\*\* Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$17.20) or 13658 (\$12.90). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate

Initials of Bidder: CSW

whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

#### Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

#### Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

#### Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

#### State Adopted Rate Identifiers

Classifications listed under the ""SA"" identifier indicate that the prevailing wage rate set by a state (or local) government was adopted under 29 C.F.R. §1.3(g)-(h). Example: SAME2023-007

Initials of Bidder: CAU

01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 01/03/2024 reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor

The superintendent shall not be transferred from the Project without Fort Bend County's consent (which shall not be unreasonably withheld or delayed); provided, however, the superintendent shall not be assigned solely to the Project and shall be entitled to spend reasonable time working on matters unrelated to the Project so long as such work on other matters does not render the superintendent unavailable to the Project or unavailable to Fort Bend County. However, such obligation to furnish the superintendent and such staff personnel shall not be construed (a) to preclude the promotion within the Contractor's organization of any person assigned to the Project or (b) to give rise to any liability of the Contractor if any person assigned to the Project (including, without limitation, the superintendent) leaves the Contractor's employment. If the superintendent is transferred from the Project, Fort Bend County shall have the right to approve the replacement superintendent (which approval will not be unreasonably withheld or delayed). - 14.12 Protection Against Risks. The Contractor shall take all precautions which are necessary and adequate, against conditions created during the progress of the Project which involve a risk of bodily harm to persons or a risk of damage or loss to any property. Such equipment and facilities shall be serviceable and kept fit for the uses intended. Defective items shall be removed from the construction site promptly and at the Contractor's cost. - 14.14 Materials. Except as may be specifically provided otherwise in the Contract or approved in advance by Fort Bend County, the Contractor shall provide Fort Bend County with copies of material testing reports and to cause all materials, equipment, and fabricated items incorporated in the Project to be new and of a suitable grade of their respective kinds for their intended use.

  - c) Acts or failures to act of the County, third party utility owners or other third – party entities; and
  - d) Acts of war or terrorism.

Initials of Bidder: CAW

Contractor and the County agree and stipulate that an extension of the Contract Time shall be the sole remedy of Contractor for delays in performance of the Work, whether or not such delays are foreseeable, except for delays caused solely by acts of the County that constitute fraud, intentional misrepresentation, gross negligence, intentional arbitrary or capricious acts and/or omissions or intentional interference with Contractor's performance of the Work and then only to the extent such acts continue after Contractor notifies Owner in writing of such conduct. For delays caused by any act(s) other than fraud, intentional misrepresentation, gross negligence, intentional arbitrary or capricious acts and/or omissions or intentional interference with Contractor's performance of the Work Contractor shall not be entitled to any compensation or recovery of any damages including, without limitation, those damages prohibited or limited in Sections 14.15.1 – 14.15.8 below. The County's exercise of any of its rights or remedies under the Contract including, without limitation, ordering changes in the Work or directing suspension, rescheduling, or correction of the Work, in response to any breach or failure by the Contractor to comply with the terms of the Contract Documents or the Contractor's obligations arising therefrom, shall not be construed as intentional interference with Contractor's performance of the Work regardless of the extent or frequency of the County's exercise of such rights or remedies.

Without limiting the foregoing, except as otherwise expressly provided in this Agreement in calculating the amount of any claim recoverable by Contractor, the following limitations on the recovery of damages shall apply:

14.15.1 No indirect or consequential damages will be allowed.

14.15.2 No recovery shall be based on a comparison of planned expenditures to total actual expenditures, or on estimated losses of labor efficiency, or on a comparison of planned manloading to actual manloading, or any other analysis that is used to show damages indirectly.

14.15.3 Damages, to the extent recoverable, are limited to the additional, actual costs specifically shown to have been directly incurred by the Contractor and solely caused by the proven wrong.

14.15.4 No damages will be allowed for home office overhead or other home office charges.

14.15.5 No exemplary damages or unjust enrichment damages shall be recoverable.

14.15.6 No recovery of attorney's fees shall be recoverable except as expressly permitted under the Agreement.

14.15.7 No profit will be allowed on any damage claim, except as expressly recoverable under the Agreement as Fee on Cost of the Work incurred.

Initials of Bidder: CSH

14.15.8 Notwithstanding any other damage limitation herein the County and the Contractor recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by the Contractor if the County is found to have intentionally interfered with Contractor's performance of the Work by fraud, misrepresentation, gross negligence, or intentional arbitrary or capricious acts and/or omissions. Accordingly, instead of requiring any such proof, the County and the Contractor agree that as liquidated damages (in lieu of any other remedy or damages) for delay, disruption or hindrance (but not as a penalty) the County shall pay the Contractor \$250.00 for each day that a court of competent jurisdiction finds the County's conduct referenced in Section 14.15 (above) is the sole cause of Contractor's delay in completing the Work.

At C.A. Walker, we diversify our specialty in construction in a variety of sectors, noted by our experience in partnering with all types of owners and developers. Most of the work that we specialize in extends from renovations of medical offices and banks to ground up construction of retail stores, storage facilities, schools, and public works.

C.A. Walker Construction takes pride in work performed and we value integrity to the highest degree. We dedicate full attention and resources to both jobs awarded as well as jobs out for bid. In doing so, our primary goal is to provide the highest quality of work for clients, but also a partnership with top qualified subcontractors to perform work on the project from foundation to completion.

Upon receiving notice to proceed, C.A. Walker Construction immediately begins all subcontractor evaluations and insurance verification, followed by selection of the most qualified subcontractors and vendors for a project. Subsequently, the office team will begin document verification and organization to confirm that all necessary materials are available prior to the construction process.

C.A. Walker strives to constantly improve and grow as a reputable leader in the Houston construction industry. Weekly team meetings allow for continuous evaluation of what is needed to maintain project schedule, stay within budget, and provide vital quality control. Attention to workers' safety is second to none. We initiate a strict safety plan to ensure workers are safe and prudent regardless of their placement on site. Our Project Managers, General Superintendents, and Project Superintendents are trained in professional safety and first aid. All subcontractors are required to attend weekly safety meetings on site and comply with safety policies and OSHA regulations.

Since its inception in 1994, 30 years in the industry have allowed C.A. Walker Construction to experience great success supported by a positive reputation of fostering and preserving strong relationships with clients.

# understanding **scope of work**

At C.A. Walker Construction, we understand that clients entrust the company with an integral part of their success and therefore, expect C.A. Walker to perform. Years of experience have equipped C.A. Walker Construction with the knowledge and insight to develop projects on schedule and within budget. Our growth and success are a testament to our capacity to deliver. We are confident in our ability to provide value engineering and service levels unparalleled in the construction industry.

C.A. Walker Construction fully understands the specific precautions necessary to manage a project of this size and scope, as we have done more than several of comparable nature in the past. We are experienced in Multi-Story Structural Steel ground-up projects of all sizes. In terms of new construction, we have successfully executed projects ranging from various medical facilities to multi-story office buildings and numerous commercial projects in between.

Our approach to a successful project centers on understanding the specifics that clients value along with the intent purpose of the building itself. Once that information is compiled we begin the process of selecting all qualified subcontractors for the project. After selections have been made, we issue the necessary documents without delay to subcontractors and process all information accordingly so that construction can begin on site immediately upon permit approval. The C.A. Walker team coordinates with subcontractors in completing and organizing all necessary documentation and submittals so there are no delays once the job begins; in doing so, assurances can be made that all materials are prepped and ready for implementation on site.

Our Project Managers conduct onsite weekly meetings to maintain project timeliness and quality control, thus ensuring efficiency and productivity to the highest level. C.A. Walker continually manages all facets of the project to assure that no outstanding holds exist that could potentially delay the project; subsequently resolving any possible conflicts to make certain the project is executed according to schedule. Meetings off site take place simultaneously at the C.A. Walker Construction main office to make sure the entire team is well informed of the current project status and which, if any, items remain unresolved. Communication is an integral part of the entire project operation, not only between internal team members but between partners in the project as well, i.e. the architect and the owner's representative, both of which are welcomed and encouraged to attend site meetings. Project Superintendents submit weekly updates to all necessary individuals noting work completed as well as upcoming milestones to safeguard that all items have been addressed, while also acting as an important measure of project timeliness.

These fundamental steps in the construction process allow C.A. Walker to ensure necessary project management and execution.

## **QUALITY OF WORK**

C.A. Walker Construction takes pride in work performed and we value integrity to the highest degree. We dedicate full attention and resources to both jobs awarded as well as jobs out for bid. In doing so, our primary goal is to provide the highest quality of work for clients, but also a partnership with top qualified subcontractors to perform work on the project from foundation to completion. Our company has amassed a sizable portfolio of large-scale commercial projects ranging from medical office buildings and ambulatory service facilities for hospitals like Memorial Hermann, to school renovations and new facility construction for school districts across the Greater Houston MSA, to retail focused centers for clients such as Transwestern and CBRE. At C.A. Walker, we diversify our specialty in construction in a variety of sectors, noted by our experience in partnering with all types of owners and developers. Most of the work that we specialize in extends from renovations of medical offices and banks to ground up construction of retail stores, storage facilities, schools, and public works.

## **MAINTAINING SCHEDULE**

Upon receiving notice to proceed, C.A. Walker Construction immediately begins all subcontractor evaluations and insurance verification, followed by selection of the most qualified subcontractors and vendors for a project. Subsequently, the office team will begin document verification and organization to confirm that all necessary materials are available prior to the construction process. Our Project Managers conduct onsite weekly meetings to maintain project timeliness and quality control, thus ensuring efficiency and productivity to the highest level. C.A. Walker continually manages all facets of the project to assure that no outstanding holds exist that could potentially delay the project; subsequently resolving any possible conflicts to make certain the project is executed according to schedule. Meetings off site take place simultaneously at the C.A. Walker Construction main office to make sure the entire team is well informed of the current project status and which, if any, items remain unresolved. Communication is an integral part of the entire project operation, not only between internal team members but between partners in the project as well, i.e. the architect and the owner's representative, both of which are welcomed and encouraged to attend site meetings. Project Superintendents submit weekly updates to all necessary individuals noting work completed as well as upcoming milestones to safeguard that all items have been addressed, while also acting as an important measure of project timeliness.

## **CHANGE ORDERS**

A Change Order is a bilateral agreement between parties to the contract – an owner and general contractor, general contractor and subcontractor, two or more subcontractors – to change the contract; a Change Order represents the mutual consensus between the parties on a change to the work, the price, the schedule, or some other term of the contract. As such, because it represents a mutual consensus, a Change Order is usually the greatest, and least controversial, way to make changes. At C.A. Walker Construction, we believe in the importance of fair and reasonable pricing as well as timely scheduling consideration when it comes to Change Orders on a job.

## **WARRANTY WORK**

Warranties are a part of every construction contract. Some warranties are written into the contract expressly, while other warranties are implied by law. Whether the warranty is express or implied, each warranty can lead to liability for a party to the contract if the warranty is breached in some way. At C.A. Walker Construction we take the time to fully understand how each warranty is involved in the overall construction process to gain an understanding of the risk on the project for all parties involved.

## **CLIENT SATISFACTION**

C.A. Walker Construction is committed to creating the ultimate customer service organization in the building industry.

We have defined what exceptional customer service means, and more importantly, we understand that each customer has their own classification of excellence in this field. Project by project, client by client, we continually grasp how to best meet and exceed our clients' expectations in customer service. It is our intention to relate to all people involved in a project's scope with absolute integrity. Our growth and success are a testament to our capacity to deliver and we are confident in our ability to provide value engineering and service levels unparalleled in the construction industry.

## **TIME IN BUSINESS**
