

PETITION FOR CONSENT TO ANNEX LAND INTO  
FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 23

THE STATE OF TEXAS                   §  
   §  
COUNTY OF FORT BEND               §

TO THE HONORABLE MAYOR AND CITY COUNCIL OF THE CITY OF HOUSTON,  
TEXAS:

The undersigned, COUNTY OF FORT BEND, TEXAS, (the "Petitioner") and FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 23 (the "District"), acting pursuant to the provisions of Chapter 49, Texas Water Code, particularly Section 49.301, together with all amendments and additions thereto, respectfully petition the City Council of the City of Houston, Texas (the "City"), for its written consent to the annexation by the District of approximately 4.635 acres of land described by metes and bounds in **Exhibit A** (the "Land"), which is attached hereto and incorporated herein for all purposes. In support of this petition, the undersigned would show the following:

I.

The District is a municipal utility district duly created under the laws of the State of Texas on February 15, 1978. The District was created and organized under the terms and provisions of Article XVI, Section 59, of the Constitution of Texas, and is governed by the provisions of Chapters 49 and 54, Texas Water Code, as amended.

II.

The Petitioner holds fee simple title to the Land, as indicated by the certificate of ownership provided by the Fort Bend Central Appraisal District and supplemented, as needed, by certified deeds recorded in the Official Public Records of Fort Bend County, Texas.

III.

The Petitioner represents that there are no lienholders on the Land.

IV.

The Land is situated wholly within Fort Bend County, Texas. No part of the Land is within the corporate limits of any incorporated city, town or village, and no part of the Land is within the extraterritorial jurisdiction (as such term is defined in Texas Local Government Code, Section 42.021 et seq., as amended) of any city, town or village except the City. All of the Land may properly be annexed into the District.

The general nature of the work to be done within the Land is the construction, acquisition, maintenance and operation of a waterworks and sanitary sewer system, and a drainage and storm sewer system.

V.

There is, for the following reasons, a necessity for the above-described work. The Land, which will be developed for commercial and/or residential purposes, is urban in nature, is within the growing environs of the City, is in close proximity to populous and developed sections of Fort Bend County, Texas, and within the immediate future will experience a substantial and sustained residential and commercial growth. There is not now available within the Land an adequate waterworks and sanitary sewer system nor an adequate drainage system, and it is not presently economically feasible for the Land to provide for such systems itself. Because the health and welfare of the present and future inhabitants of the Land and of lands adjacent thereto require the construction, acquisition, maintenance and operation of an adequate waterworks and sanitary sewer system and a drainage and storm sewer system, a public necessity exists for the annexation of the Land into the District, to provide for the purchase, construction, extension, improvement, maintenance and operation of such waterworks and sanitary sewer system and such drainage and storm sewer system, so as to promote the purity and sanitary condition of the State's waters and the public health and welfare of the community.

VI.

The undersigned estimate, from such information as they have at this time, that the cost of extending the District's facilities to serve the Land is \$73,000.00.

VII.

The Petitioner and the District agree and hereby covenant that if the requested consent to the annexation of the Land to the District is given, the Petitioner and the District will adopt and abide by the conditions set forth in **Exhibit B**, attached hereto and incorporated herein for all purposes.

WHEREFORE, the undersigned respectfully pray that this petition be heard and granted in all respects and that the City give its written consent to the annexation of the Land into the District.

## **EXHIBIT "B"**

(a) To the extent authorized by law, the District will issue bonds only for the purpose of purchasing and constructing, or purchasing, or constructing under contract with the City of Houston, or otherwise acquiring waterworks systems, sanitary sewer systems, storm sewer systems, drainage facilities, recreational facilities, road facilities, or facilities for fire-fighting services, or parts of such systems or facilities, and to make any and all necessary purchases, construction, improvements, extensions, additions, and repairs thereto, and to purchase or acquire all necessary land, right-of-way, easements, sites, equipment, buildings, plants, structures, and facilities therefor, and to operate and maintain same, and to sell water, sanitary sewer, and other services within or without the boundaries of the District. Such bonds will expressly provide that the District reserves the right to redeem the bonds on any interest-payment date subsequent to the fifteenth (15th) anniversary of the date of issuance without premium and will be sold only after the taking of public bids therefor, and none of such bonds, other than refunding bonds, will be sold for less than 95% of par; provided that the net effective interest rate on bonds so sold, taking into account any discount or premium as well as the interest rate borne by such bonds, will not exceed two percent (2%) above the highest average interest rate reported by the Daily Bond Buyer in its weekly "20 Bond Index" during the one-month period next preceding the date notice of the sale of such bonds is given, and that bids for the bonds will be received not more than forty-five (45) days after notice of sale of the bonds is given. The resolution authorizing the issuance of the District's bonds will contain a provision that any pledge of the revenues from the operation of the District's water and sewer and/or drainage system to the payment of the District's bonds will terminate when and if the City of Houston, Texas, annexes the District, takes over the assets of the District and assumes all of the obligations of the District. No land located within the extraterritorial jurisdiction of the City of Houston will be added or annexed to the District until the City of Houston has given its written consent by resolution or ordinance of the City Council to such addition or annexation.

(b) (1) Before the commencement of any construction within the District, its directors, officers, or developers and landowners will submit to the Director of the Department of Public Works and Engineering of the City of Houston, or to his designated representative, all plans and specifications for the construction of water, sanitary sewer, drainage, and road facilities and related improvements to serve the District and obtain the approval of such plans and specifications therefrom. All water wells, water meters, flushing valves, valves, pipes, and appurtenances thereto, installed or used within the District, will conform exactly to the specifications of the City of Houston. All water service lines and sewer service lines, lift stations, sewage treatment facilities, and road facilities, and appurtenances thereto, installed or used within the District will comply with the City of Houston's standard plans and specifications as amended from time to time. Prior to the construction of any water, sanitary sewer, drainage or road facilities within or by the District, the District or its engineer will give written notice by registered or certified mail to the Director of Public Works and Engineering, stating the date that such construction will be commenced. The construction of the District's water, sanitary sewer, drainage and road facilities will be in accordance with the approved plans and specifications, and with applicable standards and specifications of the City of Houston; and during the progress of the construction and installation of such facilities, the Director of Public Works and

Engineering of the City of Houston, or an employee thereof, may make periodic on-the-ground inspections.

(2) Before the expenditure by the District of bond proceeds for the acquisition, construction or development of recreational facilities, the District shall obtain and maintain on file, from a registered landscape architect, registered professional engineer or a design professional allowed by law to engage in architecture, a certification that the recreational facilities, as constructed, conform to the applicable recreational facilities design standards and specifications of the City of Houston's Department of Parks and Recreation and shall submit a copy of the certification and the "as built" plans and specifications for such recreational facilities to the Director of the City of Houston Parks and Recreation Department.

(3) Before the expenditure by the District of bond proceeds for the acquisition, construction or development of facilities for fire-fighting services, the District shall obtain and maintain on file, from a registered architect, registered professional engineer or a design professional allowed by law to engage in facility design and construction, a certification that the facilities for fire-fighting services, as constructed, conform to the applicable fire-fighting facilities design standards and specifications of the City of Houston's Fire Department and shall submit a copy of the certification and the "as built" plans and specifications for such facilities for fire-fighting services to the Chief of the City of Houston Fire Department.

(c) The District will agree to engage a sewage plant operator holding a valid certificate of competency issued under the direction of the Texas Commission on Environmental Quality, or such successor agency as the legislature may establish ("TCEQ"), as required by Section 26.0301, Texas Water Code, as may be amended from time to time. The District will agree to make periodic analyses of its discharge pursuant to the provisions of Order No. 69-1219-1 of the Texas Water Quality Board (predecessor agency to the TCEQ) and further to send copies of all such effluent data to the Department of Public Works and Engineering, City of Houston, as well as to the TCEQ. The District will agree that representatives of the City of Houston may supervise the continued operations of the sewage treatment facility by making periodic inspections thereof.

(d) The District, its board of directors, officers, developers, and/or landowners will not permit the construction, or commit to any development within, the District that will result in a wastewater flow to the serving treatment facility which exceeds that facility's legally permitted average daily flow limitations or the District's allocated capacity therein.

(e) Prior to the sale of any lot or parcel of land, the owner or the developer of the land included within the limits of the District will obtain the approval of the Planning Commission of the City of Houston of a plat which will be duly recorded in the Real Property Records of Harris County, Texas, and otherwise comply with the rules and regulations of the Department of Planning and Development and the Department of Public Works and Engineering of the City of Houston.
