- Preferred sizing on promotional materials
- Promotional items in swag bag provided by sponsor

Gold \$500

- Advertising on promotional materials

Emergency Medical Services is preparing to hold its 4th annual EMS Training Symposium March 25-28, 2024. Each year the event grows and we anticipate over 250 participants this year.

As the event has grown, EMS has relied upon partners and stakeholders to help with the associated needs that make the Symposium an excellent event that will cause our attendees to continue to invite friends and colleagues to come back the following year.

These expenses grow as attendance grows. An example of the help we have received is our hospital partners have purchased lunches for the attendees so they do not have to leave the event allowing for more time for education. Unfortunately, this type of purchases for hospitals and some of our other vendors can be difficult to do and remain compliant with state and federal laws regarding kick-backs and inappropriate spending.

To help alleviate these issues, EMS would like to have a sponsorship program so that we can get funding in a more regulatory acceptable method. For the 2024 Symposium, we would have a [Bronze](#) (\$500), [Gold](#) (\$1000) and [Platinum](#) (\$2000) level so our stakeholders, partners and vendors could support this event. Each of these will have a variety of benefits for the sponsorship including logos being displayed in various ways, opportunities to have a booth for attendees to visit and at the [Platinum](#) level, an opportunity to speak to attendees during lunch.

If approved we will advertise these sponsorship levels and begin to accept sponsor payments. The expenses for the Symposium would then be paid for from these funds.
