12.0 AWARD:

This contract will be awarded to the overall lowest and best bid meeting specifications, however, Fort Bend County reserves the right to award by group, section, item, or as best serves the County's interest. Therefore, vendor(s) must enter a price for each and every line item on the pricing form. Failure to complete bid pricing form in its entirety will result in disqualification of bid. To ensure an uninterrupted source of service, Fort Bend County reserves the right to award to a "Primary", "Secondary" or "Tertiary" vendor. Fort Bend County will initially request service from the "Primary" vendor and only from the "Secondary and Tertiary" vendor as necessary due to time constraints, availability, etc.

13.0 SPECIFICATIONS AND REQUIREMENTS:

Vendor shall furnish emergency response service required to respond to potentially hazardous incidents or accidents on or along highway rights-of-ways, as well as facilities or waterways within Fort Bend County. Vendor shall also provide non-emergency cleanup of hazardous and/or non-hazardous waste for Fort Bend County. These services also include sampling, analysis,

13.1 Emergency Response for Hazardous Materials, Clean-up, Removal, and Disposal

13.1.1 Vendor shall comply with all laws and regulations of the federal, state and local government in whose jurisdiction the service is performed. All work shall be performed in a manner that minimizes the possibility of threats to the traveling public, human health or the environment. Vendor shall be responsible for the preservation of all public and private property, and shall use every precaution necessary to prevent damage thereto.

13.1.2 Vendor shall receive approval from the Fort Bend County designated representative(s) prior to final disposition of material. When disposition of material is by fuel blending or incineration, certificates of destruction of treatment shall accompany the final copy of the manifest.

13.1.3 Vendor shall perform all services in the most economical way practical, subject to the constraints of the contract.

13.1.4 Vendor shall be responsible for locating all utility lines underground, aboveground and aerial that are in the vicinity of the job-site. 13.1.6 Authorization - A list of Fort Bend County representatives will be given to the vendor upon award of the contract. The Fort Bend County representative(s) will contact the vendor by telephone, in person, or in writing to request service under this contract. All known information of the situation will be provided to the vendor. A written request for service will be emailed to the vendor within seventy-two (72) hours of initial notification. Vendor shall advise the Fort Bend County designated representative(s) within thirty (30) minutes of arrival to the site, of the situation and the progress of the response.

13.1.7 Mobilization – Vendor shall be responsible for an immediate emergency

Initials of Bidder: 

mobilization as requested by the Fort Bend County designated representative(s). The Fort Bend County designated representative will determine if only primary or all (primary, secondary and tertiary) vendor(s) will be mobilized based on the vendors' actual response time to the emergency situation, the scale and scope of remediation, and prior scene performance. The vendor would be required to mobilize within one (1) hour upon the identification of an emergency situation by the Fort Bend County designated representative(s), and after notification and authorization for action. "Mobilization within one (1) hour" means the vendor shall be "on-scene" at the emergency response site within one (1) hour with personnel, materials and equipment sufficient to begin the remediation process. Vendor notification may be oral or written. The mobilization time frame can be extended if exigent circumstances are present and warrant giving the vendor additional time. Failure by the vendor to respond within the allowed time frame may, at Fort Bend County option, place the vendor in default and subject the vendor to cancellation of the contract. Under the National Incident Management System (NIMS), an "Incident Commander" will be designated by the responding government agencies "command and control" the scene. The vendors shall follow the directions of the Incident Commander unless the instructions would directly cause physical injury or violate local, state or federal law. Incident Command will be established by First Responder. If both vendors are "on-scene", they are expected to work as one (1) entity to assist in the recovery. The Incident Commander may designate specific tasks for each vendor to help expedite the remediation.

Sampling or waste capable of identification through process knowledge shall be used in lieu of testing when applicable. Bid pricing for sample analysis shall include all costs for analysis, sample jars, transportation, sample disposal and Chain-of-Custody documentation. Chain-of-Custody Forms (COC) shall accompany sample results and quality control. Sample results, the COC and all quality assurance documentation shall be submitted to Fort Bend County designated representative(s) within thirty (30) days of completion of results. Prior to the selection of a disposal option, Fort Bend County designated representative(s) shall review and authorize the selected tests/analyses necessary in order to determine the proper disposition option. Copies of all analytical results and waste classifications documentation, including quality assurance/quality control data will be provided to Fort Bend County for review. Fort Bend County shall have the opportunity to obtain a split sample of any material recovered during a cleanup. Laboratories shall be accredited by the State of Texas

13.1.9 Removal of Material - Contaminated material(s) and any surround media suspected to be contaminated by the material shall be removed from the site within forty-eight (48) hours. When possible, the vendor shall remove and transport all removed soils, solids and liquids directly to a disposal or treatment facility as identified in Enclosure 2. Disposal Facilities. Off-site decontamination of equipment and disposal of all decontamination by-products (fluids, sediments, etc.) is incidental to the equipment bid item. If direct transport is not possible, materials may be staged at a Fort Bend County facility subject to the approval of the Fort Bend County designated representative(s) for duration specified by Fort Bend County, but not to exceed thirty (30) days. Prior to staging at any Fort Bend County facility, the vendor shall ensure that all material is properly labeled and dated in accordance with applicable federal, state, or local regulations. Furthermore, vendor shall be responsible for any contamination that results from damaged or leaking containers.

Fort Bend County shall receive, within five (5) working days after delivery, a legible uniform manifest prepared, signed and dated by an agent of the vendor for the disposal or treatment facility certifying the type and amount of materials delivered to the treatment/disposal facility. An EPA Uniform Manifest form shall be forwarded within forty-five (45) days to the Fort Bend County designated representative(s), indicating the disposal or destruction facilities acceptance and disposal were in accordance with applicable regulations. All required manifest should contain the following Fort Bend County disclaimer:

DISCLAIMER: THE GENERATOR OF THIS MATERIAL IS UNKNOWN. This material was deposited on a Fort Bend County property, easement or Fort Bend County operated toll road without consent by, or knowledge of, the County. Removal of this material is a voluntary public service performed by the County and is not an admission that the County has any legal responsibility for removal.

For purposes of this bid, cleanups can be classified as either **contained**, defined as abandoned waste material left in an intact, sealed container, or **uncontained**, defined as abandoned waste material from a ruptured/damaged container, or minor spill, diffused into the environment. Generally, the cleanup of contaminated soils is at a ratio of one (1) drum of contaminated soil to one (1) drum of waste. For the purposes of this bid a fifty-five (55) gallon drum of solid waste shall be considered to weigh 800 pounds, and a fifty-five (55) gallon drum of liquid waste shall be considered to weigh 460 pounds.

- 13.2.3 Laboratory Analysis – Defines as all laboratory tests/analyses necessary to sufficiently identify, classify, and/or process hazardous or non-hazardous waste in order to disposition same. The estimated quantities as listed on the Bid Pricing Form, Item II., 1., A. and 3., A. includes calls from Fort Bend County to dispose of self-generated waste and abandoned on easements. Question 3: Page 2, Item 26 Traffic barricades: what type of barricades?

Answer: Barrels are preferred for lane closures.

- 1.18 Name Brands: Specifications may reference name brands and model numbers. It is not the intent of Fort Bend County to restrict these bids in such cases, but to establish a desired quality level of merchandise or to meet a pre-established standard due to like existing items. Bidders may offer items of equal stature and the burden of proof of such stature rests with them. Fort Bend County shall act as sole judge in determining equality and acceptability of products offered.
- 1.19 Color Selection: Determination of colors of materials is a right reserved by the using department unless otherwise specified in the bid. Unspecified colors shall be quoted as standard colors, not colors, which require up charges or special handling. Unspecified fabrics or vinyl should be construed as medium grade. If bidder fails to get color/material approvals prior to delivery of merchandise, the using department may refuse to accept the items and demand correct shipment without penalty, subject to other legal remedies.
- 1.20 Evaluation: Evaluation shall be used as a determinant as to which bid items or services are the most efficient and/or most economical for the County. It shall be based on all factors, which have a bearing on price and performance of the items in the user environment. All bids are subject to tabulation by the Fort Bend County Purchasing Department and recommendation to Fort Bend County Commissioners Court. Compliance with all bid requirements, delivery and needs of the using department are considerations in evaluating bids. Pricing is NOT the only criteria for making a recommendation. The Fort Bend County Purchasing Department reserves the right to contact any bidder, at any time, to clarify, verify or request information with regard to any bid.
- 1.21 Inspections: Fort Bend County reserves the right to inspect any item(s) or service location for compliance with specifications and requirements and needs of the using department. If a bidder cannot furnish a sample of a bid item, where applicable, for review, or fails to satisfactorily show an ability to perform, the County can reject the bid as inadequate.
- 1.22 Testing: Fort Bend County reserves the right to test equipment, supplies, material and goods bid for quality, compliance with specifications and ability to meet the needs of the user. Demonstration units must be available for review. Should the goods or services fail to meet requirements and/or be unavailable for evaluation, the bid is subject to rejection.
- 1.23 Disqualification of Bidder: Upon signing this bid document, a bidder offering to sell supplies, materials, services, or equipment to Fort Bend County certifies that the bidder has not violated the antitrust laws of this state codified in section 15.01, et seq., Business & Commerce Code, or the federal antitrust laws, and has not communicated directly or indirectly the bid made to any competitor or any other person engaged in such line of business. Any or all bids may be rejected if the County believes that collusion exists among the bidders. Bids in which the prices are

Initials of Bidder: 

obviously unbalanced may be rejected. If multiple bids are submitted by a bidder and after the bids are opened, one of the bids is withdrawn, the result will be that all of the bids submitted by that bidder will be withdrawn; however, nothing herein prohibits a vendor from submitting multiple bids for different products or services.

- 1.24 Awards: Fort Bend County reserves the right to award this contract on the basis of lowest and best bid in accordance with the laws of the State of Texas, to waive any formality or irregularity, to make awards to more than one bidder, to reject any or all bids. In the event the lowest dollar bidder meeting specifications is not awarded a contract, the bidder may appear before the Commissioners Court and present evidence concerning his responsibility. An award is final only upon formal execution by the Fort Bend County Commissioners Court or the Fort Bend County Purchasing Agent. Fort Bend County reserves the right to withdraw any award until execution by the proper authority.
- 1.25 Assignment: The successful vendor may not assign, sell or otherwise transfer this contract without written permission of Fort Bend County Commissioners Court.
- 1.26 Term Contracts: If the contract is intended to cover a specific time period, said time will be given in the specifications under scope.
- 1.27 Maintenance: Maintenance required for equipment bid should be available in Fort Bend County by a manufacturer authorized maintenance facility. Costs for this service shall be shown on the bid sheet as requested or on a separate sheet, as required. If Fort Bend County opts to include maintenance, it shall be so stated in the purchase order and said cost will be included. Service will commence only upon expiration of applicable warranties and should be priced accordingly.
- 1.28 Contract Obligation: Fort Bend County Commissioners Court must award the contract and the County Judge or other person authorized by the Fort Bend County Commissioners Court must sign the contract before it becomes binding on Fort Bend County or the bidders. Department heads are not authorized to sign agreements for Fort Bend County. Binding agreements shall remain in effect until all products and/or services covered by this purchase have been satisfactorily delivered and accepted.
- 1.29 Title Transfer: Title and Risk of Loss of goods shall not pass to Fort Bend County until Fort Bend County actually receives and takes possession of the goods at the point or points of delivery. Receiving times may vary with the using department. Generally, deliveries may be made between 8:30 a.m. and 4:00 p.m., Monday through Friday. Bidders are advised to consult the using department for instructions. The place of delivery shall be shown under the "Special Requirement" section of this bid document and/or on the Purchase Order as a "Ship To:" address.
- 1.30 Purchase Order and Delivery: The successful bidder shall not deliver products or

Initials of Bidder:

provide services without a Fort Bend County Purchase Order, signed by an authorized agent of the Fort Bend County Purchasing Department. The fastest, most reasonable delivery time shall be indicated by the bidder in the proper place on the bid sheet. Any special information concerning delivery should also be included, on a separate sheet, if necessary. All items shall be shipped F.O.B. inside delivery unless otherwise stated in the specifications. This shall be understood to include bringing merchandise to the appropriate room or place designated by the using department. Every tender or delivery of goods must fully comply with all provisions of these requirements and the specifications including time, delivery and quality. Nonconformance shall constitute a breach, which must be rectified prior to expiration of the time for performance. Failure to rectify within the performance period will be considered cause to reject future deliveries and cancellation of the contract by Fort Bend County without prejudice to other remedies provided by law. Where delivery times are critical, Fort Bend County reserves the right to award accordingly.

- 1.31 Contract Extension: Extensions may be made only by written agreement between Fort Bend County and the bidder. Any price escalations are limited to those stated by the bidder in the original bid.
- 1.32 Termination: Fort Bend County reserves the right to terminate the contract for default if Seller breaches any of the terms therein, including warranties of bidder or if the bidder becomes insolvent or commits acts of bankruptcy. Such right of termination is in addition to and not in lieu of any other remedies, which Fort Bend County may have in law or equity. Default may be construed as, but not limited to, failure to deliver the proper goods and/or services within the proper amount of time, and/or to properly perform any and all services required to Fort Bend County's satisfaction and/or to meet all other obligations and requirements. Contracts may be terminated without cause upon thirty (30) days written notice to either party unless otherwise specified.
- 1.33 Recycled Materials: Fort Bend County encourages the use of products made of recycled materials and shall give preference in purchasing to products made of recycled materials if the products meet applicable specifications as to quantity and quality. Fort Bend County will be the sole judge in determining product preference application.
- 1.34 Interlocal Participation: Additional governmental entities may purchase from this bid. Vendor agrees to accept purchase orders from those participating entities and to invoice each entity separately.
- 1.35 Escalation Clause: Successful bidder may apply for a price increase to the Fort Bend County Purchasing Agent. The County Purchasing Agent will review, and, if increase is deemed warranted, place the request on Fort Bend County's Commissioners Court agenda for their action of approval or disapproval. Approval by the County's Commissioner's Court is required. Any proposed price increase will

only be the amount increased to the vendor from his/her supplier. The price increase request must be stated on the vendor's letterhead with the bid number and name in the subject including, in columns, for each item: item description, original bid price, percent of increase, and the total cost of the original bid price including the increased dollar amount. Written documentation from the vendor's supplier of the increase notice must be provided to the Purchasing Agent at time of increase request. No application for a price increase may be submitted within the first twelve (12) months of this contract. Increase requests of more than 25% of the original bid price will not be considered.

- 1.36 Modifications: This instrument contains the entire Contract between the parties relating to the rights herein granted and obligations herein assumed. Any oral or written representations or modifications concerning this instrument shall be of no force and effect excepting a subsequent written modification signed by both parties hereto.

Seller shall bear cost of packaging unless otherwise provided. Goods shall be suitably packed to secure lowest transportation costs and to conform to requirements of common carriers and any applicable specifications. Fort Bend County's count or weight shall be final and conclusive on shipments not accompanied by packing list.
- 2.2 Shipment Under Reservation Prohibited: Seller is not authorized to ship goods under reservation and no tender of a bill of lading will operate as a tender of goods.

- 2.5 No Replacement of Defective Tender: Every tender or delivery of goods must fully comply with all provisions of the Purchase Order as to time of delivery, quality and the like. Initials of Bidder: 

purchase order entitled "Ship To". Any change thereto shall be effective by modification as provided for in Clause number 2.20 "Modifications", hereof. The terms of this agreement are "no arrival, no sale", at the discretion of Fort Bend County.

2.7 Invoices and Payments:

2.7.1 Seller shall submit separate invoices, in duplicate. Invoices shall indicate the purchase order number and the bid number if applicable. Invoices shall be itemized and transportation charges, if any, shall be listed separately. A copy of the bill of lading, and the freight waybill when applicable should be attached to the invoice.

2.7.2 Fort Bend County's obligation is payable only and solely from funds available for the purpose of this purchase. Lack of funds shall render the order null and void to the extent funds are not available and any delivered but unpaid goods will be returned to Seller by the county.

2.7.3 Do not include Federal Excise, State, or City Sales Tax. Fort Bend County is a tax-exempt governmental entity.

2.8 Gratuities: Fort Bend County may, by written notice to the Seller, cancel any order without liability, if it is determined by the County that gratuities, in the form of entertainment, gifts, or otherwise were offered or given by the Seller, or any agent or representative of the Seller to any officer or employee of Fort Bend County with a view toward securing an order. In the event an order is canceled by the County pursuant to this provision, the County shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by Seller in providing such gratuities.

2.9 Special Tools and Test Equipment: If the price stated on the face of an order includes the cost of any special tooling or special test equipment fabricated or required by Seller for the purpose of filing this order, such special tooling equipment and any process sheets related thereto shall become the property of the County and to the extent feasible shall be identified by the Seller as such.

2.10 Warranty/Price:

2.10.1 The price to be paid by the County shall be that contained in Seller's quote or bid which Seller warrants to be no higher than Seller's current prices on orders by others for products of the kind and specification covered by an order for similar quantities under similar or like conditions and methods of purchase. In the event Seller breaches this warranty the prices of the items shall be reduced to the Seller's current prices on orders by others. Fort Bend County may cancel this contract without liability.

Initials of Bidder:

- 2.10.2 The Seller warrants that no person or selling agency has been employed or retained to solicit or secure any County order based upon any agreement or understanding for commission, percentage, brokerage, or contingent fee excepting bona fide employees of bona fide established commercial or selling agencies maintained by the Seller for the purpose of securing business. A breach or violation of this warranty gives the County the right, in addition to any other right or rights, to cancel this contract without liability.
- 2.11 Warranty Product: Seller shall not limit or exclude any implied warranties and any attempt to do so shall render an order voidable at the option of the County. Seller warrants that the goods furnished will conform to the specifications, drawings, and description listed in the bid invitation and purchase order as applicable, and to the sample(s) furnished by Seller if any. In the event of a conflict between the specifications, drawings, and descriptions, the specifications shall govern.
- 2.12 Safety Warranty: Seller warrants that the product sold to Fort Bend County shall conform to the standards promulgated by the U.S. Department of Labor under the Occupational Safety and Health Act of 1970. In the event the product does not conform to OSHA standards, the County may return the product for correction or replacement at the Seller's expense. In the event Seller fails to make the appropriate correction within 10 days, correction made by the County will be at Seller's expense.
- 2.13 No Warranty by Fort Bend County Against Infringements: As part of a contract for sale Seller agrees to ascertain whether goods manufactured in accordance with the specifications will give rise to the rightful claim of any third person by way of infringement. Fort Bend County makes no warranty that the production of goods according to the specification will not give rise to such a claim and in no event shall Fort Bend County be liable to Seller for indemnification in the event the Seller is sued on the grounds of infringement or the like. If Seller is of the opinion that an infringement will result, he will notify Fort Bend County to this effect in writing within two days after the receiving Purchase Order. If the County does not receive notice and is subsequently held liable for the infringement, Seller will defend and save the County harmless. If Seller in good faith ascertains that production of the goods in accordance with the specifications will result in infringement, this contract shall be null and void except that the County will pay Seller the reasonable cost of his search as to infringements.
- 2.14 Right of Inspection: The County shall have the right to inspect the goods at delivery before accepting them.
- 2.15 Cancellation: Fort Bend County shall have the right to cancel for default all or any part of the undelivered portion of an order if Seller breaches any of the terms hereof including warranties of Seller, or if the Seller becomes insolvent or files for protection under the bankruptcy laws. equity.

2.16 Termination: The performance of work under a Purchase Order may be terminated in whole or in part by the County in accordance with this provision. Without limiting the generality of the foregoing, "Force Majeure" shall include but not be restricted to the following types of events: acts of God or public enemy; acts of governmental or regulatory authorities; fires, floods, epidemics or serious accidents; unusually severe weather conditions; strikes, lockouts, or other labor disputes; and defaults by subcontractors.

In the event of a Force Majeure, the affected party shall not be deemed to have violated its obligations under this Agreement, and the time for performance of any obligations of that party shall be extended by a period of time necessary to overcome the effects of the Force Majeure, provided that the foregoing shall not prevent this Agreement from terminating in accordance with the termination provisions. If any event constituting a Force Majeure occurs, the affected party shall notify the other parties in writing, within twenty-four (24) hours, and disclose the estimated length of delay, and cause of the delay.

2.18 Assignment-Delegation: No right or interest in an order shall be assigned or delegation of any obligation made by Seller without the written permission of Fort Bend County. Any attempted assignment or delegation by Seller shall be wholly void and totally ineffective for all purposes unless made in conformity with this paragraph.

2.19 Waiver: No claim or right arising out of a breach of any contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waived or renunciation is supported by consideration and is in writing signed by the aggrieved party.

2.20 Modification: A Purchase Order can be modified or rescinded only by a writing signed by both of the parties or their duly authorized agents.

2.21 Parol Evidence: This writing is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of this agreement. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any terms rendered under this agreement and shall not be relevant to determine the meaning of this agreement even

- 2.24 Right to Assurance: Whenever the County in good faith has reason to question the other party's intent to perform. The County may demand that the other party give written assurance of his intent to perform. In the event that a demand is made and no assurance is given within five (5) days, the County may treat this failure as an anticipatory repudiation of the contract.
- 2.25 Venue: Both parties agree that venue for any litigation arising from this contract shall lie in Richmond, Fort Bend County, Texas.
- 2.26 Prohibition Against Personal Interest in Contracts: No officer or employee of the County shall have a financial interest, direct or indirect, in any contract with the County, or shall be financially interested, directly or indirectly, in the sale to the County of any land, materials, supplies, or service, except on behalf of the County as an officer or employee. This contract will be awarded to the overall lowest and best bid meeting specifications, however, Fort Bend County reserves the right to award by group, section, item, or as best serves the County's interest. Therefore, vendor(s) must enter a price for each and every line item on the pricing form. Failure to complete bid pricing form in its entirety will result in disqualification of bid. To ensure an uninterrupted source of service, Fort Bend County reserves the right to award to a "Primary", "Secondary" or "Tertiary" vendor. Fort Bend County will initially request service from the "Primary" vendor and only from the "Secondary and Tertiary" vendor as necessary due to time constraints, availability, etc.

"Mobilization within one (1) hour" means the vendor shall be "on-scene" at the emergency response site within one (1) hour with personnel, materials and equipment sufficient to begin the remediation process. Vendor notification may be oral or written. The mobilization time frame can be extended if exigent circumstances are present and warrant giving the vendor additional time. Failure by the vendor to respond within the allowed time frame may, at Fort Bend County option, place the vendor in default and subject the vendor to cancellation of the contract. Under the National Incident Management System (NIMS), an "Incident Commander" will be designated by the responding government agencies "command and control" the scene. The vendors shall follow the directions of the Incident Commander unless the instructions would directly cause physical injury or violate local, state or federal law.
