As you will see outlined below, our proposed solution is custom tailored to ensure your office puts its best foot forward, can actively inform and interact with the community it serves and that you can easily call your community to action by rapidly disseminating urgent messages, notifications and pertinent agency news.

*At the end of the initial contract period, Host will contact the customer for a renewal confirmation. Confirmation is typically communicated through email or other electronic means. Host will also send a renewal invoice 30 days prior to the expiration of this agreement. Receiving the invoice without renewal confirmation does not lock the customer into renewal. Customer will have 30 days to decline renewal. Host retains ownership of all intellectual property rights associated with the services, its technology and any enhancements or modifications thereof.

4. **AMENDMENTS:** This Agreement may be supplemented, amended, or modified only by the mutual agreement of the parties. No supplement, amendment, or modification of this Agreement shall be binding unless it is in writing and signed by all parties.

OCV, LLC TERMS AND CONDITIONS

1. MOBILE APP CREATION AND REVIEW PERIOD: Upon execution of this contract, the OCVapps team will go to work on designing and building your app(s). At the design phase, we will solicit your initial design ideas, existing graphics and logos and use any other existing asset that you have to set the direction. A mock up / prototype will be developed using graphics and be sent to you for approval/ review. This will happen prior to the start of coding. Upon electronic approval of the prototype images, OCV, LLC will begin coding your app (contingent on having all information from the customer).

Upon completion of the code, OCV will review and test the app at all levels. Once the app passes our internal review and processes, we will upload it to the Apple iTunes Store/Google Play store for official App review and release.

Upon acceptance of the app within the iTunes store/ Google Play store, we will notify you via email/phone. After the App is released in the stores we will train you how to use the control panel and how to update your app. Total elapsed time estimate: ~ 45 - 60 days after all information is provided to Host project management staff.

2. OCV, LLC Features: Features will be solidified after contract acceptance.

3. CUSTOMER/OCV CONTROL: An OCVapp exists in two parts: the "features" and "content". The features remain static in nature. The "content" is the update-able features that the client can update. OCV will work with your team to ensure that you can edit the "content" via RSS feeds and a custom web accessible control panel. Unless requested of OCV by the client, only the client can make changes to the content within the control panel.

4. PUSH NOTIFICATION AND OTHER ALERT NOTIFICATIONS: An OCVapp may be instrumented with a Push notification or other Alert terminology. OCV does not warranty, suggest, or advertise that an OCVapp is designed for life saving immediate warnings. The OCVapp push notification and alert systems are simply intended to give a central location for end users to see the latest information. While it will be the intent of a push notification to be delivered to your OCVapp, it is not something that can be guaranteed. Due to the technical limitations, multiple internet connections and outside factors that are out of the control of OCV, we suggest that our warnings will almost always be delivered in less than a minute. Some instances will show quicker and others slower. There is a chance that during a storm or other emergency, information may slow due to power outages, mobile phone network shortages or outages and many other factors. In severe situations, the feed may not happen at all.

Note: Never assume that the end user has received the push notification. Due to the requirements of the marketplace, push notifications are opt-in services. A user can turn off the notifications at any time or uninstall the app.

5. **Warranties Disclaimer:** Due to the many links in the overall national and regional communication networks and infrastructure (national/regional cellular/mobile communication networks and their traffic management, land-phone lines and regional switching networks, power grids, etc.) all of which are completely outside the control or monitoring of OCV, OCV disclaims any and all warranties with respect to the Client's use of an App developed by OCV, direct or indirect, including but not limited to warranties of merchantability and fitness for a particular purpose. In no event shall OCV, its affiliates, business partners, service providers, employees, agents, representatives, or shareholders be liable to customer for any incidental, consequential, indirect, special, or punitive damages (including damages due to: service failures, business or service interruptions, etc.) for any aspect of its service outside of OCV's direct control.

IN WITNESS WHEREOF, the parties have executed this Agreement by their duly authorized representatives.

This Agreement constitutes the entire Agreement between the parties with respect to the subject matter hereof, and as of the date this Agreement is executed by both Parties, shall supersede any previous agreements or understandings, written or oral, between the Parties. All modifications to the applicable Compensation arrangement shall be in writing and signed by both Parties and shall not supersede the terms of this Agreement.

The Agreement shall commence on Not yet accepted.

The total cost of the Proposal is \$90,000.

The total cost for the subsequent years is \$40,000/year

RE: Sole Source Products/Services

To Whom It May Concern:

This letter is to confirm that TheSheriffApp.com mobile smartphone apps are Sole Source products/services, created and sold exclusively by TheSheriffApp.com, a division of OCV,LLC.

OCV,LLC/TheSheriffApp.com is the only app development company that specializes in serving Sheriff's Offices with downloadable native iPhone and Android mobile apps. Although there are other custom app developers, TheSheriffApp.com is the only company that has specialized in serving the unique needs of Sheriffs' Offices and Public Safety for the past ten years, and now serves over eight hundred public safety agencies in more than 40 states. 100% of our design and development is in the U.S.

OCV / TheSheriffApp.com mobile apps are custom created - from design to engineering - and tailored to serve the unique needs of each agency.

TheSheriffApp.com has developed unique features designed to serve the Sheriff's Office, the public, incarcerated persons and their families, and county employees.

Sole Source Feature

A very specific and Sole Source feature allows OCV / TheSheriffApp.com to connect via an API with Appriss/Equifax (Vinelink) that allows users to search current inmates and request status change notifications in APP. Status change requests can be made in APP for individual inmates, once complete the citizen can choose to be alerted of these changes via email, phone (voice), or text message. We are the only custom app developer with direct access to this inmate data and the ability to register for alerts and notifications when an inmate status is changed.

In addition to our Sole Source Feature listed above, the following is a list of Proprietary Systems available to the agencies we serve include:

- 1) OCV,LLC creates a custom-tailored Administrative Control Panel for each agency to allow for the fluid updating of content and for sending push notifications (alerts) to the phone, website, and social media.
 - a) Scheduled Push Notifications - Allow administrators to schedule future alerts and notifications.
 - b) Scheduled "Hide" capability of alerts/push notifications
 - c) Permission based administrative controls - Allows the agency to have several administrators with different levels of control and access. This allows the agency to engage more staff and target their specific focus in providing information to the citizens they protect.

TheSheriffApp.com custom native mobile apps are a unique resource and solution for the Sheriff's Office. They allow for innovative communications with the public, by sharing important alerts, news, emergency communications, inmate information, and much more.

This product must be purchased directly by institutions from OCV,LLC/TheSheriffApp.com at the address listed above.

Sincerely,

Kevin Cummings
