

I move to amend Exhibit 2 to the order the Mike Gibson Response to Comments JL Amendment 1 to move census blocks identified as numbers 481576755032070 and 481576755032071 in Dave's Redistricting to Precinct 3 from Precinct 2.

These two census blocks which are in the city of Thompsons contains 6 people and 3 voters. A primary objective of this Redistricting Effort is to put as many of the cities within one precinct as practical. These two census blocks are in Precinct 2 whereas all the rest of Thompsons are in precinct 3.

The Mike Gibson map complies with all relevant state and federal statutes as confirmed in the legal memorandum from Rogers Morris and Grover, as opposed to the 2021 Map, which does not. No attorney reviewed the 2021 Map for compliance with all laws prior to its adoption on a 3 to 2 vote of the court.

The Mike Gibson map was presented to the public and all elected officials who had ample opportunity to review and provide input as opposed to the 2021 map which did none of that.

The Mike Gibson Map does not redistrict any elected official out of their home as opposed to the current map which did so at a cost of 10s of thousands of dollars to some officials.

It keeps all the precinct offices within their current precinct as opposed to the 2021 map which moved precincts 1, 3 & 4 into completely different areas.

It puts most of the cities within one commissioner precinct as opposed to the 2021 map which split many of the cities into multiple precincts.

It creates 2 Democrat, and 2 Republican precincts as opposed to the 2021 map which created three Democrat precincts and one Republican precinct in a politically 50/50 county.

The 2021 map is grossly unfair to voters as it did not meet federal and state statutes. That redistricting moved 80% of residents and voters into a different precinct with different elected officials that they had not voted for.

The 2021 redistricting effort cost county taxpayers over \$2,000,000 whereas this current effort should be less than \$100,000

The county has already gone through 2 elections utilizing a map that does not comply with all relevant state or federal laws. We should not go through another election utilizing that illegal map.
