Ed Sturdivant, County Auditor stated the Road and Bridge team has exhausted the allocation in the 2023 mobility bond authorization for this initiative. If the Road and Bridge Department is to proceed with the repairs in the individual precincts, an option is to use Certificates of Obligation or each Commissioner could take funds from an existing project in their mobility precinct allocation.

Commissioner Meyers expressed concern about the County continuing to issue Certificates of Obligation for long live capital projects. Normally, the legislature anticipates we will go to the voters for these kinds of approvals. Commissioner stated there is a bill pending in legislation to significantly restrict counties and cities' abilities to utilize Certificates of Obligations other than through a declared emergency by the Federal Government or the State.
