping, tax role verification, environmental, archaeological, and other services and advice necessary to the project.
- Financing Costs related to developer's interest and financing interest, legal fees, underwriter's fees, brokerage charges, transfer or placement charges, premium and fees paid for loans, credit enhancement fees, notes, bonds or other instruments of credit issued to pay for project costs.
- Operational Expenses as may be necessary to provide for the proper administration of the Zone over its life.
- Organizational Costs, including the costs of conducting environmental impact studies or other studies, the cost of publicizing and organizing the creation of the Zone, and the cost of implementing the Project Plan for the Zone.

(B) Public Improvements to be Financed

See **Exhibit B** for location of improvements within the Zone.

(C) Economic Feasibility

The plan is economically feasible, and an economic feasibility study is included in Exhibit D.

(D) Bonded Indebtedness

The estimated amount of bonded indebtedness to be incurred is \$31,860,000.

(E) Schedule of Monetary Obligations

See **Exhibit E** for cash flow and debt service schedules.

(F) Financing

The methods of financing all estimated project costs and the expected sources of revenue to finance or pay project costs is through FBCTIRZ No. 1 funds, FBCMUD No. 162 funds, County funds and private developers. The percentage of tax increment to be derived from the property taxes of each taxing unit anticipated to contribute tax increment to the zone that levies taxes on real property in the zone is 75%.

(G) Current Total Appraised Value

The current total appraised value of taxable real property in FBCTIRZ No. 1 is \$219,794,466

(H) Estimated Captured Appraised Value

The estimated captured appraised value of the zone during each year of its existence is further described on Exhibit D.

(I) Duration of Zone. FBCTIRZ No. 1 will terminate on January 1, 2053. FBCTIRZ No. 1 may terminate at an earlier time designated by subsequent order, or at such time, subsequent to any FBCTIRZ No. 1 contractual obligations, if any, that all contractual obligations have been paid in full and any bonds issued by FBCMUD No. 162 have been secured by FBCTIRZ No. 1 revenues. The County and the FBCTIRZ No. 1 shall use their best efforts to provide for the payment of all project costs, in order to minimize the life of FBCTIRZ No. 1. Upon termination of the FBCTIRZ No. 1, any residual funds from tax increments will be returned to the County.
