Bridgette Smith-Lawson, County Attorney explained a Public Facilities Corporation is an entity that is created legally. It is a stand alone separate entity that is able to issue bonds and generate revenue for different projects the County would like to undertake without tapping into taxes. This item is to allow for a feasibility study and will have to be presented to the court for final approval.

Commissioner Prestage stated the intent is for the members of Commissioners Court to be the governing body of this Facilities Corporation. This came about due to the redevelopment of the Fresno Community, which is in need of new housing. The corporation could be the conduit to allow the private sector to build multifamily and single family affordable housing in the community. This Public Facilities Corporation is for all of Fort Bend County; not just one community. It is a tool that could be used to possibly help the need for transitional housing for children who have aged out of foster care.
